*Recovered Roots* Yael Zerubavel, 1995 Because new nations need new pasts, they create new ways of commemorating and recasting select historic events. In *Recovered Roots*, Yael Zerubavel illuminates this dynamic process by examining the construction of Israeli national tradition. In the years leading to the birth of Israel, Zerubavel shows, Zionist settlers in Palestine consciously sought to rewrite Jewish history by reshaping Jewish memory. Zerubavel focuses on the nationalist reinterpretation of the defense of Masada against the Romans in 73 C.E. and the Bar Kokhba revolt of 133-135; and on the transformation of the 1920 defense of a new Jewish settlement in Tel Hai into a national myth. Zerubavel demonstrates how, in each case, Israeli memory transforms events that ended in death and defeat into heroic myths and symbols of national revival. Drawing on a broad range of official and popular sources and original interviews, Zerubavel shows that the construction of a new national tradition is not necessarily the product of government policy but a creative collaboration between politicians, writers, and educators. Her discussion of the politics of commemoration demonstrates how rival groups can turn the past into an arena of conflict as they posit competing

interpretations of history and opposing moral claims on the use of the past. Zerubavel analyzes the emergence of counter-memories within the reality of Israel's frequent wars, the ensuing debates about the future of the occupied territories, and the embattled relations with Palestinians. A fascinating examination of the interplay between history and memory, this book will appeal to historians, sociologists, anthropologists, political scientists, and folklorists, as well as to scholars of cultural studies, literature, and communication.

**Living Symbols** Ida Huberman, 1988

1914, סמלים וזיכרון

**Sound and Symbol** Victor Zuckerkandl, 1969-10-21

An approach to music as an instrument of philosophical inquiry, seeking not so much a philosophy of music as a philosophy through music.

**Speaking Arabic** Yohanan Elihai, 2010

הערבית כשפה ,הערבית כסמל וזיכרון Joram Bick, 1991

**Land and Power** Anita Shapira, 1999 This book traces the history of attitudes toward power and the use of armed force within the Zionist movement—from an early period in which most leaders espoused an ideal of peaceful settlement in Palestine, to the acceptance of force as a legitimate tool for achieving a sovereign Jewish state. Reviews A rich and sophisticated work that nicely complements more conventional political-historical studies of the Arab-Israeli conflict. . . . Shapira sifts through a vast body of material, ranging from essays, poems, and memoir literature to the unpublished minutes of political party and

youth group meetings. Shapira interprets these sources with sensitivity and insight . . . and writes with power, compassion, and warmth. . . . A landmark book that is an outstanding contribution to the history of Zionist political thought and culture. □American Historical Review This is a superb book . . . a well-researched, detailed, and scholarly account that provides new and valuable insights into the dilemma posed by the formation and elaboration of a more forceful Israeli military posture. □The Historian Shapira's powerful, well-written, lucid intellectual history of a segment of the Zionist movement . . . is fascinating and easy to read. □Journal of Economic Literature

The Olive Tree Dictionary J. Elihay, Yohanan Elihai, 2004 Until now, mastering Arabic script has prevented many from speaking and understanding the language. Elihay helps English speakers unlock the mystery and beauty of the Arabic language through a unique, innovative method in which Arabic words are looked up phonetically in English. **A Dictionary of Jewish Babylonian Aramaic of the Talmudic and Geonic Periods** Michael Sokoloff, 2002 The first new dictionary of Jewish Babylonian Aramaic in a century, this towering scholarly achievement provides a complete lexicon of the entire vocabulary used in both literary and epigraphic sources from the Jewish community in Babylon from the third century C.E. to the twelfth century. Author Michael Sokoloff's primary source is, of course, the Babylonian Talmud, one of the most important and influential works in Jewish

literature. Unlike the authors of previous dictionaries of this dialect, however, he also uses a variety of other sources, from inscriptions and legal documents to other rabbinical literature. A Dictionary of Jewish Babylonian Aramaic also differs from earlier lexographic efforts in its focus on a single dialect. Previous dictionaries have been composite works containing various Aramaic dialects from different periods, blurring distinctions in meaning and nuance. Sokoloff has been able to draw on the most current linguistic and textual scholarship to ensure the complete accuracy of his lexical entries, each of which is divided into six parts: lemma or root, part of speech, English gloss, etymology, semantic features, and bibliographic references. Another important feature in this invaluable reference work is its index of all cited passages, which allows the reader of a given text to easily find the semantics of a particular word. In addition to linguists and specialists in Jewish Aramaic literature, lay readers and students will also find this comprehensive, up-to-date dictionary useful for understanding the Babylonian Talmud.
