Learning to Program with Alice Wanda Dann,Stephen Cooper,Randy Pausch,2008 Alice was designed to make programming concepts easier to teach and learn. In the Second Edition of Learning to Program with Alice, Alice's creators offer a complete full-color introduction to the interactive Alice 2.2 programming environment. The authors make extensive use of program visualization to establish an easy, intuitive relationship between program constructs and the 3D graphics animation action in Alice. Students discover how Alice blends traditional problem-solving techniques with Hollywood-style storyboarding. Fundamental object-oriented programming concepts and language syntax are taught independently. Programming concepts can be taught from either an objects-first or an objects-early approach, with an optional early introduction to events. The book's Java-like syntax allows students to view their program code, simplifying their transitions to Java, C++, C#, or other object-oriented languages.

The Georgian National Museum David Lordkipanidze, 2020-11-30 * Professor David Lordkipanidze, Director of the Georgian National Museum (GNM) in Tbilisi, illuminates his personal highlights from the collection with his considerable expertise * The GNM tells the story of Georgia's history from the Bronze Age to the early 20th century * The first Georgian addition to Scala's successful Director's Choice series Established in 2004, the Georgian National Museum (GNM) in Tbilisi encompasses 20 museums and cultural institutions. The main site tells the story of Georgia's history from the Bronze Age to the early 20th century. It's the story of 'The

Land of the Golden Fleece' - the ancient Kingdom of Colchis, whose ingenious gold, silver and precious stonework can be seen in the Treasury. The Greek, Ottoman and Iranian Influence visible in many of the treasures is testament to Georgia's role as a crossroads through the centuries. The GNM also records Georgia's modern history, tracing the rise of a united Georgian state, how it resisted Soviet Occupation and survived the Red Terror. However, perhaps most significantly of all, here visitors can come face-to-face with the earliest homonid known to have left Africa - a 1.8 million-year-old discovery made by the GNM's Director, Professor David Lordkipanidze, that has rewritten our understanding of early European humanity. In this beautifully illustrated book, Professor Lordkipanidze illuminates his personal highlights from the collection with his considerable expertise.

I Like Him, He Likes Her Phyllis Reynolds Naylor, 2010-05-18 Find a Penny pick it up and all day long you'll have good luck...except, of course, if that Penny is charming and pretty and funny, and the person picking her up just happens to be your boyfriend. Girl Waits With Gun Amy Stewart, 2015-09-01
NATIONAL BESTSELLER. The first in the Kopps Sisters Novel Series, *Girl Waits with Gun* is an enthralling novel based on the forgotten true story of one of the nation's first female deputy sheriffs. Constance Kopp doesn't quite fit the mold. She towers over most men, has no interest in marriage or domestic affairs, and has been isolated from the world since a family secret sent her and her sisters into hiding fifteen years ago. One day a belligerent and powerful silk factory owner runs down their buggy, and a dispute over damages turns into a war of bricks, bullets, and threats as he unleashes his gang on their family farm. When the sheriff enlists her help in

convicting the men, Constance is forced to confront her past and defend her family – and she does it in a way that few women of 1914 would have dared. A New York Times Editors' Choice “A smart, romping adventure, featuring some of the most memorable and powerful female characters I've seen in print for a long time. I loved every page as I followed the Kopp sisters through a too-good-to-be-true (but mostly true!) tale of violence, courage, stubbornness, and resourcefulness.”—Elizabeth Gilbert
