End-Time Prophecies Revelation Jimmy Poon, 2022-08-15 What happened in 2020 is just the beginning of a series of wakeup calls God is sending to mankind regarding the impending tribulations and judgments prophesied about in the Bible which will precede Jesus Christ's return to Jerusalem. The mysteries of raptures and jubilee cycles (the "seventy sevens" in Daniel 9) have been unsealed. The final seven years of this age, foretold in Daniel 9, will begin in 2025 when the Antichrist will sign a seven-year covenant with Israel. The fourth seal in Revelation 6, predicting massive death by war, violence,

pestilence, and famine involving a quarter of the earth, is beginning to open. This book will open your eyes to biblical prophecies to see what has been sealed up until now. Following sound hermeneutic principles, Dr. Poon has decoded all the symbols and metaphors used in the books of Revelation and Daniel so that the events which will happen between now and 2032 have been written in plain language for all to understand. Through a Jewish perspective, he explains how Old Testament prophecies are fulfilled in Revelation, even digging into the original text on certain key words. This is a must-read for our generation.

Cultural Tourism Greg Richards, 2006-11-03 A unique chance to explore different aspects of place, heritage, and tourism For many nations around the world, cultural tourism is not only a major industry but also a support for national identity and a means for preserving heritage. *Cultural Tourism: Global and Local Perspectives* brings together in one volume interdisciplinary explorations of cultural tourism from leading international authorities in different locations around the world. Experts from the Cultural Tourism Research Group of the Association for Tourism and Leisure Education (ATLAS) discuss major issues that have emerged from the ATLAS research program over the past decade. Students and practitioners can examine important global and local issues such as authenticity, 'placelessness', the changing relationships between local communities and tourists, the changing meaning of religious heritage, festivals, and special events. *Cultural Tourism* presents a unique view of global and local cultural tourism issues in four main sections. The first part is a collection of discussions on the tensions caused by globalization, with an emphasis on the issue of authenticity. The second part focuses on cultural tourism demand, with examinations on the motivations and behavior of cultural tourists in various destinations. The third section spotlights the relationship between tourists, residents, and local culture. The final part examines ways cultural events can develop tourism. 72 figures and tables make complex information easy to access and understand. Topics in *Cultural Tourism* include: interpretation of 'authentic' culture growth of 'township tourism' the success or failure of community-based tourism projects impact of globalization on distinctiveness of place analysis of tourism development based on new cultural attractions and ethnic diversity basic steps needed to establish, manage, and market cultural routes case study of Castilla y Leon in Spain—trying to find ways to effectively compete with coastal areas new types of cultural attractions, such as 'ecomuseums' religious tourism heritage as a tool for formal and informal learning 'festivalization' and much more! Using research and studies from places around the world like Brazil, the United Kingdom, Portugal, Spain, South Africa, and the Netherlands, *Cultural Tourism: Global and Local Perspectives* provides a valuable window on the current state of cultural tourism and makes informative reading for practitioners, researchers, educators, and students.

Countryside Recreation Site Management Ian Keirle,2003-10-04 Countryside recreation has become an increasingly popular leisure activity, with rural recreation offering an escape from the stresses of life in the modern city. Consequently, the pressures on managers of countryside recreation sites are greater than ever before. This important new vocational text offers comprehensive guidance on the management of countryside sites of all types, from national parks and heritage coasts to cycle paths and tourism enterprises. The book takes a innovative marketing-driven approach to the subject, focusing on the development of each site as a 'product' to meet the needs of the leisure 'consumer'. It offers step-by-step guidance to every management issue, from developing infrastructure to on-site health and safety, and is richly supported with diagrams, photographs, case studies and web-links. Countryside Recreation Site Management is an essential resource for ND, HND and degree students studying courses in Countryside Management, Countryside Recreation and Leisure and Tourism and useful for professionals with responsibility for the management of countryside recreation sites.

Each route includes: a summary of the main attractions of the trip where to start and where to finish along the river trip length in days and kilometres required maps suggestions about when to go star ratings for difficulty and for historical and recreational value Northern British Columbia Canoe Trips: Volume One covers numerous routes never documented in any publication before, including the Taku, Jennings, Omineca and Gataga rivers, among others, as well as more well-known favourites such as Fort Nelson and the Dease. The book provides paddlers of all types with a variety of river trips to choose from based on comprehensive and comparative information, as well as detailed and specific navigational notes to aid them along their chosen route.

Pilgrimage in the Marketplace Ian Reader,2013-09-11 The study of pilgrimage often centres itself around miracles and spontaneous populist activities. While some of these activities and stories may play an important role in the emergence of potential pilgrimage sites and in helping create wider interest in them, this book demonstrates that the dynamics of the marketplace, including marketing and promotional activities by priests and secular interest groups, create the very consumerist markets through which pilgrimages become established and successful – and through which the ‘sacred’ as a category can be sustained. By drawing on examples from several contexts, including Japan, India, China, Vietnam, Europe, and the Muslim world, author Ian Reader evaluates how pilgrimages may be invented, shaped, and promoted by various interest groups. In so doing he draws attention to the competitive nature of the

pilgrimage market, revealing that there are rivalries, borrowed ideas, and alliances with commercial and civil agencies to promote pilgrimages. The importance of consumerism is demonstrated, both in terms of consumer goods/souvenirs and pilgrimage site selection, rather than the usual depictions of consumerism as tawdry disjunctions on the 'sacred.' As such this book reorients studies of pilgrimage by highlighting not just the pilgrims who so often dominate the literature, but also the various other interest groups and agencies without whom pilgrimage as a phenomenon would not exist.

Companion to European Heritage Revivals Linde Egberts, Koos Bosma, 2014-07-24 Are you organising an international heritage project? Turning a so-called 'heritage revival' into a meaningful experience for the general public can be a challenge to historians, archaeologists, museum conservators and tourism professionals alike. This Companion to European Heritage Revivals offers inspiration and new ideas to those who want to engage a large, international audience in activities which bring the past to life. It offers a critical examination of the field's basic concepts and discusses a vast array of 'heritage revival tools', including games, historical re-enactments, 3D-visualisations, films, television documentaries, spatial designs and most importantly, international heritage routes. Through many case studies, this book demonstrates how various aspects of heritage can be effectively presented by linking historical places and landscapes in a single revival to create a multifaceted but coherent whole. Above all, it shows the exceptional success achieved by projects which consistently focus on creating meaningful experiences together with individual users.

Microsoft FrontPage 2000 Mark D. Ciampa, 2000 Use this text to get your students up and running on Microsoft FrontPage 2000 - one of the most widely used Web page design software programs available! With this text, students learn everything from the basics of creating and designing a Web page, to adding enhancements, inserting tables, and more. Coup d'etat Jerry Kroth, 2013-09-07 Prof. Jerry Kroth's 50th anniversary edition presents the single, most plausible theory of the assassination. Coup d'etat is based on the admissions of grassy knoll gunman, James Files, the deathbed confession of CIA spymaster, E. Howard Hunt, and the most recent scholarship to appear in the last decade. Based also in part on his earlier work, *Conspiracy in Camelot*, Dr. Kroth proposes that Lyndon Johnson, the CIA, and Mafia, acting in concert, carried one of the greatest crimes in American history. Published by Genotype, *Coup d'etat* (2013) is a concise, well-documented expose of a brazen overthrow of the United States government by force of arms on November 22, 1963. Reviews from the publisher *Coup d'etat* is the definitive book on the Kennedy assassination! It should be required reading in every American high school. —Marvin Forrest, Ph.D., Psychotherapist, Santa Barbara Dr. Kroth cuts to the heart of the matter laying out a hard to dispute argument for what actually happened that distant half century ago when everything changed for all of us. At a time when apologists have seemed to dominate the trend in regarding Kennedy assassination publishing, it is important to swing the pendulum back toward the rational conclusion that something was deliberately taken from us, the course of our future was compromised, and it was those we most trusted, not a crazed outlier, who engineered it all. This is a very important book and a must read for those of us who care. —Steve Stelle, author of *On shaky ground*. *Coup d'etat*, is a must-read for those of us who were of voting age during those turbulent times at the end of Camelot and who recall the strange goings on of the Warren Commission Hearings. There were so many loose ends that have never been woven into a concise and believable explanation until now. —David Hall, author of *The Rose*

Armed Conflict and Displacement Mélanie Jacques, 2012-09-20 With 'displacement' as the guiding thread, the purpose of this study is twofold. Firstly, it derives from the relevant provisions of international humanitarian law a legal framework for the protection of displaced persons in armed conflict, both from and during displacement. It contains a case study on Israeli settlements in the Occupied Palestinian Territory and the recent Advisory Opinion on the Separation Wall, and addresses such issues as humanitarian assistance for displaced persons, the treatment of refugees in the hands of a party to a conflict and the militarisation of refugee camps. Secondly, it examines the issue of displacement within the broader context of civilian war victims and identifies and addresses the normative gaps of international humanitarian law, including the inadequacy of concepts such as 'protected persons' and the persistence of the dichotomy between international and non-international armed conflicts, which is at odds with the realities of contemporary armed conflicts.

Humanizing Digital Reality Klaas De Rycke, Christoph Gengnagel, Olivier Baverel, Jane Burry, Caitlin Mueller, Minh Man Nguyen, Philippe Rahm, Mette Ramsgaard Thomsen, 2017-09-15 This book aims at finding some answers to the questions: What is the influence of humans in controlling CAD and how much is human in control of its surroundings? How far does our reach as humans really go? Do the complex algorithms that we use for city planning nowadays live up to their expectations and do they offer enough quality? How much data do we have and can we control? Are today's inventions reversing the humanly controlled algorithms into a space where humans are controlled by the algorithms? Are processing power, robots for the digital environment and construction in particular not only there to rediscover what we already knew and know or do they really bring us further into the fields of constructing and architecture? The chapter authors were invited speakers at the 6th Symposium Design Modelling Symposium: Humanizing Digital Reality, which took place in Ensa-Versailles, France from 16 - 20 September 2017.

Dilemmas of Democracy and Dictatorship Michael Radu, The phenomenon of globalization applies to political violence as well as to more benign aspects of life. Most people in the West, as well as the Third World, politicians and media included, are still missing this point. As a result, they are failing to adapt to the new realities--unlike their enemies. Dilemmas of Democracy and Dictatorship is a collection of essays Radu has published over the past decade. Some are opinion pieces; others are academic articles. The topics include political violence and terrorism in general, and in specific areas--Latin America, the Balkans, Turkey, Sub-Saharan Africa, Western and Eastern Europe. Radu discusses the causes and methods of contemporary terrorism, the process of state decay in some African countries, and mentalities and absurdities in Latin and Balkan politics. He also points out Western European illusions, delusions, and attitudes, and reviews American policy and confusion in dealing with the Third World. At times the analysis is political, other times military, and often it is sociological or psychological. In the author's words he is always politically incorrect. The approach is multidisciplinary. What ties these disparate essays together is Radu's personal experience--both as a field researcher and in a few cases as a participant in ongoing events, and his personal idiosyncrasies, opinions, and perception of areas visited. These essays clearly demonstrate that in the face of globalization the world is not a village but a conglomerate of differences. This volume will be of particular interest to students of political violence, insurgency/guerrilla warfare, and Third World politics, journalists, and policymakers. Michael S. Radu is

senior fellow and co-chairman of the Center on Terrorism at the Foreign Policy Research Institute in Philadelphia. Educated in communist Romania and at Columbia University, he has taught in the United States and South Africa. He has traveled to over forty countries doing research on local politics and political violence and has served as electoral observer in four countries, including as a UN observer in Cambodia. He is the author or editor of ten books.

In His Majesty's Sacred Service Tim Larabell, 2019-04-15 *In His Majesty's Sacred Service* was written with the purpose of giving honor to Jesus Christ as my Lord and King. With that in mind, the book seeks to use scripture to illuminate the wonderful attributes of God, such as His perfect love, omniscience, omnipresence, and omnipotence. The book also uses scripture to explain the origins of God's name, how and why He magnified His Word, view the majestic tapestry of His relationships with His people, and the land He promised to them, on a journey through time from Adam and Eve in the Garden of Eden, to Abraham's faithful sacrifice at Mount Moriah, to Solomon's temple at that same Mount Moriah, to the cross of Christ at Jerusalem. The design of the wilderness Tabernacle as described in the book of Exodus is also visited. There we can find the many pictures of Jesus as our Savior, as well as a pattern for our ultimate salvation, deftly concealed in all of the materials, colors, dimensions, and furniture and implements used; and the relationships of all of these things to the four gospels in the New Testament. The book ends with an appreciation of the ultimate beauty of the city that Jesus will build. The city of the King called New Jerusalem, with its pearl gates, gem-stone foundations, streets of pure gold, and absolutely no death, sorrow, crying, or pain.

Tourism Consumption and Representation Kevin Meethan, Alison Anderson, Steven Miles, 2006 Drawing on recent theoretical development this book explores the interplay between the production and consumption of tourist space. Focusing on a number of themes such as age, gender, religion and sexual orientation, chapters critically examine how patterns of consumption are negotiated on an individual level.

Traveling Through Illinois LuAnn Cadden, Ted Cable, 2013-05-14 If you have been driving through Illinois on I-55 and exclaimed, There's nothing out there but corn you aren't alone, but you couldn't be more wrong. Learn why Steven Spielberg visited Waggoner, Illinois, and what fruit Abraham Lincoln used to christen the town named after him, as well as what route was frequented by flesh-eating birds and what antique mall was said to harbor a spaceship. When you travel in the company of LuAnn Cadden and Ted Cable, every mile marker between Chicago and St. Louis hides a story, and even grain silos become adventure destinations.

Reluctant Interveners Eyal Mayroz, 2019-11-15 Why do we allow our governments to get away with bystanding to genocide? Focusing on the relationships between citizens, political elites, and U.S. institutions in the most powerful nation in the world, *Reluctant Interveners* offers a sobering account of the interplays between values and interests, words and deeds, which transformed the pledge of never again to a recurring reality of ever again.

Breaching the Fortress Wall Brian A. Jackson, Peter Chalk, Kim Cragin, Bruce Newsome, John V. Parachini, R. Kim Cragin, 2007-03-09 Technology systems play a key role within a larger, integrated strategy to target groups' efforts and protect the public from the threat of terrorist violence. This study draws on relevant data from the history of a variety of terrorist conflicts to understand terrorists' counter-technology efforts. Fully exploring adversaries' counter-technology behaviors can help make the best choices to protect from the nation from the threat of terrorism.
