**Pilgrim at Tinker Creek** Annie Dillard,2009-10-13 Winner of the Pulitzer Prize “The book is a form of meditation, written with headlong urgency, about seeing. . . . There is an ambition about her book that I like. . . . It is the ambition to feel.” — Eudora Welty, New York Times Book Review Pilgrim at Tinker Creek is the story of a dramatic year in Virginia's Roanoke Valley, where Annie Dillard set out to chronicle incidents of beauty tangled in a rapture with violence. Dillard's personal narrative highlights one year's exploration on foot in the Virginia region through which Tinker Creek runs. In the summer, she stalks muskrats in the creek and contemplates wave mechanics; in the fall, she watches a monarch butterfly migration and dreams of Arctic caribou. She tries to con a coot; she collects pond water and examines it under a microscope. She unties a snake skin, witnesses a flood, and plays King of the Meadow with a field of grasshoppers. The result is an exhilarating tale of nature and its seasons.

**The Yellow Wallpaper** Charlotte Perkins Gilman,2023-08-31 The Yellow Wallpaper by Charlotte Perkins Gilman is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in The New England Magazine. It is regarded as an important early work of American feminist literature for its illustration of the attitudes towards mental and physical health of women in the 19th century. Narrated in the first person, the story is a collection of journal entries written by a woman whose physician husband has rented an old mansion for the summer. Forgoing other rooms in the house, the couple moves into the upstairs nursery. As a form of treatment, the husband forbids the unnamed woman from working or writing and encourages her to eat well and get plenty of air so that she can recuperate from what he calls a temporary nervous depression – a slight hysterical tendency, a common diagnosis in women at the time. Plot summary: The story describes a young woman and her husband. He imposes a rest cure on her when she suffers temporary nervous depression after the birth of their baby. They spend the summer at a colonial mansion, where the narrator is largely confined to an upstairs nursery. The story makes striking use of an unreliable narrator in order to gradually reveal the degree to which her husband has imprisoned her due to her physical and mental condition: she describes torn wallpaper, barred windows, metal rings in the walls, a floor scratched and gouged and splintered, a bed bolted to the floor, and a gate at the top of the stairs, but blames all these on children who must have resided there. The narrator devotes many journal entries to describing the wallpaper in the room – its sickly color, its yellow smell, its bizarre and disturbing pattern like an interminable string of toadstools, budding and sprouting in endless convolutions, its missing patches, and the way it leaves yellow smears on the skin and clothing of anyone who touches it. She describes how the longer one stays in the bedroom, the more the wallpaper appears to mutate, especially in the moonlight. With no stimulus other than the wallpaper, the pattern and designs become increasingly intriguing to

the narrator. She soon begins to see a figure in the design. Eventually, she comes to believe that a woman is creeping on all fours behind the pattern. Believing she must free the woman in the wallpaper, she begins to strip the remaining paper off the wall.

**The Backstory of Wallpaper** Robert M. Kelly, 2013 Wallpaper design has captivated Western consumers for 300 years, but this book looks closer - at wallpaper use. It tells how single-sheet wallpaper developed in Europe, found wide acceptance in England and France, and was successfully transplanted to the North American colonies. By 1750, wallpaper was well-established and poised for phenomenal growth.
