Is International Law International? Anthea Roberts, 2017 This book takes the reader on a sweeping tour of the international legal field to reveal some of the patterns of difference, dominance, and disruption that belie international law's claim to universality. Pulling back the curtain on the divisible college of international lawyers, Anthea Roberts shows how international lawyers in different states, regions, and geopolitical groupings are often subject to distinct incoming influences and outgoing spheres of influence in ways that reflect and reinforce differences in how they understand and approach international law. These divisions manifest themselves in contemporary controversies, such as debates about Crimea and the South China Sea. Not all approaches to international law are created equal, however. Using case studies and visual representations, the author demonstrates how actors and materials from some states and groups have come to dominate certain transnational flows and forums in ways that make them disproportionately influential in constructing the international. This point holds true for Western actors, materials, and approaches in general, and for Anglo-American (and sometimes French) ones in particular. However, these patterns are set for disruption. As the world moves past an era of Western dominance and toward greater multipolarity, it is imperative for international lawyers to understand the perspectives and approaches of those coming from diverse backgrounds. By taking readers on a comparative tour of different international law academies and textbooks, the author encourages them to see the world through the eyes of others -- an essential skill in this fast changing world of shifting power dynamics and rising nationalism.

The Emergence of International Society in the 1920s Daniel Gorman, 2012-08-20 Chronicling the emergence of an international society in the 1920s, Daniel Gorman describes how the shock of the First World War gave rise to a broad array of overlapping initiatives in international cooperation. Though national rivalries continued to plague world politics, ordinary citizens and state officials found common causes in politics, religion, culture and sport with peers beyond their borders. The League of Nations, the turn to a less centralized British Empire, the beginning of an international ecumenical movement, international sporting events and audacious plans for the abolition of war all signaled internationalism's growth. State actors played an important role in these developments and were aided by international voluntary organizations, church groups and international networks of academics, athletes, women, pacifists and humanitarian activists. These international networks became the forerunners of international NGOs and global governance.

International Education and Foreign Languages National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Committee to Review the Title VI and Fulbright-Hays International Education Programs, 2007-08-18 International Education and Foreign Languages reviews the Department of Education's Title VI and Fulbright-Hays Programs, which provide higher education funding for international education and foreign language programs. This book offers a timely look at issues that are increasingly important in an interconnected world. It discusses the effect of the nation's lack of expertise in foreign languages and cultural knowledge on national security and global competitiveness and it describes the challenges faced by the U.S. educational system and the federal government in trying to address those needs. The book also examines the federal government's recent proposal to create a new National Security Language Initiative, the role of the Department of Education, and current efforts to hold higher education programs accountable. This book provides information and recommendations that can help universities, educators, and policy makers establish a system of foreign language and international education that is ready to respond to new and unanticipated challenges around the world.

Latin America in the New International System Joseph S. Tulchin, Ralph H. Espach, 2001 Tulchin and Espach (both are at the Woodrow Wilson International Center for Scholars) have collected ten essays on the place, choices, dangers, and options of Latin America in the context of economic globalization. The contributors are political scientists, scholars on international affairs, and specialists in Latin America. Three essays feature Cuba, Brazil, and Mexico separately; the rest consider Latin America as a whole, particularly in terms of its foreign and economic policies. International Peacekeeping Paul Francis Diehl, 1993 Since the end of the Cold War, U.S. officials have been more willing to remind allies that the United States will not play the role of international policeman. Given U.S. reluctance, the job of peacekeeping will fall increasingly to international organizations and regional alliances. In International Peacekeeping Paul Diehl examines the recent record of United Nations peacekeeping forces and develops criteria for assessing their operations. His analysis provides useful guidance for the management of new hostilities in areas such as Central and Eastern Europe, where the dissolution of the Soviet Union has spawned bitter civil wars and dangerous border disputes. Diehl identifies three sets of factors that affect traditional international peacekeeping operations. He begins by discussing the practical concerns of peacekeeping efforts, such as force composition, organization, and deployment. He then examines issues related to the political and military context in which the forces are deployed, including the nature of the conflict and the involvement of third parties. Finally, he considers the authorization by the relevant international body - usually the United Nations - as it relates to the mission's mandate, policies, and financing. He concludes by analyzing the viability of new roles for U.N. peacekeeping troops, such as humanitarian assistance, and by exploring structural alternatives to U.N. peacekeeping operations.

International Ethics Mark R. Amstutz, 2013-02-21 Now in a comprehensively revised and updated edition, International Ethics cogently demonstrates that moral values and ethical reasoning are indispensable in global politics. Through balanced arguments and a wide-ranging selection of case studies, Mark R. Amstutz convincingly demonstrates that moral norms are an essential element of foreign policy and that ethical analysis is central to the study of international relations. Amstutz illustrates the role of moral norms in global politics with twenty-five revised and new case

studies. The cases are focused on eight major global issues: political reconciliation, human rights, war, irregular war, foreign intervention, economic sanctions, justice among states, and global justice. This clearly written study will be of special interest to students and practitioners of international affairs who are concerned with the role of political morality and ethical judgment in global affairs.

The Privileges and Immunities of International Organizations in Domestic Courts August Reinisch, 2013-09-12 International organizations are increasingly operating across borders and engaging in legal transactions in virtually all jurisdictions. This makes, familiarity with the applicable law and practice imperative for both international organizations and those who engage in legal relations with them. Furthermore, the issue of whether, how, and to what extent domestic courts take into account decisions of foreign and international courts and tribunals in their own decision-making has become increasingly important in recent years. This book provides a comprehensive empirical study of this transnational judicial dialogue, focusing on the law and practice of domestic jurisdictions concerning the legal personality, privileges, and immunities of international organizations. It presents a selection of detailed country-by-country studies, examining the manner of judicial dialogue across domestic jurisdictions, and between national and international courts. The approach taken in this book intersects with three highly topical areas of international legal scholarship: the rapidly evolving law of international institutions; the burgeoning research into the role of domestic courts in the international legal system; and the recent rise of empirically-oriented legal scholarship. Utilizing OUP's International Law in Domestic Courts database, the book presents analysis of little-known cases which have real international significance, illustrating the impact and extent of transnational judicial dialogue in the international legal system. The book provides important perspectives on the evolution and status of the law of immunity of international organizations, and contributes to the understanding of relationships between national courts, and between national and international courts.

Institutional Supports for the International Rule of Law Charles Sampford, Ramesh Thakur, 2014-08-27 The rule of law is widely seen as the cornerstone of any effective polity and increasingly a vital component of the international political system. If the international rule of law were to be strengthened, it would greatly contribute to trade, security, human rights and global cooperation in a range of fields. Yet, in many areas the rule of law seems almost absent in international affairs. This book explores the institutions that support the effectiveness of the rule of law domestically. It focuses on the extent to which similar institutions already exist at international level and analyses the possibility of their further development. The authors speculate on how the international rule of law might be advanced in the future, thereby suggesting potential strategies for strengthening the international rule of law. Adopting an interdisciplinary approach and combining the fields of international relations, politics and law, this book covers a range institutions including: UN Security Council International Court of Justice Human rights machinery Regional human rights International Criminal Court World Trade Organization International Tribunal for the Law of the Sea UN Department of Peacekeeping Operations. It will be of strong interest to students and scholars of international relations, international organisations, global governance, international law, migration law, international peace and security law, applied ethics, political economy, political science and sociology.

What Moves Man Annette Freyberg-Inan, 2004-01-01 A critical look at the image of human nature that underlies the realist theory of international relations.

Desiring TESOL and International Education Raqib Chowdhury, Phan Le Ha, 2014-01-22 This book addresses how Western universities have constructed themselves as global providers of education, and are driven to be globally competitive. It examines how the term 'international' has been exploited by the market in the form of government educational policies and agencies, host institutions, academia and the mass media. The book explores matters relating to the role of the English language in international education in general and the field of TESOL in particular. It demonstrates how English and TESOL have exercised their symbolic power, coupled with the desire for international education, to create convenient

identities for international TESOL students. It also discusses the complexity surrounding and informing these students' painful yet sophisticated appropriation of and resistance to the convenient labels they are subjected to.

International Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free International PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone,

regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free International PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of International free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of

knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About International Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. International is one of the best book in our library for free trial. We provide copy of International in digital format, so the resources that you find are reliable. There are also many Ebooks of related with International. Where to download International online for free? Are you looking for International PDF? This is definitely going to save you time and cash in something you should think about.
