Jane Stuart Smith, Betty Carlson

*The Encyclopedia of Film Composers* Thomas S. Hischak, 2015-04-16 For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.

**The Gift of Music** Jane Stuart Smith, Betty Carlson, 1995 Fascinating descriptions of forty leading composers whose faith, or lack of it, had an influence on Western civilization. Indexed. Great for all students of music.

Secret Lives of Great Composers Elizabeth Lunday, 2014-04-08 True tales of murder, riots, heartbreak, and great music. With outrageous anecdotes about everyone from Gioachino Rossini (draft-dodging womanizer) to Johann Sebastian Bach (jailbird) to Richard Wagner (alleged cross-dresser), Secret Lives of Great Composers recounts the seamy, steamy, and gritty history behind the great masters of international music. You'll learn that Edward Elgar dabbled with explosives; that John Cage was obsessed with fungus; that Berlioz plotted murder; and that Giacomo Puccini stole his church's organ pipes and sold them as scrap metal so he could buy cigarettes. This is one music history lesson you'll never forget!

**Classical Music** Phil G. Goulding, 2011-03-16 MAKE A SOUND INVESTMENT IN CLASSICAL MUSIC Who are the ten most important classical composers? Who in the world was Palestrina? Why did Stravinsky's Rite of Spring cause a riot? Which five of each important composer's works should you buy? What is a concerto and how does it differ from a sonata? Maybe you don't know the answers to these questions; author Phil Goulding certainly didn't. When Goulding first tried to learn about classical music, he found himself buried in an avalanche of technical terms and complicated jargon--so he decided to write the book he couldn't find. The result is a complete classical music education in one volume. Comprehensive, discriminating, and delightfully irreverent, Classical Music provides such essential information as: \* Rankings of the top 50 composers (Bach is #1. Borodin is #50) \* A detailed and anecdotal look at each composer's life and work \* The five primary works of each composer and specific recommended CDs for each. \* Further great works

of each composer--if you really like him \* Concise explanations of musical terminology, forms, and periods \* A guide to the parts and history of the symphony orchestra This book uses every conceivable gimmick to immerse readers in the richness of classical music: lists, rankings, sidebars devoted to lively anecdotes, and catchy leads. --The Washington Post One terrific music appreciation book...The information is surprisingly detailed but concisely presented. Goulding's writing style is breezy yet mature....[He] has raised music appreciation from a racket to a service. --The Arizona Daily Star

**The World of Music** Anna Dunphy comtesse de Brémont, 1892

**Composition in the Digital World** Robert Raines, 2015 American composers are at the forefront of a renaissance in concert music, in the process expanding the very definition of the category. The impact of digital technology on the creative process and the unprecedented diversity of contemporary composers are arguably among the catalysts driving the rebirth. In this series of personal interviews with some of the most prominent composers of art music currently working on the American music scene, composer and educator Robert Raines leads the intimate conversations through subjects ranging from the source of inspiration to work habits, the realities of the business of music, and the impact of technology on music and life in the 21st century. The musicians who participated in these conversations are as different from one another as might be imagined, both in styles of music and approaches to life and art, resulting in a series of stories that offer a kaleidoscopic view of the many paths to creativity, yet a common thread that runs through the interviews is the passionate artistic drive that is shared by all. The inspirational stories of struggles and successes, told in the artists' own words and distinctively framed by their individual personalities - humorous, curmudgeonly, serious, serene, and playful by turns - is a delightful and thought-provoking journey full of personal insights, advice, and sharp observations on composing music in a changing, technology-driven world. A loving homage to the artistic spirit, this book is a must-read for students of composition, professors and scholars of music, composers and aspiring composers, and anyone interested in the subjective process of writing music. This rich and entertaining collection provides a unique glimpse into the workings of the creative spirit in the digital age. -- Publisher's description.

**Musical Landscapes in Color** Bill Banfield, 2004-09-01 A sequel to the award-winning *The Black Composer Speaks* (Scarecrow Press, 1978), this exploration of the creative world of African American composers traces the lives and careers of 40 talented individuals and, in their own words, provides perspectives on a world that has been slow to recognize their remarkable contributions to classical music. The discussion places the music of these composers within the greater context of Western art music, but analyzes it through the lenses of sociology, Western concepts of art and taste, and vernacular musical forms, including spirituals, blues, jazz, and contemporary popular music. Each chapter is devoted to an individual composer, who discusses his or her musical training, compositional techniques and style, and the composer's personal philosophy as reflected in his or her music. A selected list of compositions for each composer is included, as well as a

photo and sample of the composer's hand. Banfield offers unprecedented insight into the history and influence of the African American composer with this documentary, which will appeal to everyone from the music scholar to the general reader.

**Double Lives: Film Composers in the Concert Hall** James

Wierzbicki, 2019-02-21 **Double Lives: Film Composers in the Concert Hall** is a collection of fifteen essays dealing with 'iconic' film composers who, perhaps to the surprise of many fans of film music, nevertheless maintained lifelong careers as composers for the concert hall. Featured composers include Erich Wolfgang Korngold, Franz Waxman, Miklós Rózsa, Bernard Herrmann, Nino Rota, Leonard Rosenman, and Ennio Morricone. Progressing in chronological order, the chapters offer accounts of the various composers' concert-hall careers and descriptions of their concert-hall styles. Each chapter compares the composer's music for films with his or her music for the concert hall, and speculates as to how music in one arena might have affected music in the other. For each composer discussed in the book, complete filmographies and complete works lists are included as appendices. **Double Lives: Film Composers in the Concert Hall** is accessible for scholars, researchers, and general readers with an interest in film music and concert music.

Banfield's acclaimed collection of interviews delves into the lives and work of forty-one Black composers. At the same time, Banfield draws on sociology, Western concepts of art and taste, and vernacular musical forms like blues and jazz to provide a frame for the artists' achievements and help to illuminate the ongoing progress and struggles against industry barriers. Expanded illustrations and a new preface by the author provide invaluable added context, making this new edition an essential companion for anyone interested in Black composers or contemporary classical music. **Composers** DK, 2020-09-15 "The only love affair I have ever had was with music." Maurice Ravel A compelling celebration of more than 90 of the world's most influential composers from the medieval period to the present day, *Composers* reveals the fascinating stories of their lives, loves, and works. Biographical entries – introduced with a stunning portrait of each featured composer – trace the friendships, loves, and rivalries that inspired each musical genius. Lavishly illustrated with paintings or photographs of each composer, alongside original musical scores and personal correspondence, images of their homes and where they worked, and personal effects and other important artifacts, the book introduces the key influences, themes, and working methods of each individual, setting their works within a wider historical and cultural context. Charting the development of classical music and music movements across the centuries, *Composers* provides a compelling glimpse into the personal lives, loves, and influences of the giants of the classical music canon.

**Max Steiner** Peter Wegele, 2014-04-24 This biography of Steiner provides insight into how the film music industry worked and functioned during the Golden era of film scores. **The Muse that Sings** Ann McCutchan, 1999-11-11 *The Muse That Sings* is a unique behind-the-scenes look at both twentieth-century music and the nuts and bolts of creative work. Here, twenty-five of America's leading composers--from Adams to Zorn, from Bolcom to Vierk--talk candidly about their craft, their motivations, their difficulties, and how they proceed from musical

idea to finished composition. While focusing on the process and the stories behind specific works, the composers also touch on topics that will interest anyone involved in creative work. They discuss teachers and mentors, the task of revision, relationships with performers, and the ongoing struggle for a balance between freedom and discipline. They reveal sources of inspiration, artistic goals, and the often unexpected ways their musical ideas develop. Some describe personal tonal systems; others discuss the impact of computers and other electronic tools on their work; still others reflect philosophically on the inner impulses and outer influences that continue to drive them. While serious music has a reputation for being difficult and inaccessible, *The Muse That Sings* provides a powerful antidote. The composers in this book speak clearly and thoughtfully in response to key questions of concern to all readers interested in contemporary music. Each interview has been edited to stand alone as a concise meditation on muse and technique, and the book includes selected discographies as well as brief biographical sketches. Anyone with an interest in twentieth-century music or in the creative process will find this lively collection a valuable source of inspiration and insight.
