101 Ways to Die R.J. Blain,2023-06-02 Officer McMarin of the NYPD is in for the ride of her life when the Chief Quinns storm into her station, promote her to the rank of detective, and relocate her to Manhattan. Saddled with the dubious honor of being Chief Bailey Quinn's primary rider is only the beginning of her woes. Her first case delves into the dark waters of the many ways in which a person can die. At the heart of the mystery is one Alec Mortan, a forensic accountant with a knack for being at the wrong place at the wrong time. Witnessing so much death is hard on a soul, and she can't help but admire his tenacity and desire to help her uncover the truth. When the forces of the heavens and the many hells involve themselves in the case, McMarin's beliefs and skills are put to the test. If she's not careful, she'll lose her witness to fate right along with her chance for a happily ever after.

The Scholar in His Study Curator of Renaissance Collections Department of Medieval and Modern Europe Dora Thornton,Dora Thornton,1998-01-01 In fifteenth- and sixteenth-century Italy, many leading citizens constructed and furnished distinctive studies for themselves. The study was an individually designed room for private and social use - as an office, library, a family archive or treasury, as the nucleus of an art collection, or as a space for contemplation. This book is an account of the Renaissance Italian study and its contents. Illustrated with depictions of studies and the precious and unusual objects they contained, the book examines the significance of the study to its owner and visitors, its structure and location, and the prized possessions that might fill such a special room.

The Routledge Companion to Vsevolod Meyerhold Jonathan Pitches,Stefan Aquilina,2022-11-09 The Routledge Companion to Vsevolod Meyerhold brings together a wealth of scholarship on one of the foremost innovators in European theatre. It presents a detailed picture of the Russian director's work from when it first emerged on the modern stage to its multifarious present-day manifestations. By combining an historical focus with the latest contemporary research from an international range of perspectives and authors, this collection marks an important moment in Meyerhold studies as well as offering a new assessment of his relation to today's theatre-making. Its dynamic blend of research is presented in five sections: Histories enlarges on more conventional subjects like the grotesque and Biomechanics, to overlooked topics such as Meyerhold's 'failed' projects and his work in film; Collaborations and Connections extends understandings of Meyerhold's well-known collaborative capacities to consider new cultural influences and lesser known working relationships; Sources engages with hitherto untapped material in Meyerhold's oeuvre by reproducing and contextualising previously untranslated primary sources on his work; Practitioner Voices offer lively, on the ground, testimony of the contemporary impact of Meyerhold's practice; Meyerhold in New Contexts maps the routes of his practice across continents and examines ways in which his work is being applied in a number of contemporary scenarios, such as motion capture, computer-based 3D visualisations, and the 'new normal' of digital pedagogy. This is a key resource for students and scholars of European Theatre, acting theory, and actor training, as well as for those more broadly interested in the socio-political impact of theatre.

A Genealogy of the Gentleman Mary Beth Harris,2024-03-15 A Genealogy of the Gentleman argues that eighteenth-century women writers made key interventions in modern ideals of masculinity and authorship through their narrative constructions of the gentleman. It challenges two latent critical assumptions: first, that the gentleman's masculinity is normative, private, and therefore oppositional to concepts of performance; and second, that women writers, from their disadvantaged position within a patriarchal society, had no real means of influencing dominant structures of masculinity. By placing writers such as Mary Davys, Eliza Haywood, Charlotte Lennox, Elizabeth Inchbald, and Mary Robinson in dialogue with canonical representatives of the gentleman author—Joseph Addison and Richard Steele, David Hume, Samuel Johnson, and Samuel Richardson—Mary Beth Harris shows how these women carved out a space for their literary authority not by overtly opposing their male critics and society's patriarchal structure, but by rewriting the persona of the gentleman as a figure whose very desirability and appeal were dependent on women's influence. Ultimately, this project considers the import of these women writers' legacy, both progressive and conservative, on hegemonic standards of masculinity that persist to this day.
