*Dr. George* George Fischbeck,Randy Roach,2013-05-01 For twenty-three years, George Fischbeck was a schoolteacher in Albuquerque, and for the last thirteen of those years taught science on a public television station that was beamed all over New Mexico. He also served as a weatherman on Albuquerque's top-rated TV newscast where he was so popular that the general manager of a competing station sent tapes of his weather forecasts to all the top ABC Network stations nationwide in hope that one would hire George and get him out of New Mexico. When KABC-TV in Los Angeles responded, it was the start of a love affair between Dr. George and the City of Angels that continues to this day. Not only has Fischbeck had a long career as an awardwinning journalist and educator, he has also helped raise millions of dollars for a variety of charitable causes. His story is all here, and the best part is what the fewest people know: the heartwarming memories of a family man.

Snow Anthony R. Wood,2020-12-08 Snow, beautiful and magical, is sometimes considered one of nature's blessings. It is also a nuisance needing to be managed and moved, and worse, a sometimes-crippling catastrophe to be battled. Wood looks at snow in all its delightful and fearsome manifestations as he delves into science, history, economics, and popular culture to examine snow's enduring hold on the imagination. He summarizes the current scientific understanding of major winter weather events and what is known about the complex interplay between the jet stream and the Gulf Stream, and considers the impact of global warming on snowfall. -- adapted from jacket

**Managing Today's News Media** Samir Husni,Debora Halpern Wenger,Hank Price,2015-07-29 The business of journalism is in the midst of massive change. Managing Today's News Media: Audience First offers practical solutions on how to cope with and adapt to the evolving media landscape. News media experts Samir Husni, Debora Halpern Wenger, and Hank Price introduce a

forward-looking framework for understanding why change is occurring and what it means to the business of journalism. Central to this new paradigm is a focus on the audience. The authors introduce The 4Cs Strategy to describe how customers, control, choice, and change are all part of a strategy for successful media organizations. Every chapter in the book relates to one or more of these four key principles: Customer – Each platform must offer a unique experience to the customer. Choice – The audience has more options than ever, and news organizations must work harder to be the preferred choice. Control – Sharing power and control with the audience is now a necessary part of running a successful news operation. Change – Companies can manage change through adaptation. Real-world case studies, important theoretical grounding, and a focus on understanding rather than resisting the customer’s desire for choice and control make this an unbeatable resource for students and managers alike who want to succeed in this changed media business landscape.
