Still, Kenya dreams of being able to turn her creative hobby into a career. She finally has a chance to make it big when she joins the reality show competition Cosplay or No Way. There's just one catch: the challenge for the final round is all about iconic pairs, and the judges want the contestants' significant others to participate. The Halal Food Handbook Yunes Ramadan Al-Teinaz,Stuart Spear,Ibrahim H. A. Abd El-Rahim,2020-03-09 A unique handbook providing a set of good practice standards for both producers and consumers of Halal food This accessible, authoritative book covers all aspects of Halal from its origins through to how we expect Halal to develop in the coming years. It explains what Halal is, where it came from, how it is practiced, and by whom. In addition to putting Halal in a religious and cultural context, the book provides practical standards for those working in the Halal trade. It explains why there are so many different interpretations of Halal and why this needs to be resolved if international trade is to be developed. Each chapter in The Halal Food Handbook is written by leading experts in their particular field of study. The first one discusses how regulatory bodies have failed to stem the miss selling and adulteration of Halal foods. The next chapters cover the slaughter process and issues around good practice. The book then looks at regulators—covering Sharia law, UK national laws, and the EU—and outlines the legal framework for enforcing the law. It also compares and contrasts different types of religious slaughter for faith foods; examines attempts to set an international standard for trade; and discusses pork adulteration in Halal foods. The final chapter covers other aspects of Halal, including cosmetics, tourism, lifestyle, and banking, and finishes with a look at what the future holds for Halal. Written and edited by leading international experts in Halal who are backed by the Muslim Council of Britain Presents a set of good practice standards for both producers and consumers of Halal food Covers the complexity of the political, legal, and practical dimensions of Halal food production The Halal Food Handbook will appeal to a wide audience, including abattoirs, manufacturers, retailers, regulators, academics, public bodies catering for Muslims, and the broader Muslim community.

Holocaust Representation Berel Lang,2003-05-01 Since Theodor Adorno's attack on the writing of poetry after Auschwitz, artists and theorists have faced the problem of reconciling the moral enormity of the Nazi genocide with the artist's search for creative freedom. In Holocaust Representation, Berel Lang addresses the relation between ethics and art in the context of contemporary discussions of the Holocaust. Are certain aesthetic means or genres out of bounds for the Holocaust? To what extent should artists be constrained by the actuality of history—and is the Holocaust unique in raising these problems of representation? The dynamics between artistic form and content generally hold even more intensely, Lang argues, when art's subject has the moral weight of an event like the Holocaust. As authors reach beyond the standard conventions for more adequate means of representation, Holocaust writings frequently display a blurring of genres. The same impulse manifests itself in repeated claims of historical as well as artistic authenticity. Informing Lang's discussion are the recent conflicts about the truth-status of Benjamin Wilkomirski's memoir *Fragments* and the comic fantasy of Roberto Benigni's film *Life Is Beautiful*. Lang views Holocaust representation as limited by a combination of ethical and historical constraints. As art that violates such constraints often lapses into sentimentality or melodrama, cliché or kitsch, this becomes all the more objectionable when its subject is moral enormity. At an extreme, all Holocaust representation must face the test of whether its referent would not be more authentically expressed by silence—that is, by the absence of representation.

Memes in Digital Culture Limor Shifman,2013-10-04 Taking “Gangnam Style” seriously: what Internet memes can tell us about digital culture. In December 2012, the exuberant video “Gangnam Style” became the first YouTube clip to be viewed more than one billion times. Thousands of its viewers responded by creating and posting their own variations of the video—“Mitt Romney Style,” “NASA Johnson Style,” “Egyptian Style,” and many others. “Gangnam Style” (and its attendant parodies, imitations, and derivations) is one of the most famous examples of an Internet meme: a piece of digital content that spreads quickly around the web in various iterations and becomes a shared cultural experience. In this book, Limor Shifman investigates Internet memes and what they tell us about digital culture. Shifman discusses a series of well-known Internet memes—including “Leave Britney Alone,” the pepper-spraying cop, LOLCats, Scumbag Steve, and Occupy Wall Street's “We Are the 99 Percent.” She offers a novel definition of Internet memes: digital content units with common characteristics, created with awareness of each other, and circulated, imitated, and transformed via the Internet by many users. She differentiates memes from virals; analyzes what makes memes and virals successful; describes popular meme genres; discusses memes as new modes of political participation in democratic and nondemocratic regimes; and examines memes as agents of globalization. Memes, Shifman argues, encapsulate some of the most fundamental aspects of the Internet in general and of the participatory Web 2.0 culture in particular. Internet memes may be entertaining, but in this book Limor Shifman makes a compelling argument for taking them seriously.

Mimesis, Genres and Post-Colonial Discourse J. Durix,1998-08-17 Through a broad-ranging survey of the allegory, utopia, the historical novel and the epic in post-colonial literature, Jean-Pierre

Durix proposes a critical reassessment of the theory of genres. He argues that, in the New Literatures which are often rooted in hybrid aesthetics, the often decried mimesis must be viewed from a completely different angle. Analysing texts by Gabriel García Márquez, Salman Rushdie, Alejo Carpentier, Wilson Harris and Edouard Glissant, he pleads for the redefinition of 'magic realism' if the term is to retain generic relevance.

The Utopian Function of Art and Literature Ernst Bloch,1989-03-06 Essays in aesthetics by the philosopher Ernst Bloch that belong to the tradition of cultural criticism represented by Georg Lukács, Theodor Adorno, and Walter Benjamin. The aesthetic essays of the philosopher Ernst Bloch (1885–1977) belong to the rich tradition of cultural criticism represented by Georg Lukács, Theodor Adorno, and Walter Benjamin. Bloch was a significant creative source for these thinkers, and his impact is nowhere more evident than in writings on art. Bloch was fascinated with art as a reflection of both social realities and human dreams. Whether he is discussing architecture or detective novels, the theme that drives his work is always the same—the striving for something better, for a homeland that is more socially aware, more humane, more just. The book opens with an illuminating discussion between Bloch and Adorno on the meaning of utopia; then follow twelve essays written between 1930 and 1973 on topics such as aesthetic theory, genres such as music, painting, theater, film, opera, poetry, and the novel, and perhaps most important, popular culture in the form of fairy tales, detective stories, and dime novels. The MIT Press has previously published Ernst Bloch's Natural Law and Human Dignity and his magnum opus, The Principle of Hope. The Utopian Function of Art and Literature is included in the series Studies in Contemporary German Social Thought, edited by Thomas McCarthy.
