Names and Naming Oliviú Felecan, Alina Bugheşiu, 2021-08-19 This edited book examines names and naming policies, trends and practices in a variety of multicultural contexts across America, Europe, Africa and Asia. In the first part of the book, the authors take theoretical and practical approaches to the study of names and naming in these settings, exploring legal, societal, political and other factors. In the second part of the book, the authors explore ways in which names mirror and contribute to the construction of identity in areas defined by multiculturalism. The book takes an interdisciplinary approach to onomastics, and it will be of interest to scholars working across a number of fields, including linguistics, sociology, anthropology, politics, geography, history, religion and cultural studies.

War and Gold Kwasi Kwarteng, 2014-05-27 The world was wild for gold. After discovering the Americas, and under pressure to defend their vast dominion, the Habsburgs of Spain promoted gold and silver exploration in the New World with ruthless urgency. But, the great influx of wealth brought home by plundering conquistadors couldn't compensate for the Spanish government's extraordinary military spending, which would eventually bankrupt the country multiple times over and lead to the demise of the great empire. Gold became synonymous with financial dependability, and following the devastating chaos of World War I, the gold standard came to express the order of the free market system. Warfare in pursuit of wealth required borrowing—a quickly compulsive dependency for many governments. And when people lost confidence in the promissory notes and paper currencies issued during wartime, governments again turned to gold. In this captivating historical study, Kwarteng exposes a pattern of war-waging and financial debt—bedmates like April and taxes that go back hundreds of years, from the French Revolution to the emergence of modern-day China. His evidence is as rich and colorful as it is sweeping. And it starts and ends with gold.

Angels and Demons in Art Rosa Giorgi, 2005 This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, Angels and Demons in Art will delight readers with an interest in art or religious symbolism.

Socio-onomastics Terhi Ainala, Jan-Ola Östman, 2017-06-09 The volume seeks to establish socio-onomastics as a field of linguistic inquiry not only within sociolinguistics, but also, and in particular, within pragmatics. The linguistic study of names has a very long history, but also a history sometimes fraught with skepticism, and thus often neglected by linguists in other fields. The volume takes on the challenge of instituting onomastic study into linguistics and pragmatics by focusing on recent trends within socio-onomastics, interactional onomastics, contact onomastics, folk onomastics, and linguistic landscape studies. The volume is an introduction to these fields – with the introductory chapter giving an overview of, and an update on, recent onomastic study – and in addition offers detailed in-depth analyses of place names, person names, street names and commercial names from different perspectives: historically, as well as from the point of view of the impact of globalization and glocalization. All the chapters focus on the use and function of names and naming, on changes in name usage, and on the reasons for, processes in, and results of names in contact.

Morality in a Technological World Lorenzo Magnani, 2007-08-13 The technological advances of contemporary society have outpaced our moral understanding of the problems that they create. How will we deal with profound ecological changes, human cloning, hybrid people, and eroding cyberprivacy, just to name a few issues? In this book, Lorenzo Magnani argues that existing moral constructs often cannot be applied to new technology. He proposes an entirely different ethical approach, one that blends epistemology with cognitive science. The resulting moral strategy promises renewed dignity for overlooked populations, both of today and of the future.

The Taste of Ashes Marci Shore, 2013-01-15 An inventive, wholly original look at the complex psyche of Eastern Europe in the wake of the revolutions of 1989 and the opening of the communist archives. In the tradition of Timothy Garton Ash's *The File*, Yale historian and prize-winning author Marci Shore draws upon intimate understanding to illuminate the afterlife of totalitarianism. The Taste of Ashes spans from Berlin to Moscow, moving from Vienna in Europe's west through Prague, Bratislava, Warsaw and Bucharest to Vilnius and Kiev in the post-communist east. The result is a shimmering literary examination of the ghost of communism – no longer Marx's "specter to come" but a haunting presence of the past. Marci Shore builds her history around people she came to know over the course of the two decades since communism came to an end in Eastern Europe: her colleagues and friends, once-communists and once-dissidents, the accusers and the accused, the interrogators and the interrogated, Zionists, Bundists, Stalinists and their children and grandchildren. For them, the post-communist moment has not closed but rather has summoned up the past: revolution in 1968, Stalinism, the Second World War, the Holocaust. The end of communism had a dark side. As Shore pulls the reader into her journey of discovery, reading the archival records of people who are themselves confronting the traumas of former lives, she reveals the intertwining of the personal and the political, of love and cruelty, of intimacy and betrayal. The result is a lyrical, touching, and sometimes heartbreaking, portrayal of how history moves and what history means.

Name and Naming Oliviu Felecan,2012-03-15 Name and Naming: Synchronic and Diachronic Perspectives aims to analyse names and the act of naming from an intercultural perspective, both synchronically and diachronically. The volume is divided into four main parts (Theory of Names, Anthroponomastics, Toponomastics, Names in Society), which are, in turn, organised into thematic chapters and subchapters. The book sets to offer a bird's-eye view of names and naming; this synthesis is made possible, on the one hand, by the blending of synchronic and diachronic viewpoints in the investigation of language facts and, on the other, by the fruitful conjunction of modern and classic theories. The originality and the novelty of the subject lies in the multi-disciplinary approach, in which the field of onomastics merges with that of sociolinguistics, psycholinguistics, pragmatics, history, literature, stylistics, religion, etc. The thematic diversity also derives from the meeting, within the pages of this book, of specialists (35 linguists and literati) from 11 countries on three continents.

The German Refugees Johann Wolfgang von Goethe,2006 A new translation by an award winning translator rescues Goethe's collection of stories, modelled on the Decameron, from being out of print in English. A family of German nobles have been forced from their home on the left bank of the Rhine by the French Revolution. Their peace is further disrupted by the arguments between the young Karl, a supporter of the ideals of the revolution, and the other men. The Baroness saves the family situation by suggesting they amuse each other by telling stories. There are seven in all: two short ghost stories, two amorous anecdotes and two more substantial moral tales, the whole being concluded with Goethe's richly worked, fantastic, symbolic, allegorical 'Fairy Tale'. The German Refugees was first published in 1795.--BOOK JACKET.

Gender and Multiculturalism Amanda Gouws, Daiva Stasiulis,2015-12-22 Multiculturalism is a concept that has been stretched to include a variety of political conditions, mainly in countries that have liberal democratic political systems and traditions. In this North/South 'comparison' we illuminate remedies pursued by governments and various political interests to address the binary. Tensions of culture and rights may not be the same everywhere. An interesting point of comparison is in the treatment of liberalism – often assumed in the global North to be the universal norms to be defended, whereas in the global South, liberalism itself may be viewed as the problem. Colonial histories are fraught with discriminatory legislation aimed at accommodating indigenous populations, often a trade-off for more structural redistributive justice through, for example, land reform. In Africa, for example, the codification of customary law has reinforced misogynistic and static interpretations of 'African culture'. This book will show how varied and complex the embodiment of multiculturalism as a political practice, or policy discourse in different political contexts can be, and how often the outcome of multicultural discourses creates a binary between culture and universal human rights. The aim of this book is to grapple with dislodging this binary. This book was published as a special issue of *Politikon*.

Performing Captivity, Performing Escape Lisa Peschel,2023-07-06 A meticulously researched book that collects sixteen playscripts written by European Jews imprisoned in the Terezín ghetto in the Czech Republic during the Holocaust. The concentration camp and Jewish ghetto at Terezín, or Theresienstadt, in what is now the Czech Republic, was a site of enormous suffering, fear, and death. But amid this horrific period, there was also a thriving and desperately vibrant cultural life. While the children's drawings and musical pieces created in the ghetto have become justly famous, the prisoners' theatrical works, though a lesser-known aspect of their artistic endeavors, deserves serious attention as well. *Performing Captivity, Performing Escape* collects eleven theatrical texts--cabaret songs and sketches, historical and verse dramas, puppet plays, and a Purim play--written by Czech and Austrian Jews. Together these works reveal the wide range of ways in which the prisoners engaged with and escaped from life in the ghetto through performance. The anthology opens with an insightful prologue by novelist Ivan Klíma, who was interned in the ghetto as a child and contains a detailed introduction by editor Lisa Peschel about the pre-war theatrical influences and wartime conditions that inspired the theater of the ghetto. The array of theatrical forms collected in this anthology speaks of the prisoners' persistence of hope in a harrowing time and will be a moving read for students and scholars of the Holocaust.

Unconventional Anthroponyms Oliviu Felecan,2014-10-02 *Unconventional Anthroponyms: Formation Patterns and Discursive Function* continues a series of collective volumes comprising studies on onomastics, edited by Oliviu Felecan with Cambridge Scholars Publishing. Previous titles in this series include *Name and Naming: Synchronic and Diachronic Perspectives* (2012) and *Onomastics in Contemporary Public Space* (2013, co-edited with Alina Bugheșiu). In contemporary naming practice, one can distinguish two verbal (linguistic) means of nominal referential identification: a "natural" one, which occurs in the process of conventional, official, canonical, standard naming and results in conventional/official/canonical/standard anthroponyms; a "motivated" one, which occurs in the process of unconventional, unofficial, uncanonical, non-standard naming and results in unconventional/unofficial/uncanonical/non-standard anthroponyms. The significance of an official name is arbitrary, conventional, unmotivated, occasional and circumstantial, as names are not likely to carry any intrinsic meaning; names are given by third parties (parents, godparents, other relatives and so on) with the intention to individualise (to differentiate from other individuals). Any meaning with which a name might be endowed should be credited to the name giver: s/he assigns several potential interpretations to the phonetic form of choice, based on his/her aesthetic and cultural options and other kinds of tastes, which are manifested at a certain time. Unconventional anthroponyms (nicknames, bynames, user names, pseudonyms, hypocoristics, individual and group appellatives that undergo anthroponymisation) are nominal "derivatives" that result from a name giver's wish to attach a specifying/defining verbal (linguistic) tag to a certain individual. An unconventional anthroponym is a person's singular signum, which may convey a practical necessity (to avoid anthroponymic homonymy: the existence of several bearers for a particular name) or the intention to qualify a certain human type (to underline specific difference – in this case, the unconventional anthroponym has an over-individualising role – or, on the contrary, to mark an individual's belonging to a class, his/her association with other individuals with whom s/he is typologically related – see the case of generic unconventional anthroponyms).
