Pam Scheunemann

*The Other End of the Leash* Patricia McConnell, Ph.D.,2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

**Democracy and Education** John Dewey,1916 John Dewey's *Democracy and Education* addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, *Democracy and Education* is regarded as the seminal work on public education by one of the most important scholars of the century.

**Birdwatching in New York City and on Long Island** Deborah Rivel,Kellye Rosenheim,2016-05-03 This easy-to-use guide gives seasonal information for both popular birding sites and those off the beaten path. Precise directions to the best viewing locations within the region's diverse habitats enable birdwatchers to efficiently explore urban and wild birding hotspots. Over 500 species of birds can be seen in New York City's five boroughs and on Long Island, one of the most densely populated and urbanized regions in North America, which also happens to be situated directly on the Atlantic Flyway. In this fragmented environment of scarce resources, birds concentrate on what's available. This means that high numbers of birds are found in small spaces. In fact, Central Park alone attracts over 225 species of birds, which birders from around the world flock to see during spring and fall migration. Beyond Central Park, the five boroughs and Long Island have numerous wildlife refuges of extraordinary scenic beauty where resident and migratory birds inhabit forests, wetlands, grasslands, and beaches. These special places present an opportunity to see a wide array of songbirds, endangered nesting shorebirds, raptors, and an unprecedented number and variety of waterfowl. Including the latest information on the seasonal status and distribution of more than 400 species, with 39 maps and over 50 photographs, this full-color guide features information essential to planning a birding visit. It will become the go-to book for both the region's longtime birders and those exploring the area for the first time.

**Car Goes Far** Michael Garland,2013-01-22 Splash! Splash! Car gets wet and soapy as he goes through the car wash. He's had a big adventure today. His shiny paint got dirtier and dirtier as he drove all over town—first with mud from a construction site, then from exhaust, and finally from a flock of birds. At the end of his big day, a bath is just what this little car needs. Michael Garland's bright and bold art features lots of different vehicles, from diggers to big trucks, making this book just right for young car enthusiasts learning how to read. An I Like to Read® picture book. Guided Reading Level D.

*The Sound Effects Bible* Ric Viers,2014-04 Introduction - What is a sound effect? - The science of sound - The microphone - Microphone models and applications - Microphone accessories - Recorders - Building a field recording package - The ten recording commandments - Sound effects gathering - Building a Foley Stage for a home studio - The art of Foley - Digital audio - Studio equipment - Designing your own studio - The ten sound editing commandments - File naming and metadata - Sound design - The sound effects encyclopedia - The future of sound design - Resources.

**Someone Who Will Love You in All Your Damaged Glory** Raphael Bob-Waksberg,2019-06-11 Written with all the scathing dark humor that is a hallmark of *BoJack Horseman*, Raphael Bob-Waksberg delivers a fabulously off-beat collection of short stories about love—the best and worst thing in the universe. Featuring: • A young engaged couple forced to deal with interfering relatives dictating the appropriate number of ritual goat sacrifices for their wedding. • A pair of lonely commuters who ride the subway in silence, forever, eternally failing to make that longed-for contact. • A struggling employee at a theme park of U.S. presidents who discovers that love can't be genetically modified. And fifteen more tales of humor, romance, whimsy, cultural commentary, and crushing emotional vulnerability.

*When Pigs Fly!* Jane Killion,2007 Do you have an impossible dog? ... You may not know it but there are certain breeds that were developed to work independently. Those breeds, and mixes, include Hounds, Terriers, Northern Breeds, and Livestock Guardian dogs. If you have a Pigs Fly kind of dog you need to work with her independent nature not against it to get good manners and even high level performance. --Amazon.com.

**Hawaii's Birds** Hawaii Audubon Society,1997

**The Second Machine Age: Work, Progress, and Prosperity in a Time of Brilliant Technologies** Erik Brynjolfsson,Andrew McAfee,2014-01-20 A pair of technology experts describe how humans will have to keep pace with machines in order to become prosperous in the future and identify strategies and policies for business and individuals to use to combine digital processing power with human ingenuity.

*Reading Sounds* Sean Zdenek,2015-12-23 The work of writing closed captions for television and DVD is not simply transcribing dialogue, as one might assume at first, but consists largely of making rhetorical choices. For Sean Zdenek, when captioners describe a sound they are interpreting and creating contexts, they are assigning significance, they are creating meaning that doesn't necessarily exist in the soundtrack or the script. And in nine chapters he analyzes the numerous complex rhetorical choices captioners make, from abbreviating dialogue so it will fit on the screen and keep pace with the editing, to whether and how to describe background sounds, accents, or slurred speech, to nonlinguistic forms of sound communication such as sighing, screaming, or laughing, to describing music, captioned silences (as when a continuous noise suddenly stops), and sarcasm, surprise, and other forms of meaning associated with vocal tone. Throughout, he also looks at closed captioning style manuals and draws on interviews with professional captioners and hearing-impaired viewers. Threading through all this is the novel argument that closed captions can be viewed as texts worthy of rhetorical analysis and that this analysis can lead the entertainment industry to better standards and practices for closed captioning, thereby better serve the needs of hearing-impaired viewers. The author also looks ahead to the work yet to be done in bringing better captioning practices to videos on the Internet, where captioning can take on additional functions such as enhancing searchability. While scholarly work has been done on captioning from a legal perspective, from a historical perspective, and from a technical perspective, no one has ever done what Zdenek does here, and the original analytical models he offers are richly interdisciplinary, drawing on work from the fields of technical communication, rhetoric, media studies, and disability studies.

*The Hatha Yoga Pradipika* Svātmārāma,1975

**Taskmaster** Alex Horne,2018-09-06 Build yourself a box and think outside of it. Your time starts now ... In the TV show and on my marriage certificate, my job description is 'Taskmaster's Assistant'. That's what I do and it's an honour. I like Taskmaster a lot. And, of course, I love The Taskmaster. He's mountainous. If you feel in any way the same as me then you should enjoy this paperback version of the official Taskmaster book. There are tasks for you, your friends and your family. There are new tasks, secret things and sneaky tricks. And there is one swear word. So it's almost exactly like being on the show. Good luck. Make good choices. Let's do Him proud. Alex Horne Taskmaster's Assistant

**Deep Dark Fears** Fran Krause,2015-09-29 A devilishly funny collection of comics that explores our most gruesome, hilarious, and bizarre fears—and the dangers lurking around every corner. We all have strange, irrational fears—from seeing ghosts in the bedroom mirror to being sucked into a mall escalator or finding yourself miles below the ocean's surface on the deck of a sunken ship. In *Deep Dark Fears*, animator, illustrator, and cartoonist Fran Krause brings these fears to life in 101 vividly illustrated comics inspired by his wildly popular web comic and based on real fears submitted by online readers. *Deep Dark Fears* reveals a primal part of our humanity and highlighting both our idiosyncrasies and our similarities.

**Goodnight iPad** Ann Droyd,2011-10-27 A parody of the children's classic and a hilarious gift for anyone that finds modern life funny and absurd. In a bright buzzing room, in the glow of the moon-and iPhones and Androids and Blackberries too-it is time to say goodnight... Modern life is abuzz. There are huge LCD WiFi HD TVs and Facebook requests and thumbs tapping texts and new viral clips of cats doing flips. Wouldn't it be nice to say goodnight to all that? Like the rest of us who cannot resist just a few more scrolls and clicks, you may find yourself ready for bed while still clinging to your electronics long after dark. This book, which is made of paper, is a reminder for the child in all of us to power down at the end of the day. This hilarious parody not only pokes loving fun at the bygone quiet of the original classic, but also at our modern plugged-in lives. It will make you laugh, and it will also help you put yourself and your machines to sleep. Don't worry, though. Your gadgets will be waiting for you, fully charged, in the morning.

*Parrots Talk!* Pam Scheunemann,2011 Via rhyming text, an introduction to the habits and characteristics of the parrot.

Blueprint for Revolution Srdja Popovic,Matthew Miller,2015-02-03 An urgent and accessible handbook for peaceful protesters, activists, and community organizers—anyone trying to defend their rights, hold their government accountable, or change the world Blueprint for Revolution will teach you how to • make oppression backfire by playing your opponents’ strongest card against them • identify the “almighty pillars of power” in order to shift the balance of control • dream big, but start small: learn how to pick battles you can win • listen to what people actually care about in order to incorporate their needs into your revolutionary vision • master the art of compromise to bring together even the most disparate groups • recognize your allies and view your enemies as potential partners • use humor to make yourself heard, defuse potentially violent situations, and “laugh your way to victory” Praise for Blueprint for Revolution “The title is no exaggeration. Otpor’s methods . . . have been adopted by democracy movements around the world. The Egyptian opposition used them to topple Hosni Mubarak. In Lebanon, the Serbs helped the Cedar Revolution extricate the country from Syrian control. In Maldives, their methods were the key to overthrowing a dictator who had held power for thirty years. In many other countries, people have used what Canvas teaches to accomplish other political goals, such as fighting corruption or protecting the environment.”—The New York Times “A clear, well-constructed, and easily applicable set of principles for any David facing any Goliath (sans slingshot, of course) . . . By the end of Blueprint, the idea that a punch is no match for a punch line feels like anything but a joke.”—The Boston Globe “An entertaining primer on the theory and practice of peaceful protest.”—The Guardian “With this wonderful book, Srdja Popovic is inspiring ordinary people facing injustice and oppression to use this tool kit to challenge their oppressors and create something much better. When I was growing up, we dreamed that young people could bring down those who misused their power and create a more just and democratic society. For Srdja Popovic, living in Belgrade in 1998, this same dream was potentially a much more dangerous idea. But with an extraordinarily courageous group of students that formed Otpor!, Srdja used imagination, invention, cunning, and lots of humor to create a movement that not only succeeded in toppling the brutal dictator Slobodan Milošević but has become a blueprint for nonviolent revolution around the world. Srdja rules!”—Peter Gabriel “Blueprint for Revolution is not only a spirited guide to changing the world but a breakthrough in the annals of advice for those who seek justice and democracy. It asks (and not heavy-handedly): As long as you want to change the world, why not do it joyfully? It’s not just funny. It’s seriously funny. No joke.”—Todd Gitlin, author of The Sixties and Occupy Nation

**The Social Media Bible** ,2018

The Art of South and Southeast Asia Steven Kossak,Edith Whitney Watts,2001 Presents works of art selected from the South and Southeast Asian and Islamic collection of The Metropolitan Museum of Art, lessons plans, and classroom activities.

**Introduction to Evolutionary Computing** Agoston E. Eiben,J.E. Smith,2013-03-14 The first complete overview of evolutionary computing, the collective name for a range of problem-solving techniques based on principles of biological evolution, such as natural selection and genetic inheritance. The text is aimed directly at lecturers and graduate and undergraduate students. It is also meant for those who wish to apply evolutionary computing to a particular problem or within a given application area. The book contains quick-reference information on the current state-of-the-art in a wide range of related topics, so it is of interest not just to evolutionary computing specialists but to researchers working in other fields.

**With a Little Help** Cory Doctorow,2015-07-16 With a Little Help is my first serious experiment in self-publishing. I've published many novels, short story collections, books of essays and so on with publishers, and it's all been very good and satisfying and educational and so on, but it seems like it's time to try something new. With a Little Help consists of 12 stories, all reprints except for Epoch (commissioned by Mark Shuttleworth).
