We Are the Weather Jonathan Safran Foer,2019-09-17 In *We Are the Weather*, Jonathan Safran Foer explores the central global dilemma of our time in a surprising, deeply personal, and urgent new way. Some people reject the fact, overwhelmingly supported by scientists, that our planet is warming because of human activity. But do those of us who accept the reality of human-caused climate change truly believe it? If we did, surely we would be roused to act on what we know. Will future generations distinguish between those who didn't believe in the science of global warming and those who said they accepted the science but failed to change their lives in response? The task of saving the planet will involve a great reckoning with ourselves—with our all-too-human reluctance to sacrifice immediate comfort for the sake of the future. We have, he reveals, turned our planet into a farm for growing animal products, and the consequences are catastrophic. Only collective action will save our home and way of life. And it all starts with what we eat—and don't eat—for breakfast.

*Romanian cultural resolution* Adrian Bojenoiu,Alexandru Niculescu,2011 This volume examines Romania's political and social transition from communism to democracy through the lens of its contemporary art of the past 20 years. Conceived as a kind of cultural manifesto or resolution, it analyzes this period and the conception of postcommunism through the work of 26 artists and writers.

Hardpressed Meredith Wild,2015-04-07 In *Hardpressed*, the highly anticipated second book of the Hacker Series that began with *Hardwired*, Blake and Erica face threats that put both their love and their lives on the line. Despite Blake Landon's controlling ways, the young and wealthy hacker finally won the trust of the woman he loves. Internet entrepreneur Erica Hathaway broke down the walls that kept her from opening her heart and her business to Blake. Ready to start this new chapter in her life, Erica is determined not to let anything come between them, even if that means giving Blake back some of the control he craves in and out of the bedroom. But when demons from her past threaten their future, Erica makes a decision that could change their lives forever.

Teaching and Learning Geography Daniella Tilbury,Michael Williams,2002-11-01 This book provides a clear overview of current thinking on the teaching and learning of geography. It is an ideal companion to all students beginning a career in teaching the subject in secondary schools. The chapters are written by experienced teacher educators and bridge both theory and practice. The writers focus on the continuities, whilst setting them in the context of the changing curriculum. The book is divided into four parts. Part One examines the historical context of geography teaching. Part Two looks at issues of course planning, design, syllabuses and programmes of study. Underlying this section is the assumption that geography should not be considered in isolation from other subjects, but rather as part of a whole curriculum. Part Three concentrates on teaching and learning, and includes chapters on the use of maps, field work, IT and first hand experience within a community. The final section covers the issues associated with assessment, across the whole school age range.

IFLA cataloguing principles International Federation of Library Associations and Institutions,2009 Presents the history, controversy, and negotiations that have resulted in worldwide agreement on a set of principles which underlie the cataloguing practices for the digital age.

**The Expression Of The Emotions In Man And Animals** Charles Darwin,2020-05-19 There are other actions which are commonly performed under certain circumstances, independently of habit, and which seem to be due to imitation or some sort of sympathy. Thus persons cutting anything with a pair of scissors may be seen to move their jaws simultaneously with the blades of the scissors. Children learning to write often twist about their tongues as their fingers move, in a ridiculous fashion. When a public singer suddenly becomes a little hoarse, many of those present may be heard, as I have been assured by a gentleman on whom I can rely, to clear their throats; but here habit probably comes into play, as we clear our own throats under similar circumstances.

*Monastic Education in Late Antiquity* Lillian I. Larsen,Samuel Rubenson,2018-08-23 Redefines the role assigned education in the history of monasticism, by re-situating monasticism in the history of education.

Eating Animals Jonathan Safran Foer,2009-11-02 Part memoir and part investigative report, *Eating Animals* is the groundbreaking moral examination of vegetarianism, farming, and the food we eat every day that inspired the documentary of the same name. Bestselling author Jonathan Safran Foer spent much of his life oscillating between enthusiastic carnivore and occasional vegetarian. For years he was content to live with uncertainty about his own dietary choices but once he started a family, the moral dimensions of food became increasingly important. Faced with the prospect of being unable to explain why we eat some animals and not others, Foer set out to explore the origins of many eating traditions and the fictions involved with creating them. Traveling to the darkest corners of our dining habits, Foer raises the unspoken question behind every fish we eat, every chicken we fry, and every burger we grill. Part memoir and part investigative report, *Eating Animals* is a book that, in the words of the Los Angeles Times, places Jonathan Safran Foer at the table with our greatest philosophers -and a must-read for anyone who cares about building a more humane and healthy world.

We're Doomed. Now What? Roy Scranton,2018-07-17 An American Orwell for the age of Trump, Roy Scranton faces the unpleasant facts of our day with fierce insight and honesty. *We're Doomed. Now What?* penetrates to the very heart of our time. Our moment is one of alarming and bewildering change—the breakup of the post-1945 global order, a multispecies mass extinction, and the beginning of the end of civilization as we know it. Not one of us is innocent, not one of us is safe. Now what? *We're Doomed. Now What?* addresses the crisis that is our time through a series of brilliant, moving, and original essays on climate change, war, literature, and loss, from one of the most provocative and iconoclastic minds of his generation. Whether writing about sailing through the melting Arctic, preparing for Houston's next big storm, watching *Star Wars*, or going back to the streets of Baghdad he once patrolled as a soldier, Roy Scranton handles his subjects with the same electric, philosophical, demotic touch that he brought to his groundbreaking New York Times essay, "Learning How to Die in the Anthropocene."

**A Dictionary of European Anglicisms** Manfred Gorch,2005-06-16 A Dictionary of European Anglicisms documents the spread of English in Europe. It provides the first exhaustive and up-to-date account of British and American English words that have been imported into the main languages of Europe. English, which imported thousands of words from French and Latin (mainly after 1066), is now by far the world's biggest lexical exporter, and the trade is growing as English continues to dominate various fields ranging from pop music to electronic communication. Several countries have monitored the inflow of anglicisms and some have tried to block it. But language, as lexicographers have always found and as this book demonstrates once more, respects neither boundary nor law. The dictionary not only shows which words have been exported where, but how the process of importation can change a word's form and function, sometimes subtly, at others remarkably as in the transformation of painkiller to Bulgarian 'jack of all trades'. The book provides a systematic description of the lexical input of English into Icelandic, Norwegian, Dutch, German, Russian, Polish, Croatian, Bulgarian, French, Spanish, Italian, Romanian, Finnish, Hungarian, Albanian, and Greek. Each entry has a brief definition of the loan word, followed by information on its history and distribution; variations in its spelling, meaning, and pronunciation; its route of transmission if not direct from English; its degree of acceptance and usage restrictions; and its native equivalents and derivatives. Grids showing distribution patterns across Europe accompany many of the entries. The Dictionary of European Anglicisms is a scholarly tour de force [French: imported

early nineteenth century] and the result of a prodigious research effort across Europe masterminded and directed by Manfred Gorlach. It is a unique resource for comparative analysis and the study of linguistic variation and change. It will fascinate linguists and word-watchers of all persuasions.

**Strategic Newspaper Management** Conrad C. Fink,1988 The time is right for bright, aggressive newspaper managers to influence and prosper, but bleak indeed for those newspapers whose managers lack the requisite knowledge. Using case studies and examples from the business, Fink shows why some newspapers change with the times and surge ahead and why some continue to publish to an eroding market base and fail. The difference between success and failure, he concludes, is in long-range planning and in daily operating methodology—in, simply, the professionalism of management at all levels.

**The Uninhabitable Earth** David Wallace-Wells,2019-02-19 #1 NEW YORK TIMES BESTSELLER • “The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon.”—Andrew Solomon, author of *The Noonday Demon* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The New Yorker* • *The New York Times* Book Review • *Time* • *NPR* • *The Economist* • *The Paris Review* • *Toronto Star* • *GQ* • *The Times Literary Supplement* • *The New York Public Library* • *Kirkus Reviews* It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (*The Guardian*) and “this generation’s *Silent Spring*” (*The Washington Post*), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today’s. **LONGLISTED FOR THE PEN/E.O. WILSON LITERARY SCIENCE WRITING AWARD** “The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet.”—Farhad Manjoo, *The New York Times* “Riveting. . . . Some readers will find Mr. Wallace-Wells’s outline of possible futures alarmist. He is indeed alarmed. You should be, too.”—*The Economist* “Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the ‘eerily banal language of climatology’ in favor of lush, rolling prose.”—Jennifer Szalai, *The New York Times* “The book has potential to be this generation’s *Silent Spring*.”—*The Washington Post* “The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book.”—Alan Weisman, *The New York Review of Books*

**The Post-Communist Condition** Aleksandra Galasińska,Dariusz Galasiński,2010-06-17 This volume offers interdisciplinary perspectives on discourses in one national context of post-communist transformation. Proposing a macro-micro approach to discourse analysis and transformation, it examines a spectrum of topics including Polish history, with its ‘interpreters’; changes in political bodies and the media, policies of the Catholic Church and the Institute of National Remembrance; xenophobia and anti-Semitism, with the emergence of unemployment and homelessness; experiences of new gender relations and migrations. In effect, drawing upon unique sets of data, the book shows how post-communist transformation can be understood through analyses of the changing public and private discourses. It shows Polish post-communism as a fragile and uneasy transformation, with people and institutions struggling to make sense of it and of life within it. The volume will be of interest to a broad range of social scientists: discourse analysts, sociologists, modern historians and political scientists, as well as to the informed lay public.

**Classical Readings on Culture and Civilization** Stephen Mennell,2017-10-03 In recent times, especially under the influence of postmodernism, culture has often been construed as a critique of modernity. This wide-ranging and comprehensive collection of readings shows that such issues have always been at the centre of thought about the relationship between culture and civilization. The readings are divided into three sections, linking the civilization debate to political theory, to the cultural debate and to the sociology and anthropology. The substantial extracts included give students a rare chance to engage at length with classic texts to appreciate the nature of the battle between the Enlightenment and its critics which has shaped current thought. *Classical Readings on Culture and Civilisation* presents essays from Immanuel Kant, Adam Ferguson, Thomas Jefferson, Alexis de Tocqueville, Friedrich von Schiller, Friedrich Nietzsche, Georg Simmel, Thomas Mann, Sigmund Freud, Emile Durkheim, Marcel Mauss, Lucien Febvre, Alfred Weber, Robert E. Park and Norbert Elias.

**Gregory of Nyssa's Doctrinal Works** Andrew Radde-Gallwitz,2018 Gregory of Nyssa is firmly established in today's theological curriculum and is a major figure in the study of late antiquity. Students encounter him in anthologies of primary sources, in surveys of Christian history and perhaps in specialized courses on the doctrine of the Trinity, eschatology, asceticism, or the like. *Gregory of Nyssa's Doctrinal Works* presents a reading of the works in Gregory's corpus devoted to the dogmatic controversies of his day. Andrew Radde-Gallwitz focuses as much on Gregory the writer as on Gregory the dogmatic theologian. He sets both elements not only within the context of imperial legislation and church councils of Gregory's day, but also within their proper religious context—that is, within the temporal rhythms of ritual and sacramental practice. Gregory himself roots what we call Trinitarian theology within the church's practice of baptism. In his dogmatic treatises, where textbook accounts might lead one to expect much more on the metaphysics of substance or relation, one finds a great deal on baptismal grace; in his sermons, reflecting on the occasion of baptism tends to prompt Trinitarian questions.--Publisher's website.

**Anglicisms in Europe** Roswitha Fischer,Hanna Pulaczewska,2010-09-13 The present volume deals with the influence of the English lexis on other European languages in various fields of discourse, social attitudes towards this phenomenon and its reflections in recent lexicographical work. It contains some of the papers read at the conference *Anglicisms in Europe 2006*, which took place at the University of Regensburg, Germany. It links linguistic aspects with psychological, social, political and cultural issues, tracing relationships and differences between the respective research interests and findings. Its aim is to put the influx of anglicisms into languages other than English into a wide perspective encompassing the European heterogeneity of cultures, traditions and developments. The volume is divided into four parts, which reflect the particular foci of interest in the recent research on anglicisms in the languages of Europe: I. 'Cognitive and Semantic Approaches to Anglicisms', comprising articles that deal with the cognitive, communicative and semantic motivation for contact-induced innovation; II. 'Attitudes Towards the Influx of Anglicisms', with contributions about various national attitudes towards anglicisms and their reflection in the respective languages; III. 'The Use of Anglicisms in Specialized Discourse', with articles focussing on particular practices and domains such as business, sports, the sciences, and on language varieties used in communication within particular subcultures; and IV. 'Anglicisms in Dictionaries', comprising articles that deal with the existing dictionaries of anglicisms in European languages and provide a future-oriented perspective by making suggestions and recommendations regarding future

lexicographic works.
