Feminism and Popular Culture Rebecca Munford, Melanie Waters, 2014-05-01 When the term "postfeminism" entered the media lexicon in the 1990s, it was often accompanied by breathless headlines about the "death of feminism." Those reports of feminism's death may have been greatly exaggerated, and yet contemporary popular culture often conjures up a world in which feminism had never even been born, a fictional universe filled with suburban Stepford wives, maniacal career women, alluring amnesiacs, and other specimens of retro femininity. In *Feminism and Popular Culture*, Rebecca Munford and Melanie Waters consider why the twenty-first century media landscape is so haunted by the ghosts of these traditional figures that feminism otherwise laid to rest. Why, over fifty years since Betty Friedan's critique, does the feminine mystique exert such a strong spectral presence, and how has it been reimagined to speak to the concerns of a postfeminist audience? To answer these questions, Munford and Waters draw from a rich array of examples from contemporary film, fiction, music, and television, from the shadowy cityscapes of *Homeland* to the haunted houses of *American Horror Story*. Alongside this comprehensive analysis of today's popular culture, they offer a vivid portrait of feminism's social and intellectual history, as well as an innovative application of Jacques Derrida's theories of "hauntology." *Feminism and Popular Culture* thus not only considers how contemporary media is being visited by the ghosts of feminism's past, it raises vital questions

about what this means for feminism's future.

Feminism and Christian Ethics Susan Frank Parsons, 1996-02-29 Feminists are aware of the diversity of thinking within their own tradition, and of the different approaches to moral questions in which that is manifest. This book describes and analyses that diversity by distinguishing three distinct paradigms of moral reasoning to be found within feminism. Using the writings of feminists, the major strengths and weaknesses of each theory are considered, so that creative dialogue between them can be encouraged. Three common themes are drawn out - which are also on the agenda of new developments in philosophical and Christian ethics: the search for an appropriate universalism, the possibility of a redemptive community and the development of a new humanism. Feminists may be encouraged, through this account of their considerable scholarship in ethical thinking, to contribute to these changes with their special concern for the lives and the fulfilment of women.

Feminist Moments Susan Bruce, Katherine Smits, 2015-12-17 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. The challenges presented by feminism to traditional understandings of representation, normative values, power relations and the political are not simply the product of late-20th century thinking. *Feminist Moments*, in examining some of the pivotal texts in

the history of feminist thought, demonstrates that these challenges emerge from a long and varied history of feminist writing. The volume brings together texts from literary and analytical works written by women and men, and from inside and outside the Western tradition, including Mary Wortley Montagu, Anna Wheeler and William Thompson, Nazira Zeineddine, Betty Friedan, Andrea Dworkin and Luisa Valenzuela. The volume is unique in offering close readings of key passages from the selected texts, making it ideal for classroom use; its original essays, all authored by specialists, will also be of interest to more advanced scholars. In juxtaposing and analysing a wide range of texts which despite their significance are rarely discussed together, *Feminist Moments* provides a fascinating historical narrative of feminist thought which will be highly valuable to students and scholars of the history of political thought, political philosophy and gender and literary studies.

The Madwoman Can't Speak Marta Caminero-Santangelo,1998 In this work, the subversive madwoman first appropriated by feminist theorists and critics is re-evaluated. How, the author asks, can such a figure be subversive if she's effectively imprisoned, silent and unseen? Taking issue with a prominent strand of current feminist literary criticism, Caminero-Santangelo identifies a counternarrative in writing by women in the last half of the 20th century, one which rejects madness, even as a symbolic resolution.

Madness and Sexual Politics in the Feminist Novel Barbara Hill Rigney, 1978
A greater part of the feminist movement has considered traditional psychology to be both a product and a defense of the status quo, a patriarchal society. Here, Barbara Hill Rigney explores emerging feminist psychology by applying it to literary works by women who have depicted the relationship between madness and the female condition. The result is a fascinating and illuminating exposition, certain to be welcomed by students and scholars in literature and women's studies, as well as those in sociology and psychology

whose interests include feminism and problems of women and society. Among the works Rigney considers are Charlotte Brontë's *Jane Eyre*, Virginia Woolf's *Mrs. Dalloway*, Doris Lessing's *The Four-Gated City*, and Margaret Atwood's *Surfacing*, all of which depict insanity in relation to sexual politics. These authors portray a patriarchal social system which, in itself, manifests symptoms of collusive madness in the form of war or sexual oppression and is thereby seen as threatening to female psychological survival. Each of Rigney's author subjects sees her protagonist as tragically divided between male society's prescribed roles for women and a sense of an authentic self. Thus emerges a pattern, common to all works, in which the divided self is reflected by the inevitable juxtaposition of the protagonist to a doppelgänger, an insane self, an extension of the protagonist who herself can be regarded as sane only by degree. A return to true sanity is traced through the patterns found in the selected works. Rigney explores the literary metaphor of the return of Demeter or the Amazon mother to restore the alienated female protagonists. In order to begin the return from psychosis, Rigney concludes, they must find the mother within themselves in the form of a feminist consciousness of self-worth.

Gender, Taste, and Material Culture in Britain and North America, 1700-1830 John Styles, Amanda Vickery, 2006 Between 1700 and 1830, men and women in the English-speaking territories framing the Atlantic gained unprecedented access to material things. The British Atlantic was an empire of goods, held together not just by political authority and a common language, but by a shared material culture nourished by constant flows of commodities. Diets expanded to include exotic luxuries such as tea and sugar, the fruits of mercantile and colonial expansion. Homes were furnished with novel goods, like clocks and earthenware teapots, the products of British industrial

ingenuity. This groundbreaking book compares these developments in Britain and North America, bringing together a multi-disciplinary group of scholars to consider basic questions about women, men, and objects in these regions. In asking who did the shopping, how things were used, and why they became the subject of political dispute, the essays show the profound significance of everyday objects in the eighteenth-century Atlantic world.

The Age of Anxiety Andrea Tone, 2008-12-30 Anxious Americans have increasingly pursued peace of mind through pills and prescriptions. In 2006, the National Institute of Mental Health estimated that 40 million adult Americans suffer from an anxiety disorder in any given year: more than double the number thought to have such a disorder in 2001. Anti-anxiety drugs are a billion-dollar business. Yet as recently as 1955, when the first tranquilizer—Miltown—went on the market, pharmaceutical executives worried that there wouldn't be interest in anxiety-relief. At mid-century, talk therapy remained the treatment of choice. But Miltown became a sensation—the first psychotropic blockbuster in United States history. By 1957, Americans had filled 36 million prescriptions. Patients seeking made-to-order tranquility emptied drugstores, forcing pharmacists to post signs reading “more Miltown tomorrow.” The drug's financial success and cultural impact revolutionized perceptions of anxiety and its treatment, inspiring the development of other lifestyle drugs including Valium and Prozac. In *The Age of Anxiety*, Andrea Tone draws on a broad array of original

sources—manufacturers' files, FDA reports, letters, government investigations, and interviews with inventors, physicians, patients, and activists—to provide the first comprehensive account of the rise of America's tranquilizer culture. She transports readers from the bomb shelters of the Cold War to the scientific optimism of the Baby Boomers, to the “just say no” Puritanism of the late 1970s and 1980s. A vibrant history of America's long and turbulent affair with tranquilizers, *The Age of Anxiety* casts new light on what it has meant to seek synthetic solutions to everyday angst.

Then you can use your know-how to decide which materials and methods are best instead of what's the easiest to do. -- Back cover

Fred W. McDarrah: New York Scenes , 2018-09-25 During his 50-year association with the *Village Voice*, Fred W. McDarrah (1926–2007) covered the city's downtown scenes, producing an unmatched and encyclopedic visual record

of people, movements, and events. McDarrah frequented the bars, cafés, and galleries where writers, artists, and musicians gathered, and he was welcome in the apartments and lofts of the city's avant-garde cultural aristocracy. He captured every vital moment, from Jack Kerouac reading poetry, to Bob Dylan hanging out in Sheridan Square, to Andy Warhol filming in the Factory, to the Stonewall Riots. Through his lens, we see the legendary birth of ideas and attitudes that continue to shape the character and allure of New York today.

New York Magazine ,1979-02-12 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

In Good Hands Ellen Mary Easton McLeod,1999 In 1905 two Montreal women, Alice Peck and May Phillips, founded the Canadian Handicrafts Guild. Inspired by British and American women in the arts and crafts movement, and spurred by their thirty-year rivalry with Mary Dignam of the Toronto-based Women's Art Association of Canada, these two created an organization that revived popular interest in traditional handwork done by women, Canadiens, Indigenous people, and new Canadians.
