Web Hacking from the Inside Out Michael Flenov, 2006
Covering new technologies used to search for vulnerabilities on websites from a hacker's point of view, this book on Web security and optimization provides illustrated, practical examples such as attacks on click counters, flooding, forged parameters passed to the server, password attacks, and DoS and DDoS attacks. Including an investigation of the most secure and reliable solutions to Web security and optimization, this book considers the many utilities used by hackers, explains how to write secure applications, and offers numerous interesting algorithms for developers. The CD included contains programs intended for testing sites for vulnerabilities as well as useful utilities for Web security.

Religion in Times of Crisis, 2014-07-03 This book explores the role of religion in times of personal, political, and social crisis in Europe and beyond. Its fresh perspectives on religion, modernity and the nation-state demonstrate the complexity and ambivalence of religion's role in the contemporary world.

Remembering World War II Anastasia Glawion, 2023-03-31 The book demonstrates an evidence-based approach to online memory practices of World War II. Network analysis is applied to reduce a massive and unreadable dataset of forum texts and user relations. Further, the results are combined with other text analysis methods, such as topic modeling and contrastive stylometric analyses. A sample of discussions from each group is read and categorized. Based on the results, the forum users' memory practices are labelled as empirical,

conversational and conservational practices, whereby recent theoretical developments in Memory Studies are considered.

Digital Jesus Robert Glenn Howard, 2011-02-16 In the 1990s, Marilyn Agee developed one of the most well-known amateur evangelical websites focused on the “End Times”, The Bible Prophecy Corner. Around the same time, Lambert Dolphin, a retired Stanford physicist, started the website Lambert’s Library to discuss with others online how to experience the divine. While Marilyn and Lambert did not initially correspond directly, they have shared several correspondents in common. Even as early as 1999 it was clear that they were members of the same online network of Christians, a virtual church built around those who embraced a common ideology. Digital Jesus documents how such like-minded individuals created a large web of religious communication on the Internet, in essence developing a new type of new religious movement—one without a central leader or institution. Based on over a decade of interaction with figures both large and small within this community, Robert Glenn Howard offers the first sustained ethnographic account of the movement as well as a realistic and pragmatic view of how new communication technologies can both empower and disempower the individuals who use them. By tracing the group’s origins back to the email lists and “Usenet” groups of the 1980s up to the online forums of today, Digital Jesus also serves as a succinct history of the development of online group communications.

Open Source Software: New Horizons Pär J. Ågerfalk, Cornelia Boldyreff, Jesús M. González-Barahona, Gregory R. Madey, John Noll, 2010-05-29 This book constitutes the refereed proceedings of the 6th International IFIP WG 2.13 Conference on Open Source

Systems, OSS 2010, held in Notre Dame, IN, USA, in May/June 2010. The 23 revised full papers presented together with 17 short papers, 5 workshop abstracts and 4 panel descriptions were carefully reviewed and selected from 51 submissions. The papers reflect the international communities of active OSS researchers and present a broad range of perspectives on open source systems ranging from software engineering through organizational issues to law.

Expanding Perspectives on Open Science: Communities, Cultures and Diversity in Concepts and Practices L. Chan, F. Loizides, 2017-06-20 Twenty-one years ago, the term 'electronic publishing' promised all manner of potential that the Web and network technologies could bring to scholarly communication, scientific research and technical innovation. Over the last two decades, tremendous developments have indeed taken place across all of these domains. One of the most important of these has been Open Science; perhaps the most widely discussed topic in research communications today. This book presents the proceedings of Elpub 2017, the 21st edition of the International Conference on Electronic Publishing, held in Limassol, Cyprus, in June 2017. Continuing the tradition of bringing together academics, publishers, lecturers, librarians, developers, entrepreneurs, users and all other stakeholders interested in the issues surrounding electronic publishing, this edition of the conference focuses on Open Science, and the 27 research and practitioner papers and 1 poster included here reflect the results and ideas of researchers and practitioners with diverse backgrounds from all around the world with regard to this important subject. Intended to generate discussion and debate on the potential and limitations of openness, the book addresses the current challenges and opportunities in

the ecosystem of Open Science, and explores how to move forward in developing an inclusive system that will work for a much broader range of participants. It will be of interest to all those concerned with electronic publishing, and Open Science in particular.

Somalia: State Collapse, Terrorism and Piracy Brian J. Hesse, 2013-09-13 The situation in Somalia today embodies some of the most pressing issues in international relations. How should the international community deal with the collapsed state that is Somalia? From the presence of al-Qaeda operatives to pirates, to what extent is Somalia a threat to global peace and commerce? Which aspects of Somalia's economic, social and political landscape can be considered successful, and how do these 'success stories' reflect some of the more problematic issues the country faces? This book sheds light on all of these topics and more. The book is written to appeal to a wide audience, from specialists in international security, development and/or humanitarian issues, to students and casual readers. Its six contributing authors, with their focus on current events mixed with historical perspective, ensure readers get varying views of what is happening today in the Horn of Africa. The book was published as a special issue of the Journal of Contemporary African Studies.

Epilogue Lily Lashley, Etzoli, 2022-06-07 Three teenagers return from waging revolution in a magical dimension—but someone is missing—in this devastating fantasy fans are calling a must read and an instant classic. When Matt Westin opens his eyes, he's back on Earth—and seven years younger than when he went to sleep. For the last seven years, Matt and his sister, Jen, along with friends Carl and Blake, have been in the fantasy world of Cyraveil, revolutionaries fighting to overthrow a dictatorial empire. Now they've suddenly returned to their quiet Oregon suburb, where they're expected to go to high school and act like normal American teenagers. But after all this time and with the memory of war so fresh in their minds, how can they pretend to be kids again? And how can they settle for routine lives when they've experienced adventure and magic? One thing's for sure: they must keep their time in Cyraveil a secret. Nobody can know what happened to them there. Because one of the four didn't come home . . . Only the survivors know Blake died back in Cyraveil, and with a missing teenager on the books, two detectives have launched an investigation. Can Matt, Jen, and Carl outsmart the authorities and learn to live as ordinary humans? Or somehow find their way back to the world in which they brought peace to an embattled land? Winner of the 2018 NaNoWriMo Royal Road Challenge—with more than 400,000 views on RR—now available on Audible and wherever ebooks are sold!

Invest Like a Girl Jessica Spangler, 2024-03-26 “If you’re looking for advice that will help you start investing right away, Invest Like a Girl delivers this and more.

Jessica's engaging guide will help women close the wealth gap, start important conversations, and finance their biggest dreams."—Tiffany "the Budgetnista" Aliche, New York Times bestselling author of *Get Good with Money*

In a world where many women need to contend with the gender pay gap, take career breaks to raise families, and account for their longer lifespans when saving for retirement, investing is a surefire way to put yourself on firm financial footing. And when women do start investing, they often land higher returns than men. However, as Dr. Jessica Spangler discovered when she shared her financial know-how online, understanding that investing is crucial is just the beginning. Many of her followers, as well as her real-life friends, coworkers, and even patients, wanted to know exactly how and where they could start. With *Invest Like a Girl*, Jessica shares the essential information and offers the game plans that women need to begin investing right away and according to their unique financial profiles. Filled with easy-to-implement tools, practical strategies, and real-life examples, this go-to guide to investing will provide the blueprint for you to take the next step with your money, teaching you how to

- Prep your finances: Get a clear picture of your net worth and know exactly how much you can allocate for investing—no matter your income.
- Pick up the lingo of investing: Understand the differences between ETFs, index funds, mutual funds, bonds, and options—and weigh the pros and cons of each.
- Manage risk without breaking a sweat: Determine your risk tolerance with a short quiz, learn to use the ups and downs of the market to your benefit, and discover how investing helps you beat inflation.
- Craft a customized strategy: Outline your most important financial goals, figure out your personal investing style, and decide how to allocate your assets with the help of worksheets, checklists, and

sample portfolios along the way. Whether you're looking to achieve financial independence, make strides toward important life goals, or set aside enough for retirement, *Invest Like a Girl* will get you up to speed and empower you to start investing and make sound decisions about your money.

Who Governs the Internet? Robert J.

Domanski,2015-10-22 This book adopts a policy-based approach toward internet governance. It broadens the definition of internet governance and reintroduces the question of who governs the actual activity that occurs on the Internet by examining the policy process affecting the Internet's infrastructure, technical protocols, software applications, and content.

(In)Appropriate Online Behavior Jenny

Arendholz,2013-01-17 This descriptive and comprehensive study on the discursive struggle over interpersonal relations in online message boards is located at the fascinating interface of pragmatics and computer-mediated discourse – a research area which has so far not attracted much scientific interest. It sets out to shed light on the question how interpersonal relations are established, managed and negotiated in online message boards by giving a valid overview of the entire panoply of interpersonal relations (and their interrelations), including both positively and negatively marked behavior. With the first part of the book providing an in-depth discussion and refinement of the pivotal theoretical positions of both fields of research, students as well as professionals are (re-)acquainted with the subject at hand. Thus supplying a framework for the ensuing case study, the empirical part displays the results of the analysis of 50 threads (ca. 300,000 words) of a popular British message board.

Proceedings of a Workshop on Deterring

Cyberattacks National Research Council,Policy and Global Affairs,Division on Engineering and Physical Sciences,Computer Science and Telecommunications Board,Committee on Deterring Cyberattacks: Informing

Strategies and Developing Options for U.S.

Policy, 2010-10-30 In a world of increasing dependence on information technology, the prevention of cyberattacks on a nation's important computer and communications systems and networks is a problem that looms large. Given the demonstrated limitations of passive cybersecurity defense measures, it is natural to consider the possibility that deterrence might play a useful role in preventing cyberattacks against the United States and its vital interests. At the request of the Office of the Director of National Intelligence, the National Research Council undertook a two-phase project aimed to foster a broad, multidisciplinary examination of strategies for deterring cyberattacks on the United States and of the possible utility of these strategies for the U.S. government. The first phase produced a letter report providing basic information needed to understand the nature of the problem and to articulate important questions that can drive research regarding ways of more effectively preventing, discouraging, and inhibiting hostile activity against important U.S. information systems and networks. The second phase of the project entailed selecting appropriate experts to write papers on questions raised in the letter report. A number of experts, identified by the committee, were commissioned to write these papers under contract with the National Academy of Sciences. Commissioned papers were discussed at a public workshop held June 10-11, 2010, in Washington, D.C., and authors revised their papers after the workshop. Although the authors were selected and the papers reviewed and discussed by the committee, the individually authored papers do not reflect consensus views of the committee, and the reader should view these papers as offering points of departure that can stimulate further work on the topics discussed. The papers

presented in this volume are published essentially as received from the authors, with some proofreading corrections made as limited time allowed.
