D. Z. Phillips on Religious Language, Religious Truth, and God Hyoseok Kim,2022-02-25 D. Z. Phillips (1934-2006) was one of the most influential, ingenious, and perhaps controversial thinkers in the Anglo-American philosophy of religion. In particular, he is widely regarded as a leading proponent of a Wittgensteinian approach to the philosophy of religion. While almost every book on religious language or Anglophone philosophy of religion deals with Phillips' thought or, at least, mentions his name, all too frequently his position has been grossly misunderstood and has often attracted unwarranted criticism from various sides. Seeking to offer a constructive presentation and critical discussion of Phillips' view of philosophy, religious language, religious truth, and God, Hyoseok Kim endeavors to resolve some misunderstandings, refute undue criticisms of Phillips' position, and make some suggestions concerning directions in which his view might and ought to be further developed.

Al-FAWAID ACOLLECTION OF WISE SAYINGS Imam ibn Al- Qayyim,

The Composition, Theology, and Early Reception of Matthew's Gospel Joseph Verheyden,Jens Schröter,2022 The majority of the essays in this volume were originally presented at a colloquium held at the Faculty of Theology and Religious Studies at KU Leuven in December 2018. The colloquium was linked to an international research project studying texts and traditions from the perspective of identity creation. The essays study Matthew's Gospel and the place it takes among the canonical gospels from the perspective of what is characteristically or distinctively Matthean about it. This common focus provides ample occasions for interesting analyses of core aspects of Matthew's composition technique, his theology, and his reception in mainstream Christianity. At the same time, contributors try to throw light on questions of a broader character with regard to the composition history of the gospels, the strategies authors can use to create distinction, and the selection process that guided their reception history.

From Protology to Eschatology Joseph Verheyden,Geert Roskam,Gerd Van Riel,2022 This volume contains the proceedings of an international conference held in Leuven in June 2017 as a follow-up to a previous meeting that dealt with views on the origin of the cosmos in Greek philosophical and early Christian tradition (published in STAC 104, 2017). The second conference focused on how both traditions have reflected on the end or the goal towards which the cosmos is moving. The Judeo-Christian concept of a creation with temporal development and the philosophical notion of the eternity of the world evidently represent two very different positions. Yet there are also clear signs of convergence and of the latter influencing the former. The essays show there is common interest in reflecting not only on the principles that govern cosmology and on how the cosmos is reverting on its principles, but also on the answers provided in each tradition.

The Topper Prepares Soum Paul,2015-07-01 'The key to success is confidence, which in turn comes through hard work.' --Maram Venkat Ramreddy (MVR), Narayana IIT Academy 'The only thing that a child has after class X, for two years, is non-replenishable time, which is 6000 hours of personal study.' --V.K. Bansal, Bansal Classes As the water rose in his village during the floods in Bihar forcing him and his family to live in tents, Chiranjeev dreamt of a future working in a plush office in a city. Hundreds of kilometres away in Chhattisgarh, Sudoku whizkid Vipul focused on the International Physics Olympiad and winning a top rank in the All-India Joint Entrance Examination. Success would mean a coveted seat in one of the Indian Institutes of Technology--not to mention celebrity status amongst peers and in the family. With an acceptance ratio far lower than Harvard or MIT, the IIT JEE (or JEE Advanced) is one of the most competitive exams in the world. So how do the toppers succeed? Are there smart ways to prepare for the exam? How does the students' quest transform the lives of their families? Through extensive interviews with JEE top rankers, pioneering teachers and the many students who had to fight extraordinary odds to get into an IIT, Soum Paul, entrepreneur and IIT Kanpur alumnus, puts together stories of fierce competition, incredible hard work and sacrifice. A fascinating account of the battle of a million brains.
