Would Like to Meet Rachel Winters,2019-12-03 Can you fall in love like they do in the movies? It's Evie Summers's job to find out. Because if she can't convince her film agency's biggest client, Ezra Chester, to write the romantic-comedy screenplay he owes producers, her career will be over. The catch? He thinks rom-coms are unrealistic--and he'll only put pen to paper if Evie shows him that it's possible to meet a man in real life the way it happens on the big screen. Cynical Evie might not believe in happily ever after, but she'll do what it takes to save the job that's been her lifeline . . . even if it means reenacting iconic rom-com scenes in public. Spilling orange juice on a cute stranger? No problem. Leaving her number in books all over London to see who calls? Done. With a little help from her well-meaning friends--and Ben and Anette, the adorable father-daughter duo who keep witnessing her humiliations--Evie is determined to prove she can meet a man the way Sally met Harry. But can a workaholic who's given up on love find a meet-cute of her very own?

A Chronological Commentary of Revelation Barry Dysert,2017-04-19 A Chronological Commentary of Revelation unveils what many people find to be mysterious about the last book of the Bible. Unlike most commentaries, though, it does so by reorganizing the biblical text so that it can be analyzed in chronological order. In so doing, the book is easy to read from beginning to end, almost like a story. This Commentary approaches Revelation from a basically literal point of view, i.e., the book is interpreted according to normal language. This does not mean that symbols aren't used, but when they are, their meaning is found somewhere in Scripture and not left as an exercise for the reader. Scripture interprets Scripture, and this book abounds with Scriptural references so that the reader can look up for him/herself how Revelation can be interpreted.

Cole Garrett Harlin Wilde,2018-10-08 Cole Garrett was the eldest of four brothers, all lawmen in the State of Texas during the days of the Old West. Having the job of a United States Federal Marshal meant he could travel to anywhere within the borders of the U.S. to apprehend those that caused harm to innocent, law abiding citizens or their businesses. A U.S. Marshal usually traveled alone while performing his duties and it was the most dangerous job of any man who swore to uphold the law by wearing a badge. During the 1870's the west was still a lawless place for the most part and tracking down desperados often called for a man that had toughness, intelligence, an expert tracker, and the most important trait was he needed to be an excellent shot with a rifle and lightening fast on the draw with his sidearm. Cole had those qualities in abundance. In a typical year a U.S. Marshal was tasked with apprehending the likes of bank and railroad robbers, stagecoach bandits, cattle rustlers, murderers and rapist and many a bad man

charged with a variety of crimes and were listed on wanted posters while also dealing with renegade Comanche, Kiowa, and Apache Indians. Cole stayed at the top of his profession and was well known and respected by all men of law throughout Texas and New Mexico. The last thing any man on the wrong side of the law wanted to find out was that Marshal Garrett was after him or his gang because Cole always got his man.

Colton Garrett Webb County Sheriff Harlin Wilde, 2018-10-08 Colton Garrett was the third son born to Casper and Beulah Garrett during the times of the Old West. All the Garrett brothers were known to be fast on the draw with their pistols, but Colton grew up to be the fastest gun throughout the Great State of Texas. Those that saw him when he was forced to draw his guns whispered he wasn't human because of the speed his hands worked when drawing his pistols. Colton's oldest brother, Cole, became a U. S. Marshal and his second oldest turned out to be a famous Texas Ranger. Colton began his lawman's career as a deputy in the town of Laredo while working for his Pa, Casper. One day the Governor of Texas decided there was an urgent need for Texas to have several newly created positions as County Sheriffs to help the already stretched too thin U.S. Marshals. This is the story of Colton accepting the new post and became the first County Sheriff of Webb County, Texas.

Cooper Garrett Harlin Wilde,2018-10-08 The men in the Garrett family were all lawmen during the time of the Old West, beginning with Casper Garrett, the father of four boys. Cooper was the second child born to Casper and Beulah Garrett. He joined the Texas Rangers at the age of twenty years old and earned the reputation as the Ranger's number one expert with his legendary Sharps rifle. Cooper was a man of few words and many of those that spent time around him often heard him say he hated wasting words. During his years with the Texas Rangers, regardless of the Company he was assigned to, his superiors knew they could count on him to go wherever he was needed and would in many instances be one of the deciding factors of completing successful missions. Signing up for the Rangers meant sleeping on hard ground, no matter the weather, and eating hundreds of canned beans and plenty of jerked beef. Unlike other duties as a lawman, a Texas Ranger seldom visited towns or enjoyed soft beds and hot food. This is the story of an exceptional Texas Ranger, respected by all he served with and his name was Cooper Daniel Garrett.

A Tender Thing Emily Neuberger,2021-04-06 An exhilarating debut novel set under the dazzling lights of late 1950s Broadway, where a controversial new musical pushes the boundaries of love, legacy, and art. Growing up in rural Wisconsin, Eleanor O'Hanlon always felt different. In love with musical theater from a young age, she memorized every show album she could get her hands on. So when she discovers an open call for one of her favorite productions, she leaves behind everything she knows to run off to New York City and audition. Raw and untrained, she catches the eye of famed composer Don Mannheim, who catapults her into the leading role of his new work, *A Tender Thing*, a provocative love story between a white woman and black man, one never before seen on a Broadway stage. As news of the production spreads, setting off an outpouring of protest that threatens the possibility of the show itself, Eleanor is forced to confront her own naive beliefs about the world. Pulsing with the vitality and drive of 1950s New York, *A Tender Thing* immerses readers right into the heart of Broadway's Golden Age, a time in which the music soared and the world was on the brink of change.

z/VSE Using DB2 on Linux for System z Helmut Hellner, Ingo Franzki, Martin Kammerer, Roopa Mahendra, Wilhelm Mild, IBM Redbooks, 2010-02-03 Data is one of the most critical and valuable assets of a business. Critical strategic decisions can be made more quickly and effectively when they are based on complete, accurate, and timely operational data. From this point of view, it is important to have an enterprise data management architecture that supports a flexible global view of the business. Many environments today are heterogeneous with a high quantity and diversity of data. In this IBM® Redbooks® publication, we help enterprise architects and IT managers with these environments make decisions for a centralized database or data warehouse. We recommend a centralized data management environment on Linux® on System z®. We include guidance for IBM z/VSE™ and Linux specialists to reorganize existing IBM DB2® VSE data and build a database environment with continuous operation in Linux on System z. We begin this book by describing the possibilities and advantages of enterprise data management and different technical ways to realize it. Then we discuss planning, which is important for setting the foundation of the architecture that is implemented. We explain the hardware considerations for capacity and performance planning. For the z/VSE system and Linux on System z, we describe considerations for operation in a logical partition (LPAR) and in a virtualized environment with IBM z/VM®. In addition, we discuss the disk behavior for different workloads, storage dependencies, network connections, and DB2 database considerations. We also guide you in customizing the DB2 server for z/VSE, z/VM, and DB2 on Linux to allow existing z/VSE and z/VM applications to access the database on Linux on System z. We include the data migration, application considerations, dependencies, compatibility, monitoring, and tuning possibilities in such an environment.
