Sunday Shopping Sally Derby Miller, 2019 Sunday nights are special for Evie and Grandma. That's when they go on their weekly shopping spree. Grandma flips open the newspaper to see what's advertised, and the imaginary tour of neighborhood stores begins. Toting a wallet filled with colorful pretend bills, Evie and Grandma take turns buying whatever catches their fancy. A big chunk of ham, a sofa with a secret, and a dress with spangles are just a few of the treasures they purchase. Most special of all is the jewelry box Evie chooses for the gold heart necklace Mama gave her before leaving to serve in the army--and the bouquet of flowers Evie leaves as a surprise for Grandma. Overflowing with whimsy and a sweet grandmother-granddaughter relationship, this picture book is a joyous celebration of imagination, family love, and making a lot out of what you've got.

Point of Purchase Sharon Zukin, 2018-10-24 This accessible, smart, and expansive book on shopping's impact on American life is in part historical, stretching back to the mid-19th century, yet also has a contemporary focus, with material on recent trends in shopping from the internet to Zagat's guides. Drawing inspiration from both Pierre Bourdieu's work and Walter Benjamin's seminal essay on the shopping arcades of 19th-century Paris, Zukin explores the forces that have made shopping so central to our lives: the rise of consumer culture, the never-ending quest for better value, and shopping's ability to help us improve our social status and attain new social identities.

Shopping in Las Vegas Matt Lashley, 2017-08-31 From the Introduction: Let me first explain what this book is not about. It is not about every place on the Strip where you can possibly shop. Neither have I restricted myself to talking about shopping exclusively on the Strip. There is a discussion of some of the highlights of shopping throughout the valley as well. As far as the Strip goes, I have limited the discussion to those areas that are large retail centers that resemble traditional malls. Many of the larger casinos have a certain amount of shopping in them. Examples include the Bellagio, Monte Carlo, the MGM and Mandalay Bay to name a few. But the retail stores at these hotels are limited in number, and many of the stores can be found elsewhere in the larger shopping centers. This is especially true in places like the Bellagio. If you are staying on the Strip, you may want to limit your shopping interests to the main retail venues, but if you are interested in the full range of retail centers in the valley, you will find other parts of the book interesting as well. Some of these shopping venues are located near hotels in other parts of the Las Vegas area, so if you are staying off the Strip, one of these venues may be near you. I have also tried to include the highlights of these shopping sites, other than specific retail stores and restaurants. Even without buying anything, many of these shopping venues are an attraction all by themselves.

Shopping Deborah C. Andrews,2014-11-25 We all shop. The essays in this wide-ranging anthology demonstrates how a material culture perspective—a focus on the mutual creation of people and their things—yields significant insights into multiple aspects of consumption in American culture.

20th-Century Retailing in Downtown Grand Rapids Michael Hauser,Michael Hauser, PhD, Lpc,Marianne Weldon,2014-10-27 For decades, downtown Grand Rapids enjoyed a long run in the limelight as the epicenter of shopping in western Michigan. The vibrant Monroe Avenue corridor included three homegrown department stores, several chain department stores, five-and-dime stores, and scores of clothing and specialty retailers. It weathered mother nature, wars, the Great Depression, the advent of neighborhood shopping centers, and civil disturbances--but the one change it could not overcome was the regional shopping mall.

Shopping Environments Peter Coleman,2007-06-07 Shopping centers have become the most

common of shopping environments and have influenced the make-up of cities around the world. However, in recent years, the enclosed mall has evolved and diversified with new types of retail environments that were developed to better suit their locale and meet public expectation. This design guide has over 600 illustrations that present the core values and considerations that make a successful retail center: location, catchment user needs, as well as access and layout. Covering everything from site master planning to the essentials of public facilities and the technical systems, this is essential reading for architects of contemporary shopping centers. A series of international examples showcasing different types of shopping environments are included to cover the wide range of designs that have occurred in recent years. From the out of town mall to retail parks and mixed use town center developments, the best of contemporary design is illustrated to provide both practical information and inspiration.

Shopping 3.0 Cor Molenaar, 2016-04-01 Retailers are in difficult times. The recession, global competition, government regulation and the growth of the Internet mean that costs are rising but margins are increasingly squeezed. Cor Molenaar's Shopping 3.0 offers an engaging, convincing and well-researched manifesto for the future of retailing; a manifesto which encourages retailers to switch their approach from a strategy that is based around transactions to one that is based around customers. Logic dictates that there is no one single strategy that will work for all retailers; some of them may indeed benefit from investing in e-retailing solutions and the Internet but for others, success will lie in developing a service based on customer experience or one with some apparently bespoke elements; a strategy to appeal to customers as individuals. Shopping 3.0 examines all these changes. It sketches the world of consumers; those who make their purchases from the comfort of their armchair and those who enjoy shopping with friends. Cor Molenaar explores the impact of

changing consumer attitudes to shopping; the role of new technology in future retailing and the changing face of both city centre and out of town shops and malls. Shopping 3.0 offers a welcome helping hand for retailers, both physical and web-based shopkeepers; something to help you make sense of the ongoing revolution in shopping and to plan or adjust your business strategy to enable you not just to survive but to thrive in a world that will look very different in a few years time.
