**Names and Naming** Oliviu Felecan,Alina Bugheşiu,2021-08-19 This edited book examines names and naming policies, trends and practices in a variety of multicultural contexts across America, Europe, Africa and Asia. In the first part of the book, the authors take theoretical and practical approaches to the study of names and naming in these settings, exploring legal, societal, political and other factors. In the second part of the book, the authors explore ways in which names mirror and contribute to the construction of identity in areas defined by multiculturalism. The book takes an interdisciplinary approach to onomastics, and it will be of interest to scholars working across a number of fields, including linguistics, sociology, anthropology, politics, geography, history, religion and cultural studies.

**The Life and Opinions of Zacharias Licher** Matei Calinescu, 2018-03-20 A new translation of the only novel by lauded Romanian literary critic Matei Călinescu An NYRB Classics Original Ugly, unkempt, a haunter of low dives who begs for a living and lives on the street, Zacharias Licher exists for all that in a state of unlikely rapture. After being engulfed by a divine flame as a teenager, Zacharias has devoted his days to doing nothing at all—apart, that is, from composing the odd poem he immediately throws away and consorting with a handful of stray friends: Poldy, for example, the catatonic alcoholic whom Zacharias considers a brilliant philosopher, or another more vigorous barfly whose prolific output of pornographic verses has won him the nickname of the Poet. Zacharias is a kind of holy fool, but one whose foolery calls in question both social convention and conventional wisdom. He is as much skeptic as ecstatic, affirming above all the truth of perplexity. This of course is what makes him a permanent outrage to the powers that be, be they reactionary or revolutionary, and to all other self-appointed champions of morality who are

blind to their own absurdity. The only thing that scares Zacharias is that all-purpose servant of conformity, the psychiatrist. This Romanian classic, originally published under the brutally dictatorial Ceaușescu regime, whose censors initially let it pass because they couldn't make head or tail of it, is as delicious and telling an assault on the modern world order as ever.

*Socio-onomastics* Terhi Ainiala, Jan-Ola Östman, 2017-06-09 The volume seeks to establish socio-onomastics as a field of linguistic inquiry not only within sociolinguistics, but also, and in particular, within pragmatics. The linguistic study of names has a very long history, but also a history sometimes fraught with skepticism, and thus often neglected by linguists in other fields. The volume takes on the challenge of instituting onomastic study into linguistics and pragmatics by focusing on recent trends within socio-onomastics, interactional onomastics, contact onomastics, folk onomastics, and linguistic landscape studies. The volume is an introduction to these fields – with the introductory chapter giving an overview of, and an update on, recent onomastic study – and in addition offers detailed in-depth analyses of place names, person names, street names and commercial names from different perspectives: historically, as well as from the point of view of the impact of globalization and glocalization. All the chapters focus on the use and function of names and naming, on changes in name usage, and on the reasons for, processes in, and results of names in contact.

**The Metropolitan Century** Organisation for Economic Co-operation and Development, 2015 The Metropolitan Century explains why people move into cities and shows that the ongoing urbanisation process promises to improve economic conditions and

the well-being of the world's population. Urbanisation is good for residents who move into cities because they benefit from higher wages and the proximity to amenities. It is good for countries because cities tend to be more productive and innovative than rural areas.

**Artistic Research** Annette W. Balkema, Henk Slager, 2004 Advanced art education is in the process of developing research programs throughout Europe. What does the term research actually means in the practice of art? What is the relation to the scientific methods of alpha, beta or gamma sciences, directed toward knowledge production and the development of a certain scientific domaine? What will be the influence of scientific research on the art forms?

**Name and Naming** Oliviu Felecan, 2012-03-15 Name and Naming: Synchronic and Diachronic Perspectives aims to analyse names and the act of naming from an intercultural perspective, both synchronically and diachronically. The volume is divided into four main parts (Theory of Names, Anthroponomastics, Toponomastics, Names in Society), which are, in turn, organised into thematic chapters and subchapters. The book sets to offer a bird's-eye view of names and naming; this synthesis is made possible, on the one hand, by the blending of synchronic and diachronic viewpoints in the investigation of language facts and, on the other, by the fruitful conjunction of modern and classic theories. The originality and the novelty of the subject lies in the multi-disciplinary approach, in which the field of onomastics merges with that of sociolinguistics, psycholinguistics, pragmatics, history, literature, stylistics, religion, etc. The thematic diversity also derives from the meeting, within the pages of this book, of specialists (35 linguists and literati) from 11 countries on

three continents.

**Gender and Multiculturalism** Amanda Gouws, Daiva Stasiulis, 2015-12-22

Multiculturalism is a concept that has been stretched to include a variety of political conditions, mainly in countries that have liberal democratic political systems and traditions. In this North/South 'comparison' we illuminate remedies pursued by governments and various political interests to address the binary. Tensions of culture and rights may not be the same everywhere. An interesting point of comparison is in the treatment of liberalism – often assumed in the global North to be the universal norms to be defended, whereas in the global South, liberalism itself may be viewed as the problem. Colonial histories are fraught with discriminatory legislation aimed at accommodating indigenous populations, often a trade-off for more structural redistributive justice through, for example, land reform. In Africa, for example, the codification of customary law has reinforced misogynistic and static interpretations of 'African culture'. This book will show how varied and complex the embodiment of multiculturalism as a political practice, or policy discourse in different political contexts can be, and how often the outcome of multicultural discourses creates a binary between culture and universal human rights. The aim of this book is to grapple with dislodging this binary. This book was published as a special issue of Politikon.

*Unconventional Anthroponyms* Oliviu Felecan, 2014-10-02 Unconventional

Anthroponyms: Formation Patterns and Discursive Function continues a series of collective volumes comprising studies on onomastics, edited by Oliviu Felecan with Cambridge Scholars Publishing. Previous titles in this series include Name and Naming: Synchronic and Diachronic Perspectives (2012) and Onomastics in Contemporary Public Space (2013, co-edited with Alina Bugheşiu). In contemporary naming practice, one can distinguish two verbal (linguistic) means of nominal referential identification: a “natural” one, which occurs in the process of conventional, official, canonical, standard naming and results in conventional/official/canonical/standard anthroponyms; a “motivated” one, which occurs in the process of unconventional, unofficial, uncanonical, non-standard naming and results in unconventional/unofficial/uncanonical/non-standard anthroponyms. The significance of an official name is arbitrary, conventional, unmotivated, occasional and circumstantial, as names are not likely to carry any intrinsic meaning; names are given by third parties (parents, godparents, other relatives and so on) with the intention to individualise (to differentiate from other individuals). Any meaning with which a name might be endowed should be credited to the name giver: s/he assigns several potential interpretations to the phonetic form of choice, based on his/her aesthetic and cultural options and other kinds of tastes, which are manifested at a certain time. Unconventional anthroponyms (nicknames, bynames, user names, pseudonyms, hypocoristics, individual and group appellatives that undergo anthroponymisation) are nominal “derivatives” that result from a name giver’s wish to attach a specifying/defining verbal (linguistic) tag to a certain individual. An unconventional anthroponym is a person’s singular signum, which may convey a practical necessity (to avoid anthroponymic homonymy: the existence of several bearers for a

particular name) or the intention to qualify a certain human type (to underline specific difference – in this case, the unconventional anthroponym has an over-individualising role – or, on the contrary, to mark an individual's belonging to a class, his/her association with other individuals with whom s/he is typologically related – see the case of generic unconventional anthroponyms).

Handbook of Multilingualism and Multiculturalism Geneviève Zarate, 2011 Built around the concept of linguistic and cultural plurality, this book defines language as an instrument of action and symbolic power. Plurality is conceived here as : a complex array of voices, perspectives and approaches that seeks to preserve the complexity of the multilingual and multicultural enterprise, including language learning and teaching ; a coherent system of relationships among various languages, research traditions and research sites that informs qualitative methods of inquiry into multilingualism and its uses in everyday life ; a view of language as structured sociohistorical object, observable from several simultaneous spatiotemporal standpoints, such as that of daily interactions or that which sustains the symbolic power of institutions. This book is addressed to teacher trainers, young researchers, decision makers, teachers concerned with the role of languages in the evolution of societies and educational systems. It aims to elicit discussion by articulating practices, field observations and analyses based on a multidisciplinary conceptual framework.

*Organizational Communication and Change* Philip J. Salem, 1999 The chapters in this volume, drawn from the second Organizational Communication and Change conference, focus on changes in the ways people enact and make sense of organization, including

behaviours that stimulate and constitute change.
