СуперКонсалтинг-2: PR и маркетинг в сфере B2B-услуг Роман Масленников, 2022-05-15 Разделы книги затрагивают важнейшие вопросы пиара и маркетинга фирмы, поиска клиентов, продаж «незримого», корпоративной культуры, антикризисных коммуникаций, фирменного стиля и дизайна. А также – аспекты продвижения фирмы, оказывающей профессиональные услуги на рынках B2B как в Москве, так и в регионах России. Ключевым разделом в книге является пошаговое руководство по продвижению консалтинговой фирмы. Руководство показывает пример конкретной схемы действий, которую можно наметить и адаптировать под свой бизнес сразу по прочтению данного издания. Вы можете использовать этот уникальный и абсолютно рабочий материал или наметить свой путь. Книга адресована директорам, управляющим партнерам, а также руководителям PR-департаментов и маркетологам фирм, оказывающих профессиональные услуги. В данном издании собраны все ссылки на полезные книги и сайты. Ранее данная информация была доступна только клиентам PR-агентства и покупателям печатной версии книги. Примечательно, что, во-первых, не все успели воспользоваться советами. Мы видим, что так и не появилось «Министерства Аудита»... А во-вторых, мы видим, что те, кто все-таки имел смелость применить советы, воспользовались не всеми рекомендациями. И поэтому – предлагаем данную книгу для информации к действию именно Вам! У Вас есть Большой Шанс. Принимая во внимание множество отзывов о том, что данные советы применимы не только для аудита и консалтинга, мы решили переименовать книгу в «PR и маркетинг в сфере B2B-услуг». Желаем PRиятного

чтения!

Деловые журналы США и России: прошлое и настоящее Андрей Вырковский, 2021-07-21 Настоящая книга – одна из первых попыток детального анализа национальной системы деловой прессы, в частности деловых журналов. Актуальность исследований деловой прессы несомненна: растет количество масс-медиа, работающих с информацией делового характера, увеличивается влияние бизнес-СМИ на протекающие в обществе и экономике процессы, повышается внимание к вопросам развития деловых масс-медиа. Автор проанализировал ведущие деловые журналы Соединенных Штатов Америки и Российской Федерации. Стало очевидно, что модели деловых журналов в двух странах существенно различаются. Восприятие и адаптация опыта, наработанного зарубежными аналогами, – способ ускорить развитие российских деловых масс-медиа, избежать ошибок и выработать оптимальные модели функционирования деловых журналов как неотъемлемого элемента национальной системы СМИ. В формате PDF A4 сохранен издательский макет.

Налоговое планирование. Теория и практические рекомендации с материалами судебной практики Екатерина Шестакова, 2018-12-20 Книга содержит материал по основным вопросам организации налогового планирования на предприятии: теоретическим вопросам планирования налогообложения в организации, планирования конкретных налогов и сборов, а также планирования налогообложения при осуществлении конкретных сделок. Материалы, изложенные в книге, могут быть легко применимы на практике в целях планирования деятельности предприятия, при планировании

договорной работы, при применении специальных налоговых режимов и во многих других случаях. Книга предназначена для руководителей компаний, финансовых директоров и главных бухгалтеров, юристов, аудиторов, специалистов и консультантов по налоговому планированию, налоговых адвокатов и консультантов, руководителей налоговых и финансовых госорганов, а также для студентов, аспирантов и преподавателей юридических и экономических вузов и факультетов. Будет полезна для людей, которые хотят самостоятельно повысить свои знания в области налогообложения.

СуперКонсалтинг: PR и маркетинг в сфере аудита и консалтинга Роман Масленников, 2022-04-02 Может ли существовать одна-единственная формула успеха для фирмы, оказывающей профессиональные услуги – аудиторские, юридические, консультационные и любые другие? Пожалуй, что нет. Это справедливо для большей части фирм малого и среднего бизнеса в России и, наверное, в мире. Зато в нашем распоряжении – опыт множества фирм, успешный опыт. В данном издании мы обобщили опыт признанных экспертов-практиков, советы которых помогли добиться успеха руководителям фирм, оказывающих профессиональные услуги в России. Вашему вниманию также представлен многолетний опыт сотрудников специализированного PR-агентства в виде ориентиров – что читать, на каких сайтах искать нужную информацию – чтобы добиться успеха в своей профессиональной области. Разделы книги затрагивают важнейшие вопросы пиара и маркетинга фирмы, поиска клиентов, продаж незримого, корпоративной культуры, антикризисных коммуникаций, фирменного стиля и дизайна, а также аспекты продвижения аудиторской или консалтинговой

фирмы в регионах России. Ключевым и желанным разделом в книге является пошаговое руководство по продвижению аудиторско-консалтинговой фирмы, которое показывает пример одной конкретной схемы действий, которую можно наметить по прочтению данного издания. Вы можете использовать этот уникальный и абсолютно рабочий материал или наметить свой путь. Книга адресована директорам, управляющим партнерам, а также руководителям PR-департаментов и маркетологам фирм, оказывающих профессиональные услуги.

The Global Competitiveness of Regions Robert Huggins, Hiro Izushi, Daniel Prokop, Piers

Thompson, 2014-06-27 The aim of this book is to consider theoretically the notion of the global competitiveness of regions, as well as giving attention as to how such

competitiveness may be empirically measured. With this in mind, the book has three specific objectives: first, to place the concept of regional competitiveness within the context of regional economic development theory; second, to present a rationale and method for quantifying the global competitiveness of regions; and, third, to undertake the most geographically widespread analysis of regional competitiveness differences across the globe. With regard to the third goal, the analysis incorporates more than 500 regions across Europe, North and South America, Asia-Pacific, the Middle East, and the so-called BRIC economies of Brazil, Russia, India, and China. The importance of the concept of competitiveness has increased rapidly in recent years, with the issues surrounding it becoming, at the same time, more empirically refined and theoretically complex. The focus on regions reflects the growing consensus that they are the primary spatial units that compete to attract investment, and it is at the regional level that knowledge is circulated and transferred, resulting in agglomerations, or clusters, of industrial and service sector enterprises. This growing acknowledgement of the region's role as a key spatial unit of organisation has led to attention turning to competitiveness at a more regional level. The book explores the results of the World Competitiveness Index of Regions (WCIR), covering the rankings and results of the 2014 edition. The WCIR provides a tool for analysing the development of a range of regional economies across the globe. It enables an illustration of the changing patterns of regional competitiveness on the international stage to be generated. In fundamental terms, the WCIR aims to produce an integrated and overall benchmark of the knowledge capacity, capability, and sustainability of each region, and the extent to which this knowledge is translated into economic value and transferred into the

wealth of the citizens of each region.

UML 2 and the Unified Process Jim Arlow, Ila Neustadt, 2005-06-27 This book manages to convey the practical use of UML 2 in clear and understandable terms with many examples and guidelines. Even for people not working with the Unified Process, the book is still of great use. Foreign Direct Investment in Russia

Anonym,2017-04-25 Seminar paper from the year 2006 in the subject Economics - Case Scenarios, grade: A- ,

language: English, abstract: Foreign direct investment constitutes a highly important part of contemporary world economy. Globalization of international economic relations have led to the situation in which many countries face the necessity to compete with each other and, thus, to enhance their competitiveness through attraction of foreign capital. FDI in this respect appears to be the most desirable option for many economies, as they are more stable than other forms of investment. This papers answers the question of why Russia attracted such a small amount of FDI since the beginning of the transition process. This analysis takes into consideration major determinants of FDI inflow to the country as well as factors of their spatial and sectoral distribution within the state.

UNESCO science report UNESCO,2015-11-09 There are fewer grounds today than in the past to deplore a North-South divide in research and innovation. This is one

of the key findings of the UNESCO Science Report: towards 2030. A large number of countries are now incorporating science, technology and innovation in their national development agenda, in order to make their economies less reliant on raw materials and more rooted in knowledge. Most research and development (R&D) is taking place in high-income countries, but innovation of some kind is now occurring across the full spectrum of income levels according to the first survey of manufacturing companies in 65 countries conducted by the UNESCO Institute for Statistics and summarized in this report. For many lower-income countries, sustainable development has become an integral part of their national development plans for the next 10–20 years. Among higher-income countries, a firm commitment to sustainable development is often coupled with the desire to maintain competitiveness in global markets that are increasingly leaning towards ‘green’ technologies. The quest for clean energy and greater energy efficiency now figures among the research priorities of numerous countries. Written by more than 50 experts who are each covering the country or region from which they hail, the UNESCO Science Report: towards 2030 provides more country-level information than ever before. The trends and developments in science, technology and innovation policy and governance between 2009 and mid-2015 described here provide essential baseline information on the concerns and priorities of countries that could orient the implementation and drive the assessment of the 2030 Agenda for Sustainable Development in the years to come.

Conspiracy Theories in the Arab World Matthew Gray, 2010-07-12 Conspiracy theories, while not unique to the Middle East, are a salient feature of the political

discourses of the region. Strongly reflecting and impacting on state-society relations and indigenous impressions of the world beyond the region, they affect how political behaviour within and among the states of the region is situated, structured, and controlled. Discounting the common pathological explanation for conspiracism, the author argues that a complex mix of political factors account for most conspiracy theories in the contemporary Arab world. The author argues that the region's modern history, genuine conspiracies, the complex and oftentimes strained relationship between state and society, the role of the state and the mass media as conspiracy theorists, and the impacts of new technologies have all helped to develop and sustain conspiracist narratives. Drawing on a range of examples and cases, including the impacts of globalization, economic reform, weak state legitimacy, the war in Iraq, the Arab-Israeli issue, the rise of political Islamism, and internet and satellite television, the book illuminates the complex sources of conspiracy theories. Providing a comprehensive overview of this controversial topic, this book will appeal not only to students and scholars interested in Middle East studies, political science, globalization and conspiracy theories, but to anyone seeking an understanding of the region's complex economic, social, and cultural dynamics.
