**THE GOLF PRO HAS Heart: Secrets of Couples Still in Love After 50 Years & A Private Look Behind the Curtain of The Professional Golf Tour** John A. Gehrisch,2023-11-01 Readers have referred to this book as: "The most important relationship book ever written!" Naming only a few, this book identifies secrets on: How to identify a perfect mate How to improve a struggling relationship How to potentially prevent a relationship from collapsing How to improve and keep exciting an existing relationship How to build a more solid foundation for faithful happiness The formula for Happy Loving Long-Term Relationships Have you ever wondered how some unique couples could be married for over 50 years and still be so much in love? What is the secret? Tour Professional John A. Gehrisch, inspired by his parent's half-century relationship, turned his personal challenges into a success formula by studying such couples. The process exposed 18 common traits in all those relationships. He shares those findings and a lot more within. As children, we learn that trying to put a square object in a round hole of the same size will never work. A piece of wrong shape and description just will not fit together, even if we try to force it. When we pause, and analyze what works, what does not work, and why, we begin to assemble the piece in perfect harmony, Anticipating that the same can be applied to human relationships, John sets out to track down and understand the secrets formula that only a few couples experience n life and reveals it within. Having played tour golf, John includes a look behind the curtain of professional golf including stories with tour champions like Jack Nicklaus, Arnold Palmer, Billy Casper, Butch Baird, Gary Player, Bill Johnston, Shelley Hamlin, Anne-Marie Palli, and others making it an interesting read for golfers and non-golfers alike.

After the Beautiful Robert B. Pippin,2013-12-23 In his Berlin lectures on fine art, Hegel argued that art involves a unique form of aesthetic intelligibility—the expression of a distinct collective self-understanding that develops through historical time. Hegel’s approach to art has been influential in a number of different contexts, but in a twist of historical irony Hegel would die just before the most radical artistic revolution in history: modernism. In *After the Beautiful*, Robert B. Pippin, looking at modernist paintings by artists such as Édouard Manet and Paul Cézanne through Hegel’s lens, does what Hegel never had the chance to do. While Hegel could never engage modernist painting, he did have an understanding of modernity, and in it, art—he famously asserted—was “a thing of the past,” no longer an important vehicle of self-understanding and no longer an indispensable expression of human meaning. Pippin offers a sophisticated exploration of Hegel’s position and its implications. He also shows that had Hegel known how the social institutions of his day would ultimately fail to achieve his own version of genuine equality, a mutuality of recognition, he would have had to explore a different, new role for art in modernity. After laying this groundwork, Pippin goes on to illuminate the dimensions of Hegel’s aesthetic approach in the path-breaking works of Manet, the “grandfather of modernism,” drawing on art historians T. J. Clark and Michael Fried to do so. He concludes with a look at Cézanne, the “father of modernism,” this time as his works illuminate the relationship between Hegel and the philosopher who would challenge Hegel’s account of both modernity and art—Martin Heidegger. Elegantly inter-weaving philosophy and art history, *After the Beautiful* is a stunning reassessment of the modernist project. It gets at the core of the significance of modernism itself and what it means in general for art to have a history. Ultimately, it is a testament, via Hegel, to the distinctive philosophical achievements of modernist art in the unsettled, tumultuous era we have inherited.

The Subject of Modernism Tony E. Jackson,1994 Like other poststructuralist theories, Lacanian theory has long been accused of being ahistorical. In *The Subject of Modernism*, Tony E. Jackson combines a uniquely graspable explanation of the Lacanian theory of the self with a series of detailed psychoanalytic interpretations of actual texts to offer a new kind of literary history. After exposing the seldom-discussed history of the self found in the work of Lacan, Jackson shows that the basic plot structure of realistic novels reveals an unconscious desire to preserve a certain kind of historically institutionalized self, but that the desire of realism to write the most real representation of reality steadily makes the self-preservation more difficult to sustain. Thus in following through on its own desire to prove the certainty of its being, realism eventually discovers its own impossibility. Jackson charts the resistances to and misrecognitions of this discovery as they are revealed in the changes of narrative form from Eliot's last, most ambitious novel, *Daniel Deronda*, through Conrad's most modernist novels, *Lord Jim* and *Heart of Darkness*, to Woolf's *Mrs. Dalloway* and *The Waves*. He ends with an appended consideration of the Cyclops and Nausicaa chapters from Joyce's *Ulysses*. While other critics have argued that realism structures a certain self and modernism undoes that self, they have not attempted a historical explanation of why this change should have occurred. Jackson reads the emergence of modernism as a kind of generic self-analysis of realism, analogous to the self-analysis performed by Freud: when realism discovers the significance of its own desire to write the most real representation of reality, it has, in that moment, become modernism. It has grasped its own nature and so fully becomes itself, for the first time, as modernism. *The Subject of Modernism* will appeal most obviously to readers of Victorian and modernist fiction, but it will also draw those interested in the history of the novel and in the idea of literary history in general. Finally, because of the way Jackson brings together fiction, psychoanalysis, and history, anyone interested in the history of aesthetics will find here new ways to examine particular art forms.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. The romantics then presented them with a new one, a new Idea of a university. In Germany, Johann Gottlieb Fichte and others stressed that universities must teach more effectively; in England, Coleridge and Wordsworth attached to the German Idea a desire to keep the universities part of England's national church.
