**The Great Cities in History** John Julius Norwich,2016-08-02 A portrait of world civilization told through the stories of the world's greatest cities from ancient times to the present. Today, for the first time in history, the majority of people in the world live in cities. The implications and challenges associated with this fact are enormous. But how did we get here? From the origins of urbanization in Mesopotamia to the global metropolises of today, great cities have marked the development of human civilization. The Great Cities in History tells their stories, starting with the earliest, from Uruk and Memphis to Jerusalem and Alexandria. Next come the fabulous cities of the first millennium: Damascus and Baghdad, Teotihuacan and Tikal, and Chang'an, capital of Tang Dynasty China. The medieval world saw the rise of powerful cities such as Palermo and Paris in Europe, Benin in Africa, and Angkor in southeast Asia. The last two sections bring us from the early modern world, with Isfahan, Agra, and Amsterdam, to the contemporary city: London and New York, Tokyo and Barcelona, Los Angeles and Sao Paulo. The distinguished contributors, including Jan Morris, Michael D. Coe, Simon Schama, Orlando Figes, Felipe Fernandez-Armesto, Misha Glenny, Susan Toby Evans, and A. N. Wilson, evoke the character of each place—people, art and architecture, government—and explain the reasons for its success.

**Preserving the World's Great Cities** Anthony M. Tung,2001 Both epic and intimate, this is the story of the fight to save the world's architectural and cultural heritage as it is embodied in the extraordinary buildings and urban spaces of the great cities of Asia, the Americas, and Europe. Never before have the complexities and dramas of urban preservation been as keenly documented as inPreserving the World's Great Cities. In researching this important work, Anthony Tung traveled throughout the world to visit remarkable buildings and districts in China, Italy, Greece, the U.S., Japan, and elsewhere. Everywhere he found both the devastating legacy of war, economics, and indifference and the accomplishments of people who have worked and sometimes risked their lives to preserve and renew the most meaningful urban expressions of the human spirit. From Singapore's blind rush to become the most modern city of the East to Warsaw's poignant and heroic effort to resurrect itself from the Nazis' systematic campaign of physical and cultural obliteration, from New York and Rome to Kyoto and Cairo, we see the city as an expression of the best and worst within us. This is essential reading for fans of Jane Jacobs and Witold Rybczynski and everyone who is concerned about urban preservation.

**Solved** David Miller,2024-03-01 If our planet is going to survive the climate crisis, we need to act rapidly. Taking cues from progressive cities around the world, including Los Angeles, New York, Toronto, Oslo, Shenzhen, and Sydney, this book is a summons to every city to make small but significant changes that can drastically reduce our carbon footprint. We cannot wait for national governments to agree on how to reduce greenhouse gas emissions and manage the average temperature rise to within 1.5 degrees. In Solved, David Miller argues that cities are taking action on climate change because they can – and because they must. The updated paperback edition of Solved: How the World's Great Cities Are Fixing the Climate Crisis demonstrates that the initiatives cities have taken to control the climate crisis can make a real difference in reducing global emissions if implemented worldwide. By chronicling the stories of how cities have taken action to meet and exceed emissions targets laid out in the Paris Agreement, Miller empowers readers to fix the climate crisis. As much a “how to” guide for policymakers as a work for concerned citizens, Solved aims to inspire hope through its clear and factual analysis of what can be done – now, today – to mitigate our harmful emissions and pave the way to a 1.5-degree world.

**100 Most Beautiful Cities of the World** Anne Benthues,Hans-Joachim Neubert,2002 In spite of the enormous differences between these 100

towns and cities, they all have one thing in common. Each of them bears the indelible character of its people and their history. It is the combination of magnificent architecture created by former rulers, the temples and church towers together with the narrow alleys of the old city centres, and the colorful life along their grand avenues that imparts the special atmosphere that make these places a magnet for those who admire culture and beauty.

*The Cities Book* Lonely Planet Publications (Firm),2009 Cities represent civilisation and human achievement: they are bubbling microcosms of virtues and vices, vanguards of technology and creative pursuits, incubators of traditions and melting-pots of diversity. More than half the world's population now lives in cities, and for travellers they hold an-endless fascination. Here we present the 200 most vibrant, diverse, hypnotic and chaotic cities in the world, ranked in order as voted for by people who know - Lonely Planet's staff, authors, and readers. The list is as diverse as the people that created it. Of course, there are the usual suspects: Paris, London, New York - but also the unfamiliar, the exotic, and the tiny: Abuja (Nigeria), Nuuk (Greenland), Saint-Denis (Réunion) and Ulaanbataar (Mongolia). Every city has its own personality, in the form of its streets and buildings and in its human architecture. Taking our cue from the buzz on the street, we have captured the flavour of each city through the eyes of the typical citizen: hot conversation topics, urban myths, the best places to eat and drink and to seek out after dark. It's a tempting cocktail for the urban adventurer.

Great Cities of the World W.A. Robson,2013-09-05 The giant city of today is a unique phenomenon. Never before have such acute problems of government, the provision of essential services, planning, social life, and civilized living arisen from uncontrolled urbanization. In the West and in the East, in the more developed and in the less developed countries, in capitalist and communist states, the great metropolis represents a problem of the first importance which challenges the statesman, the official, the town planner, the political scientist, the sociologist and, above all, the intelligent citizen. The editor has here assembled an authoritative series of studies describing the growth, significance, government, politics adn planning of twenty-four great cities of the world. They show how these widely scattered cities faced essentially similar problems. Each study deals with the actual working of one city in the 1950s, how its elective adn executive bodies are organized, the kind of political forces which motivate their activities, the scope and character of the municipal services, how they are finiance. The cities dealt with include Bombay, Amsterdam, Moscow, Montreal, Stockholm, Rome, New York, London, Sydney and Tokyo. This book was first published in 1954.
