Topical Communication Uncertainties Stefan Vladutescu, Florentin Smarandache, Daniela Gifu, Alina Tenescu, 2014 Communication is the main way of defusing uncertainties. Unfortunately, communication discipline itself is mined by uncertainties. We can talk about onto-epistemological uncertainties and pragmatic uncertainties of communication, about theoretical and practical uncertainties, and about primary and secondary uncertainties of communication. Uncertainties regarding the object of communication as autonomous discipline, the research methods of communication, the sources, paradigms and models of communication represent theoretical, onto-epistemological uncertainties. Pragmatic uncertainties include uncertainties in communication processes; they have a practical character. Pragmatic uncertainties are those that lead to communication failure and they consist in minor obstacles or insurmountable barriers in concrete communication. (Florentin Smarandache & Stefan Vladutescu) *** The book has 16 chapters written by the following authors and co-authors from USA, England, Poland, Slovakia, and Romania: Florentin Smarandache, Stefan Vladutescu, Mirela Teodorescu, Dan S. Stoica, Daniela Gifu, Calin Andrei, Ioan Constantin Dima, Mariana Man, Janusz Grabara, Paula Bajdor, Jim O'Brien, Andrzej Rabsztyn, Anabella-Maria Tarnovan, Adrian Nicolescu, Alina Tenescu, Nicusor Minculete, Vladimir Modrak, Sorin Mihai Radu, Alice Ionescu, Anca Diana Bibiri, Lucian Sacalean, Mircea Munteanu, Roxana Criu, Bogdan Constantin Neculau, Marin Dramnescu, Mihaela Gabriela Paun, and Loredana Speriati.

Names and Naming Oliviu Felecan, Alina Bugheşiu, 2021-08-19 This edited book examines names and naming policies, trends and practices in a variety of multicultural contexts across America, Europe, Africa and Asia. In the first part of the book, the authors take theoretical and practical approaches to the study of names and naming in these settings, exploring legal, societal, political and other factors. In the second part of the book, the authors explore ways in which names mirror and contribute to the construction of identity in areas defined by multiculturalism. The book takes an interdisciplinary approach to onomastics, and it will be of interest to scholars working across a number of fields, including linguistics, sociology, anthropology, politics, geography, history, religion and cultural studies.

The Florida Manatee Roger L. Reep, Robert K., 2021-04-14 From two scientists who have been at the forefront of manatee research for over three decades, *The Florida Manatee* offers an engaging, accessible introduction to manatee biology, including communication, diet, long-distance migration, and much more. This second edition is updated with new scientific research, as well as discussions of recent conservation efforts—largely driven by manatee injuries and deaths resulting from boat collisions—that have contributed to the robust growth of manatee numbers in Florida. It also includes the latest predictions for manatee populations and health in the future, both in Florida and worldwide. This is the perfect book for anyone seeking the most comprehensive, current information on this fascinating marine mammal.

Holocaust Representation Berel Lang, 2003-05-01 Since Theodor Adorno's attack on the writing of poetry after Auschwitz, artists and theorists have faced the problem of reconciling the moral enormity of the Nazi genocide with the artist's search for creative freedom. In *Holocaust Representation*, Berel Lang addresses the relation between ethics and art in the context of contemporary discussions of the Holocaust. Are certain aesthetic means or genres out of bounds for the Holocaust? To what extent should artists be

constrained by the actuality of history—and is the Holocaust unique in raising these problems of representation? The dynamics between artistic form and content generally hold even more intensely, Lang argues, when art's subject has the moral weight of an event like the Holocaust. As authors reach beyond the standard conventions for more adequate means of representation, Holocaust writings frequently display a blurring of genres. The same impulse manifests itself in repeated claims of historical as well as artistic authenticity. Informing Lang's discussion are the recent conflicts about the truth-status of Benjamin Wilkomirski's memoir *Fragments* and the comic fantasy of Roberto Benigni's film *Life Is Beautiful*. Lang views Holocaust representation as limited by a combination of ethical and historical constraints. As art that violates such constraints often lapses into sentimentality or melodrama, cliché or kitsch, this becomes all the more objectionable when its subject is moral enormity. At an extreme, all Holocaust representation must face the test of whether its referent would not be more authentically expressed by silence—that is, by the absence of representation.

The Utopian Function of Art and Literature Ernst Bloch,1989-03-06 Essays in aesthetics by the philosopher Ernst Bloch that belong to the tradition of cultural criticism represented by Georg Lukács, Theodor Adorno, and Walter Benjamin. The aesthetic essays of the philosopher Ernst Bloch (1885–1977) belong to the rich tradition of cultural criticism represented by Georg Lukács, Theodor Adorno, and Walter Benjamin. Bloch was a significant creative source for these thinkers, and his impact is nowhere more evident than in writings on art. Bloch was fascinated with art as a reflection of both social realities and human dreams. Whether he is discussing architecture or detective novels, the theme that drives his work is always the same—the striving for something better, for a homeland that is more socially aware, more humane, more just. The book opens with an illuminating discussion between Bloch and Adorno on the meaning of utopia; then follow twelve essays written between 1930 and 1973 on topics such as aesthetic theory, genres such as music, painting, theater, film, opera, poetry, and the novel, and perhaps most important, popular culture in the form of fairy tales, detective stories, and dime novels. The MIT Press has previously published Ernst Bloch's *Natural Law and Human Dignity* and his magnum opus, *The Principle of Hope*. *The Utopian Function of Art and Literature* is included in the series *Studies in Contemporary German Social Thought*, edited by Thomas McCarthy.
