**Holy Bible (NIV)** Various Authors,2008-09-02 The NIV is the world's best-selling modern translation, with over 150 million copies in print since its first full publication in 1978. This highly accurate and smooth-reading version of the Bible in modern English has the largest library of printed and electronic support material of any modern translation.

**The Book of Genesis, Chapters 1-17** Victor P. Hamilton,1990-10-31 Hamilton's study on the first 17 chapters of the Book of Genesis is part of The New International Commentary on the Old Testament. Like its companion series on the New Testament, this commentary devotes considerable care to achieving a balance between technical information and homiletic-devotional interpretation.

**The Nathan Narrative in 2 Samuel 7:1–17** William W. Watty,2016-07-08 As with archaeology, traditio-historical research of Old Testament literature proceeds backwards from the received text, travelling through the earlier stages of compositions to the probable origins. The canonical structure of the Hebrew Bible has therefore been taken as the point of departure in the traditio-historical study of the Nathan Narrative in 2 Samuel 7:1-17. By progressing backwards from the Canonical Prophets, the stages in the composition of the Joshua-Kings corpus, and of 2 Samuel 7:1-17, have been recovered through the application of redactio-critical and literary critical methods. A pre-history of the Narrative has also been retraced in the traditions that were preserved in the oral stages, in the typical forms and settings of transmission. Notwithstanding the valuable insights that have accrued from Martin Noth's hypothesis of a Deuteronomistic History, both the hypothesis itself and analyses deriving from it have failed to account satisfactorily for the place of 2 Samuel 7:1-17 in the Joshua-Kings composition. That failure is due to a methodological flaw of taking a non-canonical configuration--namely the Deuteronomy-Kings corpus--as the point of departure and the interpretative key. This study tries to remedy that flaw.

**Demosthenes, Speeches 1–17** Demosthenes,Jeremy Trevett,2011-12-01 This is the fourteenth volume in the Oratory of Classical Greece. This series presents all of the surviving speeches from the late fifth and fourth centuries BC in new translations prepared by classical scholars who are at the forefront of the discipline. These translations are especially designed for the needs and interests of today's undergraduates, Greekless scholars in other disciplines, and the general public. Classical oratory is an invaluable resource for the study of ancient Greek life and culture. The speeches offer evidence on Greek moral views, social and economic conditions, political and social ideology, law and legal procedure, and other aspects of Athenian culture that have recently been attracting particular interest: women and family life, slavery, and religion, to name just a few. This volume contains translations of all the surviving deliberative speeches of Demosthenes (plus two that are almost certainly not his, although they have been passed down as part of his corpus), as well as the text of a letter from Philip of Macedon to the Athenians. All of the speeches were purportedly written to be delivered to the Athenian assembly and are in fact almost the only examples in Attic oratory of the genre of deliberative oratory. In the Olynthiac and Philippic speeches, Demosthenes identifies the Macedonian king Philip as a major threat to Athens and urges direct action against him. The Philippic speeches later inspired the Roman orator Cicero in his own attacks against Mark Antony, and became one of Demosthenes' claims to fame throughout history.

**Metaphor, Morality, and the Spirit in Romans 8** William E. W. Robinson,2016-11-04 Engage compelling arguments that challenge prominent positions in Pauline studies In this innovative book, William E. W. Robinson takes the reader on a journey through Romans 8:1–17 using Conceptual Metaphor Theory and Conceptual Integration Theory. Robinson delineates the underlying cognitive metaphors, their structure, their function, what they mean, and how Paul's audiences then and now are able to comprehend their meaning. He examines each metaphor in the light of relevant aspects of the Greco-Roman world and Paul's Jewish background. Robinson contends that Paul portrays the Spirit as the principal agent in the religious-ethical life of believers. At the same time, his analysis demonstrates that the conceptual metaphors in Romans 8:1–17 convey the integral role of believers in ethical conduct. In the process, he addresses thorny theological issues such as whether Spirit and flesh signal an internal battle within believers or two conflicting ways of life. Finally, Robinson shows how this study is relevant to related Pauline passages and challenges scholars to incorporate these methods into their own investigation of biblical texts. Features: Sustained argument that sheds new light on how Paul communicates with his audiences Substantial contribution to current debates about central theological concepts Conceptual Metaphor Theory and Conceptual Integration Theory applied to the metaphors in Romans 8:1-17

Comment—verse-by-verse interpretation of the text and dialogue with other interpreters, engaging with current opinion and scholarly research. Explanation—brings together all the results of the discussion in previous sections to expose the meaning and intention of the text at several levels: (1) within the context of the book itself; (2) its meaning in the OT or NT; (3) its place in the entire canon; (4) theological relevance to broader OT or NT issues. General Bibliography—occurring at the end of each volume, this extensive bibliographycontains all sources used anywhere in the commentary.
