Yet how to protect herself from the rakish Griffin?

The Book of Memory Mary J. Carruthers, 1992-05-14 The Book of Memory is a magisterial and beautifully illustrated account of the workings and function of memory in medieval society. Memory was the psychological faculty valued above all others in the period stretching from late antiquity through the Renaissance. The prominence given to memory has profound implications for the contemporary understanding of all creative activity, and the social role of literature and art. Drawing on a range of fascinating examples from Dante, Chaucer, and Aquinas to the symbolism of illuminated manuscripts, this unusually wide-ranging book offers new insights into the medieval world.

Paris as Revolution Priscilla Parkhurst Ferguson, 2023-11-10 In nineteenth-century Paris, passionate involvement with revolution turned the city into an engrossing object of cultural speculation. For writers caught between an explosive past and a bewildering future, revolution offered a virtuoso metaphor by which the city could be known and a vital principle through which it could be portrayed. In this engaging book, Priscilla Ferguson locates the originality and modernity of nineteenth-century French literature in the intersection of the city with revolution. A cultural geography, *Paris as Revolution* reads the nineteenth-century city not in literary works alone but across a broad spectrum of urban icons and narratives. Ferguson moves easily between literary and cultural history and between semiotic and sociological analysis to underscore the movement and change that fueled the powerful narratives defining the century, the city, and their literature. In her understanding and reconstruction of the guidebooks of Mercier, Hugo, Vallès, and others, alongside the novels of Flaubert, Hugo, Vallès, and Zola, Ferguson reveals that these works are themselves revolutionary performances, ones that challenged the modernizing city even as they transcribed its emergence. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1994.

Image and Response in Early Europe Peter S. Wells, 2008-05-29 Did people in the Iron Age see their bronze figurines and sculpted stones differently from the way we see them today? How can we approach the problem of determining how they saw things? How different was their experience viewing these objects in the course of their use, from ours as we look at them in museum cases or through photographs in

books? Recent research in cognitive neuroscience and cognitive psychology forms the theoretical basis for a new approach to understanding the visual basis of communication in early Europe. The focus is on societies from the Early Iron Age to the early medieval period in temperate Europe, at the time that traditions of writing were gradually being adopted in this part of the world. Following review of the most relevant results of new experiments and observations in those sciences, Peter S. Wells examines the visual aspects of the archaeological evidence to investigate the role that visuality - the visual quality of things - played in the expression of the self, in interaction between members of social groups, in ritual activity, and in the creation and experience of cultural landscapes.

Overcoming School Refusal Joanne Garfi, 2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. *Overcoming School Refusal* helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. The Chronicle of Prince Osorkon Ricardo Augusto Caminos, 1958 The hieroglyphic texts with which this volume is concerned record the deeds of the eldest son of King Takelothis II of the Twenty-second Dynasty, Prince Osorkon, who was the holder of religious, political, and military posts of great consequence during the troubled reigns of his father and of King Shoshenk III, towards the end of the ninth and at the beginning of the eighth centuries B.C.

The Flâneur (RLE Social Theory) Keith Tester, 2014-08-21 Timely and original, this collection of essays from the leading figures in their fields throws new and valuable light on the significance and future of flânerie. The flâneur is usually identified as the 'man of the crowd' of Edgar Allan Poe and Charles Baudelaire, and as one of the heroes of Walter Benjamin's Arcades Project. The flâneur's activities of strolling and loitering are mentioned increasingly frequently in sociology, cultural studies and art history, but rarely is the debate developed further. *The Flâneur* is the first book to develop the debate beyond Baudelaire and Benjamin, and to push it in unexpected and exciting directions.

Angels and Demons in Art Rosa Giorgi, 2005 This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic

beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

Val has spent the last hundred years doing two things, protecting Princess Suttrelle of Muspelheim from her father, and hating the Norse Gods who forced her and her Valkyrie sisters to fight in Ragnarök. And when she meets Loki, God of Mischief, at the Speed Dating event, the last thing she intends to do is fall for the man-whore, woman-using, Trickster God. But getting away from Loki isn't as easy as she had hoped because despite him being irritating, vain, and stubborn, he's also kind, understanding, and hotter than Hell itself. The Tale of Sinuhe and Other Ancient Egyptian Poems, 1940-1640 BC, 1998 This anthology contains all the substantial surviving works from the golden age of Ancient Egyptian fictional literature (c.1940-1640 B.C.). Composed by an anonymous author in the form of a funerary autobiography, the Tale tells how the courtier Sinuhe flees Egypt at the death of his king. His adventures bring wealth and happiness, but his failure to find meaningful life abroad is only redeemed by the new king's sympathy, and he finally returns

to the security of his homeland. Other works from the Middle Kingdom include a poetic dialogue between a man and his soul on the problem of suffering and death, a teaching about the nature of wisdom which is bitterly spoken by the ghost of the assassinated King Amenemhat I, and a series of light-hearted tales of wonder from the court of the builder of the Great Pyramid.--Jacket.

Music of the Ottoman Court Walter Feldman,2023-12-18 Between 1600 and 1750 Ottoman Turkish music differentiated itself from an older Persianate art music and developed the genres antecedent to modern Turkish art music. Based on a translation of Demetrius Cantemir’s seminal “Book of the Science of Music” from the early eighteenth century, this work is the first to bring together contemporaneous notations, musical treatises, literary sources, travellers’ accounts and iconography. These present a synthetic picture of the emergence of Ottoman composed and improvised instrumental music. A detailed comparison of items in the notated Collections of Cantemir and of Bobowski—from fifty years earlier—together with relevant treatises, reveal key aspects of modality, melodic progression and rhythmic structures.
