Saul Bass Jennifer Bass,Pat Kirkham,2011-11-09 This is the first book to be published on one of the greatest American designers of the 20th Century, who was as famous for his work in film as for his corporate identity and graphic work. With more than 1,400 illustrations, many of them never published before and written by the leading design historian Pat Kirkham, this is the definitive study that design and film enthusiasts have been eagerly anticipating. Saul Bass (1920-1996) created some of the most compelling images of American post-war visual culture. Having extended the remit of graphic design to include film titles, he went on to transform the genre. His best known works include a series of unforgettable posters and title sequences for films such as Alfred Hitchcock's *Vertigo* and Otto Preminger's *The Man With The Golden Arm* and *Anatomy of a Murder*. He also created some of the most famous logos and corporate identity campaigns of the century, including those for major companies such as AT&T, Quaker Oats, United Airlines and Minolta. His wife and collaborator, Elaine, joined the Bass office in the late 1950s. Together they created an impressive series of award-winning short films, including the Oscar-winning *Why Man Creates*, as well as an equally impressive series of film titles, ranging from Stanley Kubrick's *Spartacus* in the early 1960s to Martin Scorsese's *Cape Fear* and *Casino* in the 1990s. Designed by Jennifer Bass, Saul Bass's daughter and written by distinguished design historian Pat Kirkham who knew Saul Bass personally, this book is full of images from the Bass archive, providing an in depth account of one of the leading graphic artists of the 20th century.

Saul Bass Jan-Christopher Horak,2014-11-18 Iconic graphic designer and Academy Award-winning filmmaker Saul Bass (1920-1996) defined an innovative era in cinema. His title sequences for films such as Otto Preminger's *The Man with the Golden Arm* (1955) and *Anatomy of a Murder* (1959), Alfred Hitchcock's *Vertigo* (1958) and *North by Northwest* (1959), and Billy Wilder's *The Seven Year Itch* (1955) introduced the idea that opening credits could tell a story, setting the mood for the movie to follow. Bass's stylistic influence can be seen in popular Hollywood franchises from the *Pink Panther* to *James Bond*, as well as in more contemporary works such as Steven Spielberg's *Catch Me If You Can* (2002) and television's *Mad Men*. The first book to examine the life and work of this fascinating figure, *Saul Bass: Anatomy of Film Design* explores the designer's revolutionary career and his lasting impact on the entertainment and advertising industries. Jan-Christopher Horak traces Bass from his humble beginnings as a self-taught artist to his professional peak, when auteur directors like Stanley Kubrick, Robert Aldrich, and Martin Scorsese sought him as a collaborator. He also discusses how Bass incorporated aesthetic concepts borrowed from modern art in his work, presenting them in a new way that made them easily recognizable to the public. This long-overdue book sheds light on the creative process of the undisputed master of film title design—a man whose multidimensional talents and unique ability to blend high art and commercial imperatives profoundly influenced generations of filmmakers, designers, and advertisers.

Lamborghini Gautam Sen,Kaare Byberg,Branko Radovinovic,2022-04-04 A richly illustrated two-volume love letter to an extraordinary Italian carmaker. Since the unveiling of the Lamborghini Miura--the world's first V12-powered mid-engine road car--at the

1966 Geneva Motor Show, this Italian marque, with its widely recognized raging bull emblem, has been one of the most famous and desirable purveyors of the supercar. This lavish two-volume book celebrates the design history of Lamborghini through numerous previously unpublished documents and images, delving into the extraordinary shapes and the intrepid personalities who made Lamborghini what it is today. The authors make clear that what has really distinguished Lamborghini has been a series of models with ground-breaking shapes, each one a veritable design revolution. With the aid of more than a thousand images, the authors detail the design history of such beloved models as the Miura, Espada, Urraco, Countach, and Diablo, each of which astounded automotive fans as much for their daring shape, form, and aesthetic purity as for their top-notch engineering and trendsetting packaging. This deluxe history of one of the world's most celebrated automobile marques is sure to delight Lamborghini aficionados and neophytes alike.

De Tomaso from Buenos Aires to Modena Daniele Pozzi, 2015-11-26 The first illustrated and complete book on one of the top marques of the Olympus of automotive history, written in collaboration with the de Tomaso family. -- The volume traces the sporting and entrepreneurial story of Alejandro de Tomaso, exhaustively illustrating the characteristics of the models that have made the Automobili De Tomaso famous around the world, such as the Pantera, truly a cult object, especially in the United States. Many different dimensions are interwoven in de Tomaso's story: the world of the gentlemen-sportsmen who animated the motor-racing competitions in the 1950s-1960s, the genuine and somewhat provincial charisma of the artist-mechanics of the Modena area, and the story of the great American industrial dynasties and the intricate developments of the Italian automotive industry. -- The book is born the collaboration with the de Tomaso family, who for the first time have opened the private archives of the founder of the auto maker, making available to the public at large the private photographs, the historical images of all the models and the technical drawings, revealing the secrets and the behind-the-scenes episodes of a legendary production. To further enrich the book an ad hoc photographic campaign will be realized. The texts in the volume, rigorous yet accessible to the non-expert, will be entrusted to a scholar of the history of this Italian business, while the technical section will be written by a team of sports car experts chosen together with the de Tomaso family.

Classic Beetle Keith Seume, 2015-10-15 The specially commissioned photographs in this book display each Beetle variant model in their full glory. From the military vehicles of the 1930s through the post-WWII cars, up to and including the final German-built model of 1979, this book offers a loving tribute to the car in sumptuous detail. The beautifully restored and kept cars of each decade are displayed across several double page spreads. Parts of each model are shown in close-up, compared and explained using studio photographs of each model's steering wheels, indicators, engine bays and other aspects of design and function. The history of the Beetle is illustrated using contemporary archive photography, and attention is given to the cultural impact of the Beetle as shown through movies (such as the Herbie franchise), advertising and graphic design. This large format, fully illustrated book presents the Beetle as an object of art, albeit one that starts every time and will run forever on reused cooking oil, with a little modification. Fiat 131 Abarth Graham Robson,2008-12-15 When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?
