Encounters with Islam Malise Ruthven, 2012-05-14 For many years Malise Ruthven has been at the forefront of discerning commentary on the Islamic world and its relations with the predominantly secularised and Christian societies of the West. Well known for his bold interventions on such issues as the Rushdie affair and publication of *The Satanic Verses*; the many unresolved questions relating to the Lockerbie bombing; and the globe-changing terrorist attack of 9/11, Ruthven's perceptive writings, particularly those that have appeared in the New York Review of Books, reliably re-frame difficult issues and problems so that his readers are prompted to look at the challenges afresh. Ruthven is here at his most compelling: he offers astute and topical insights across the whole spectrum of Middle East and Islamic studies. Whether questioning the involvement of Libyan agents in the downing of Pan Am Flight 103; exploring the contested place of women in Islam; or discussing the disputed term 'Islamofascism' (his own), the author's probing, searchlight intelligence aims always to get at the truth of things, regardless of attendant controversy. Representing the 'best of Ruthven', these lucid essays will be widely appreciated by students, specialists and general readers. They transform our understandings of contemporary society.

Defense against Terrorism M. Coen, 2019-04-02 Global terrorism is a double-edged threat to democracies. Physically, because of the number of people killed and wounded, structurally, because it threatens social peace and over-reaction tends to undermine our basic values. The authors of the chapters in this book are multinational and interdisciplinary. Their papers were presented for discussion at the Advanced Research Workshop (ARW) held in Skopje (FYROM) 11-14th April 2018 on “Defence Against Terrorism, Enhancing Resilience of Democratic Institutions and Rule of Law”, organized within the NATO Science for Peace and Security Programme. Results can be summarised as follows. Counter-terrorist strategy must aim to achieve less, not more, terrorism. The countries with best results are the ones that cultivate human intelligence, confidence between security services and the local population, together with a tradition of effective respect of the Rule of Law. Militarization of internal security, and intelligence systems mainly based on databases (“big data”) and artificial

intelligence, though popular, are showing serious limits. More effective democracy, not less, is the key to the resilience of our societies against the “new threats”, particularly for confronting the criminal violence of terror. In discussion, some core necessities were identified: to recognize that it is the method used, not the aims, that define criminal organisations as terrorist; that there is a structural link with organized crime for financing and operative support, and that corruption facilitates and protects any illegal activity; social capital must be developed as a fundamental basic tool for enhancing resilience. This book aims to help analyse the networks and contexts that feed terrorism. It provides anyone confronted with security issues an understanding of the negative as well as the positive aspects of specific counter-measures.

The Genius of Islam Bryn Barnard, 2013-04-24 The Middle Ages were a period of tremendous cultural and scientific advancement in the Islamic Empire—ideas and inventions that shaped our world. Did you know that: • The numbers you use every day (Arabic numerals!) are a Muslim invention? • The marching band you hear at football games has its roots in the Middle East? • You are drinking orange juice at breakfast today thanks to Islamic farming innovations? • The modern city's skyline was made possible by Islamic architecture? The Muslim world has often been a bridge between East and West, but many of Islam's crucial innovations are hidden within the folds of history. In this important book, Bryn Barnard uses short, engaging text and gorgeous full-color artwork to bring Islam's contributions gloriously to life. Chockful of information and pictures, and eminently browsable, *The Genius of Islam* is the definitive guide to a fascinating topic.

The Oxford History of Islam John L. Esposito, 2000-04-06 Lavishly illustrated with over 300 pictures, including more than 200 in full color, *The Oxford History of Islam* offers the most wide-ranging and authoritative account available of the second largest--and fastest growing--religion in the world. John L. Esposito, Editor-in-Chief of the four-volume *Oxford Encyclopedia of the Modern Islamic World*, has gathered together sixteen leading scholars, both Muslim and non-Muslim, to examine the origins and historical development of Islam--its faith, community, institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters range from the story of Muhammad and his Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world. The book covers a wide array of subjects, casting light on topics such as the historical encounter of Islam and Christianity, the role of Islam in the Mughal and Ottoman empires, the growth of Islam in Southeast Asia, China, and Africa, the political, economic, and religious challenges of European imperialism in the nineteenth and twentieth centuries, and Islamic communities in the modern Western world. In addition, the book offers excellent articles on Islamic religion, art and architecture, and sciences as well as bibliographies. Events in the contemporary world have led to an explosion of interest and scholarly work on Islam. Written for the general reader but also appealing to specialists, *The Oxford History of Islam* offers the best of that recent scholarship, presented in a readable style and complemented by a rich variety of illustrations.

The Place of Tolerance in Islam Khaled Abou El Fadl, 2002-11-08 Khaled Abou El Fadl, a prominent critic of Islamic puritanism, leads off this lively debate by arguing that Islam is a deeply tolerant religion. Injunctions to violence against nonbelievers stem from misreadings of the Qur'an, he claims, and even jihad, or so-called holy war, has no basis in Qur'anic text or Muslim theology but instead grew out of social and political conflict. Many of Abou El Fadl's respondents think differently. Some contend that his brand of Islam will only appeal to Westerners and students in liberal divinity schools and that serious religious dialogue in the Muslim world requires dramatic political reforms. Other respondents argue that theological debates are irrelevant and that our focus should be on Western sabotage of such reforms. Still others argue that calls for Islamic tolerance betray the Qur'anic injunction for Muslims to struggle against their oppressors. The debate underscores an enduring challenge posed by religious morality in a pluralistic age: how can we preserve deep religious conviction while participating in what Abou El Fadl calls a collective enterprise of goodness that cuts across confessional differences? With contributions from Tariq Ali, Milton Viorst, and John Esposito, and others.

Approaching the Qur'an Michael Sells, 2023-10-05 *Approaching the Qur'an* presents brilliant translations of the short, hymnic chapters, or Suras, associated with the first revelations to the Prophet Muhammad. These early Suras contain some of the most powerful, prophetic, and revelatory passages in religious history, offering the vision of a meaningful and just life that anchors the faith of one fifth of the world's inhabitants. In addition to these translations, Michael Sells provides an introduction to the Qur'an, commentaries on the Suras, a glossary of technical terms, and discussions of the auditory nature and gender aspects of the Arabic text. An ideal resource for students and interested lay readers, this third edition also includes a new full Sura and associated commentary, a new preface, and a thoroughly updated bibliography.

War and Peace in Islam SM Farid Mirbagheri,2012-03-13 Mirbagheri traces the revival of Islamic/ist movements, and embarks on a theoretical study of some of the fundamental concepts in Islam and International Relations such as the self, Jihad, peace and universalism. Contemporary cases of conflict in the Middle East are analysed to pose a challenge to the universalist discourse of Western liberalism.

From Territorial Defeat to Global ISIS: Lessons Learned J.A. Goldstone,E.Y. Alimi,S. Ozeren,2021-02-25 When Islamic State (ISIS) forces were driven out of the territories they had acquired in Syria and Iraq, there remained a concern that the threat posed by ISIS was far from over. It was clear that significant long-term strategies would be needed to establish and maintain security and stability if the potential for further radical Islamist threats in the Middle East and among NATO countries was to be eradicated. This book presents papers from the NATO Advanced Research Workshop (ARW) entitled The Post ISIS-Era: Regional and Global Implications, held in Washington DC, USA, from 6-8 September 2019. The ARW brought together participants from NATO member nations and Partner countries, and from diverse backgrounds, including academia, security, law enforcement, intelligence, military, foreign affairs, media, think tanks, international organizations and embassies. Topics covered included: the future of ISIS after the loss of its territories; maintaining security and stability; analysis of ISIS recruitment and propaganda activities; the returnee problem and the plight of refugees; the processes of radicalization; response to the changing nature of violent extremism; policy recommendations to mitigate the consequences of new threats; and dealing with the exploitation of public fear of terrorism. The book also discusses how the lessons learned can be implemented, and offers specific policy recommendations for the future. It will be of interest to all those involved in combating the international terror threat.

The Search for Beauty in Islam Khaled Abou El Fadl,2006 Khaled Abou El Fadl is a classically-trained Islamic jurist, an American lawyer and law professor, and one of the most important Islamic thinkers today. In this updated and expanded edition of *The Search for Beauty in Islam*, Abou El Fadl offers eye-opening and enlightening insights into the contemporary realities of the current state of Islam and the West. Through a conference of the books, an imagined conference of Muslim intellects from centuries past, Abou El Fadl examines the ugliness that has come to plague Muslim realities and attempts to reclaim what he maintains is a core moral value in Islam-the value of beauty. Does Islamic law allow, or even call for, the gruesome acts of ugliness that have become so commonly associated with Islam today? Has Islam become a religion devoid of beauty, compassion and love? Based on actual cases, this book tackles different issues and problems in each chapter through a post-9/11 lens, discussing such topics as marriage, divorce, parental rights, the position of women, the veil, sexual abuse, wife-beating, terrorism, bigotry, morality, law, and the role of tradition. Abou El Fadl argues that the rekindling of the forgotten value of beauty is essential for Muslims today to take back what has been lost to the fundamentalist forces that have denigrated their religion.
