*We Are the Weather* Jonathan Safran Foer, 2019-09-17 In *We Are the Weather*, Jonathan Safran Foer explores the central global dilemma of our time in a surprising, deeply personal, and urgent new way. Some people reject the fact, overwhelmingly supported by scientists, that our planet is warming because of human activity. But do those of us who accept the reality of human-caused climate change truly believe it? If we did, surely we would be roused to act on what we know. Will future generations distinguish between those who didn't believe in the science of global warming and those who said they accepted the science but failed to change their lives in response? The task of saving the planet will involve a great reckoning with ourselves—with our all-too-human reluctance to sacrifice immediate comfort for the sake of the future. We have, he reveals, turned our planet into a farm for growing animal products, and the consequences are catastrophic. Only collective action will save our home and way of life. And it all starts with what we eat—and don't eat—for breakfast.

*Mordacious* Sarah Fleming, 2016-06-10 Sylvie Rossi has the loner thing down pat, with the exception of her best friend, Grace. But when the two are trapped in a hospital during the last gasp of a dying city, alone time is no longer an option. A nurse's offer of sanctuary promises Sylvie the supplies she needs to survive the zombie apocalypse—it's the coexisting with people that might do her in. Eric Forrest will do whatever it takes to get into the dead city for his sister, including ending up dead himself. He's used to taking risks, but with every mile he travels death looks likelier and likelier, and finding his sister may be his only prospect for survival—if he can make it home. Sylvie doesn't need more than food, water and shelter. Eric wants only to find his sister. But sometimes what we think we need isn't what we need at all, and what we find is more than we expected.

*Topical Communication Uncertainties* Stefan Vladutescu, Florentin Smarandache, Daniela Gifu, Alina Tenescu, 2014 Communication is the main way of defusing uncertainties. Unfortunately, communication discipline itself is mined by uncertainties. We can talk about onto-epistemological uncertainties and pragmatic uncertainties of communication, about theoretical and practical uncertainties, and about primary and secondary uncertainties of communication. Uncertainties regarding the object of communication as autonomous discipline, the research methods of communication, the sources, paradigms and models of communication represent theoretical, onto-epistemological uncertainties. Pragmatic uncertainties include uncertainties in communication processes; they have a practical character. Pragmatic uncertainties are those that lead to communication failure and they consist in minor obstacles or insurmountable barriers in concrete

communication. (Florentin Smarandache & Stefan Vladutescu) \*\*\* The book has 16 chapters written by the following authors and co-authors from USA, England, Poland, Slovakia, and Romania: Florentin Smarandache, Stefan Vladutescu, Mirela Teodorescu, Dan S. Stoica, Daniela Gifu, Calin Andrei, Ioan Constantin Dima, Mariana Man, Janusz Grabara, Paula Bajdor, Jim O'Brien, Andrzej Rabsztyn, Anabella-Maria Tarnovan, Adrian Nicolescu, Alina Tenescu, Nicusor Minculete, Vladimir Modrak, Sorin Mihai Radu, Alice Ionescu, Anca Diana Bibiri, Lucian Sacalean, Mircea Munteanu, Roxana Criu, Bogdan Constantin Neculau, Marin Dramnescu, MihaelaGabriela Paun, and Loredana Speriatu.

First Language Attrition Monika S. Schmid,Barbara Köpke,2013-05-22 This volume consists of a collection of papers that focus on structural/grammatical aspects of the process of first language attrition. It presents an overview of current research, methodological issues and important questions regarding first language attrition. In particular, it addresses the two most prominent issues in current L1 attrition research: Can attrition effects impact on features of core syntax, or are they limited to interface phenomena?, and; What is the role of age at onset (pre-/post-puberty) in this regard? By investigating attrition in a variety of settings, from a case study of a Spanish-speaking adoptee in the US to an empirical investigation of more than 50 long-term attriters of Turkish in the Netherlands, the investigations presented take a new perspective on these issues. Originally published in Language, Interaction and Acquisition - Langage, Interaction et Acquisition 2:2 (2011).

**Europe and the Black Sea Region** Dominik Gutmeyr,2019-05 When the scientific study of the Black Sea Region began in the late 18th and early 19th centuries, initially commissioned by adjacent powers such as the Habsburg and the Russian empires, this terra incognita was not yet considered part of Europe. The eighteen chapters of this volume show a broad range of thematic foci and theoretical approaches - the result of the enormous richness of the European macrocosm and the BSR. The microcosms of the many different case studies under scrutiny, however, demonstrate the historical dimension of exchange between the allegedly opposite poles of 'East' and 'West' and underscore the importance of mutual influences in the development of Europe and the BSR.

Maestra LS Hilton,2016-03-10 READ THE CONTROVERSIAL THRILLER THAT SHOCKED THE

WORLD THE NUMBER ONE BESTSELLER GLAMOUR'S WRITER OF THE YEAR By day Judith Rashleigh is a put-upon assistant at a London auction house. By night she's a hostess in one of the capital's unsavoury bars. Desperate to make something of herself, Judith knows she has to play the game. She's learned to dress, speak and act in the interests of men. She's learned to be a good girl. But after uncovering a dark secret at the heart of the art world, Judith is fired and her dreams of a better life are torn apart. So she turns to a long-neglected friend. A friend that kept her chin up and back straight through every past slight. A friend that a good girl like her shouldn't have: Rage. Fatal attraction meets *The Talented Mr Ripley* in this darkly decadent thriller, soon to be a major Hollywood film, that asks: Where do you go when you've gone too far?

Recovery of Gray Wolves in the Great Lakes Region of the United States Adrian P.

Wydeven, Timothy R. van Deelen, Edward Heske, 2009-02-27 In this book, we document and evaluate the recovery of gray wolves (*Canis lupus*) in the Great Lakes region of the United States. The Great Lakes region is unique in that it was the only portion of the lower 48 states where wolves were never completely extirpated. This region also contains the area where many of the first modern concepts of wolf conservation and research were developed. Early proponents of wolf conservation such as Aldo Leopold, Sigurd Olson, and Durward Allen lived and worked in the region. The longest ongoing research on wolf-prey relations (see Vucetich and Peterson, Chap. 3) and the first use of radio telemetry for studying wolves (see Mech, Chap. 2) occurred in the Great Lakes region. The Great Lakes region is the first place in the United States where "Endangered" wolf populations recovered. All three states (Minnesota, Wisconsin, and Michigan) developed ecologically and socially sound wolf conservation plans, and the federal government delisted the population of wolves in these states from the United States list of endangered and threatened species on March 12, 2007 (see Refsnider, Chap. 21). Wolf management reverted to the individual states at that time. Although this delisting has since been challenged, we believe that biological recovery of wolves has occurred and anticipate the delisting will be restored. This will be the first case of wolf conservation reverting from the federal government to the state conservation agencies in the United States.

**The Girl with a Clock for a Heart** Peter Swanson, 2014-02-04 *The Girl with a Clock for a Heart* is Peter Swanson's electrifying tale of romantic noir, with shades of Hitchcock and reminiscent of the classic movie *Body Heat*. It is the story of a man swept into a vortex of irresistible passion and murder when an old love mysteriously reappears. On an ordinary Friday evening at his favorite Boston tavern, George Foss's comfortable, predictable life is shattered when a beautiful woman sits down at the bar,

a woman who vanished without a trace twenty years ago. Liana Dector isn't just an ex-girlfriend, the first love George couldn't quite forget. She's also a dangerous enigma and quite possibly a cold-blooded killer wanted by the police. Suddenly, she's back—and she needs George's help. Ruthless men believe she stole some money . . . and they will do whatever it takes to get it back. George knows Liana is trouble. But he can't say no—he never could—so he makes a choice that will plunge him into a terrifying whirlpool of lies, secrets, betrayal, and murder from which there is no sure escape. Bold and masterful, full of malicious foreboding and subtle surprises, *The Girl with a Clock for a Heart* is an addictive, nonstop thriller—an ever-tightening coil of suspense that grips you right up to its electrifying end.

**Memes in Digital Culture** Limor Shifman, 2013-10-04 Taking “Gangnam Style” seriously: what Internet memes can tell us about digital culture. In December 2012, the exuberant video “Gangnam Style” became the first YouTube clip to be viewed more than one billion times. Thousands of its viewers responded by creating and posting their own variations of the video—“Mitt Romney Style,” “NASA Johnson Style,” “Egyptian Style,” and many others. “Gangnam Style” (and its attendant parodies, imitations, and derivations) is one of the most famous examples of an Internet meme: a piece of digital content that spreads quickly around the web in various iterations and becomes a shared cultural experience. In this book, Limor Shifman investigates Internet memes and what they tell us about digital culture. Shifman discusses a series of well-known Internet memes—including “Leave Britney Alone,” the pepper-spraying cop, LOLCats, Scumbag Steve, and Occupy Wall Street's “We Are the 99 Percent.” She offers a novel definition of Internet memes: digital content units with common characteristics, created with awareness of each other, and circulated, imitated, and transformed via the Internet by many users. She differentiates memes from virals; analyzes what makes memes and virals successful; describes popular meme genres; discusses memes as new modes of political participation in democratic and nondemocratic regimes; and examines memes as agents of globalization. Memes, Shifman argues, encapsulate some of the most fundamental aspects of the Internet in general and of the participatory Web 2.0 culture in particular. Internet memes may be entertaining, but in this book Limor Shifman makes a compelling argument for taking them seriously.

Remote Sensing of Geomorphology , 2020-05-04 Remote Sensing of Geomorphology, Volume 23, discusses the new range of remote-sensing techniques (lidar, structure from motion photogrammetry,

advanced satellite platforms) that has led to a dramatic increase in terrain information, and as such provided new opportunities for a better understanding of surface morphology and related Earth surface processes. As several papers have been published (including paper reviews and special issues) on this topic, this book summarizes the major advances in remote sensing techniques for the analysis of Earth surface morphology and processes, also highlighting future challenges. Useful for MSc and PhD students, this book is also ideal for any scientists that want to have a single volume guideline to help them develop new ideas. In addition, technicians and private and public sectors working on remote sensing will find the information useful to their initiatives. Provides a useful guideline for MSc and PhD students, scientists, technicians, and land planners on the use of remote sensing in geomorphology Includes applications on specific case studies that highlight issues and benefits of one technique compared to others Presents future trends in remote sensing and geomorphology

*Financial Business Intelligence* Nils H. Rasmussen, Paul S. Goldy, Per O. Solli, 2002-10-15 Turn storehouses of data into a strategic tool Business intelligence has recently become a word used by almost every CFO, controller, and analyst. After having spent the last decade implementing Enterprise Resource Planning software and other mission critical solutions, companies now have large databases with transactional data sitting in their computer rooms. Now, finally, the technology has reached a point where it is possible- in almost real time- to quickly and easily analyze the financial data in the corporate databases, to be able to make more intelligent business decisions. This book will help financial managers understand the trends, technology, software selection, and implementation of financial business intelligence (financial BI) software. With a dictionary of business intelligence terms, a comprehensive list of Request for Proposal questions, and examples of popular financial business intelligence reroutes and user interfaces, this book enables managers to measure their companies' business intelligence and maximize its value.

Romanian cultural resolution Adrian Bojenoiu, Alexandru Niculescu, 2011 This volume examines Romania's political and social transition from communism to democracy through the lens of its contemporary art of the past 20 years. Conceived as a kind of cultural manifesto or resolution, it analyzes this period and the conception of postcommunism through the work of 26 artists and writers.

The Expression Of The Emotions In Man And Animals Charles Darwin,2020-05-19 There are other actions which are commonly performed under certain circumstances, independently of habit, and which seem to be due to imitation or some sort of sympathy. Thus persons cutting anything with a pair of scissors may be seen to move their jaws simultaneously with the blades of the scissors. Children learning to write often twist about their tongues as their fingers move, in a ridiculous fashion. When a public singer suddenly becomes a little hoarse, many of those present may be heard, as I have been assured by a gentleman on whom I can rely, to clear their throats; but here habit probably comes into play, as we clear our own throats under similar circumstances.
