Amanda Brooks

*Hal Higdon's Half Marathon Training* Higdon, Hal, 2016-03-01 Hal Higdon's Half Marathon Training offers prescriptive programming for all levels of runners. Not only will it help you learn how to get started with your training, but it will show you where to focus your attention, when to progress, and how to keep it simple.

**Runner's World Run Less Run Faster** Bill Pierce, Scott Murr, 2021-01-19 Finally, runners at all levels can improve their race times while training less, with the revolutionary Furman Institute of Running and Scientific Training (FIRST) program. Hailed by the Wall Street Journal and featured twice in six months in cover stories in Runner's World magazine, FIRST's unique training philosophy makes running easier and more accessible, limits overtraining and burnout, and substantially cuts the risk of injury, while producing faster race times. The key feature is the 3 plus 2 program, which each week consists of: -3 quality runs, including track repeats, the tempo run, and the long run, which are designed to work together to improve endurance, lactate-threshold running pace, and leg speed -2 aerobic cross-training workouts, such as swimming, rowing, or pedaling a stationary bike, which are designed to improve endurance while helping to avoid burnout With detailed training plans for 5K, 10K, half marathon, and marathon, plus tips for goal-setting, rest, recovery, injury rehab and prevention, strength training, and nutrition, this program will change the way runners think about and train for competitive races. Amby Burfoot, Runner's World executive editor and Boston Marathon winner, calls the FIRST training program the most detailed, well-organized, and scientific training program for runners that I have ever seen.

**80/20 Triathlon** Matt Fitzgerald, David Warden, 2018-09-18 A breakthrough program for triathletes -- beginner, intermediate, and advanced -- showing how to balance training intensity to maximize performance -- from a fitness expert and elite coach. Cutting-edge research has proven that triathletes and other endurance athletes experience their greatest performance when they do 80 percent of their training at low intensity and the remaining 20 percent at moderate to high intensity. But the vast majority of recreational triathletes are caught in the so-called moderate-intensity rut, spending almost half of their time training too hard--harder than the pros. Training harder isn't smarter; it actually results in low-grade chronic fatigue that prevents recreational athletes from getting the best results. In 80/20 Triathlon, Matt Fitzgerald and David Warden lay out the real-world and scientific evidence, offering concrete tips and strategies, along with complete training plans for every distance-- Sprint, Olympic, Half-Ironman, and Ironman--to help athletes implement the 80/20 rule of intensity balance. Benefits include reduced fatigue and injury risk, improved fitness, increased motivation, and better race results.

**Hansons First Marathon** Luke Humphrey, Keith Hanson, Kevin Hanson, 2018-10-12 The results have been proven at every level, from the beginner to the elite, the Hanson's training system works. - Desiree Davila, Olympic marathoner With the right training, ANYONE can finish a marathon! Hansons First Marathon, from one of America's most successful marathon training groups, offers a smart, friendly guide to preparing for your first marathon. With their proven method, the coaches of the Hansons-Brooks Distance Project will show you how to break down the 26.2 miles into achievable daily workouts. By race day, you'll feel strong and confident of a race experience

you'll be proud of. The Hansons-Brooks Distance Project has an amazing track record of turning normal runners into marathoners through their acclaimed Hansons Marathon Method. Now they have made the marathon not just something to check off your bucket list, but also an enjoyable, inspiring, and life-changing experience. Hansons First Marathon is for anyone who has decided to step up to the marathon. Whether you're a totally new runner who has never run a race, a recreational runner who enjoys occasional races, or even a competitive runner who is ready to go all the way—you'll find the right marathon training schedule for you in Hansons First Marathon. Author and coach Luke Humphrey starts you off on the right foot with a simple survey about your running experience, race goals, and your natural strengths and weaknesses. Then he guides you to the right plan to prepare you for the miles ahead. Hansons First Marathon covers everything you need to know: Finding your foot type and a good shoe for marathon training The types of workouts and how (and why) to do them Choosing your race wisely Training around travel, illness, and navigating injuries How to stretch and strength train for marathon Ways to recover from daily runs and after your race Science-based nutrition and hydration guidelines for workouts and race day What to do differently during the crucial final 6 weeks before your race How to get to the start line feeling confident, stress-free, and ready Setting an ideal marathon race strategy that puts you in control Marathons are an exciting, rewarding challenge for runners of all abilities, but how you get to the start line matters as much as how you finish. Choose Hansons First Marathon to start your marathon adventure and you'll set yourself up for success.

Hansons Marathon Method Humphrey Luke, 2012-11-27 In Hansons Marathon Method, the coaches of the Hansons-Brooks Distance Project reveal the methods they've used to turn their runners into race winners, national champions, and Olympians. Hansons Marathon Method offers a radical overhaul of marathon training that promises to turn any runner into a true marathoner and help experienced marathoners set new personal bests. Hansons Marathon Method does away with mega-long runs and high-mileage weekends--two outdated traditions that make most runners miserable. Instead, runners using the Hansons method will gradually build up to the moderate-high mileage required for marathon success, spreading those miles more sensibly throughout the week. Running easy days mixed with precisely paced speed, strength, and tempo workouts, runners will steel their bodies and minds to run the hardest miles of the marathon. Both Beginner and Advanced training programs feature the unique Hansons 16-mile long run which, as part of the Hansons program, is ideal for preparing the body for the marathon. Humphrey explains how runners should set their goal race pace and shows how to customize the Hansons method to their own needs, like adding extra racing, running more miles, and handling training interruptions. Detailed nutrition and hydration chapters help runners pinpoint their personal energy and hydration needs so they know precisely how much to eat and drink during workouts, race week, race day, and for recovery. The Hansons approach to pacing and nutrition means marathoners will never hit the wall. Hansons Marathon Method lays out the smartest marathon training program available from one of the most accomplished running groups in the nation. Using this innovative approach, runners will mold real marathon muscles, train their body to never hit the wall, and prepare to run their fastest marathon.

*Running the Dream* Matt Fitzgerald, 2020-05-05 The bestselling author of 80/20 Running and How Bad Do You Want It?

reveals his inspiring and surprising journey to see just how fast he can go. Matt Fitzgerald has been running (and writing about running) for most of his adult life. But, like many passionate amateur runners, he never felt he was quite fulfilling his potential. If he follows the training, nutrition, and lifestyle of an elite runner, just how fast could he go? In his mid-forties, Matt at last has the freedom to do nothing but train, if only for the span of one summer. The time is now. He convinces the coach of Northern Arizona Elite, one of the country's premier professional running teams, to let him train with a roster of national champions and Olympic hopefuls in the running mecca of Flagstaff, Arizona, leading in to the Chicago Marathon. The results completely redefined Matt's notion of what is possible, not only for himself but for any runner. Filled with a vibrant cast of characters, rigorous and quad-torcing training, and a large dose of self-deprecating humor, Matt's gripping account of his "fake pro runner" experience allows us to partake in the dream of having the chance to go all the way. Yet for the gifted young runners Matt trains with, it's not a dream but concrete reality, and their individual stories enrich this inspiring narrative. Running the Dream pulls us into the rarified world of professional running in a way we can all relate to, regardless of speed, and to take away pieces of one man's amazing journey to try to achieve our own potential.

*Running Your First Marathon* Andrew Kastor, 2018-01-09 "Andrew Kastor has taken the tried-and-true principles that all us pros follow and made them available and applicable for everyone. Just as Andrew has helped me on my journey, he is sure to help you on yours."—Ryan Hall, US Olympic Marathoner, holder of the US record in the half marathon, and marathon training expert As a marathon training coach for world-class runners and Olympic medalists, Andrew Kastor knows what it takes to get to the finish line. Whether you are planning to run a full or half marathon, Coach Kastor's marathon training program conditions you to set achievable goals, get in shape, and stay motivated. With an easy-to-follow 20-week marathon training schedule for building strength and endurance, plus expert advice from record-holding runners on what to expect, *Running Your First Marathon* is the only coaching you'll need to go the distance. *Running Your First Marathon* lays out a goal-oriented marathon training program with: A 20-Week Marathon Training Program—detailed day-by-day marathon training schedules and space to track your progress Marathon Training 101—advice and tips from world-class marathoners on marathon training, fueling your body, avoiding injury, and race-day preparation Motivational Marathon Training Boosts—from Coach Kastor and other famous runners to help you stay on track during marathon training *Running Your First Marathon* will not only inspire you but also help train your mind and body to unlock hidden potential.—Shalane Flanagan, Olympic Silver Medalist, NYC Marathon champion, American record holder, and marathon training pro

Top 20, Best Running Training Plans Rachid BOUKHRISS, 2020-06-29 In this book, I will show you all the secrets of the bests top 20 incredible plans of running training methods. That you can learn and practice easily, and to make you able to release your target in marathon (from 4h00 to 3h00), for half marathon (from 2h00 to 1h20), for 10k (from 1h00 to 35'), and for the 5k (from 35' to 17'30'') step by step.

*Runner's World Run Less Run Faster* Bill Pierce, Scott Murr, 2021-01-19 The groundbreaking plan that helps runners

of all levels to improve their race times while actually training less—now fully revised and updated for today's runners. In today's busy, fast-paced world, all runners have the same objective: to run the best they can with the limited amount of time at their disposal. Bill Pierce and Scott Murr made that goal possible with their revolutionary FIRST (Furman Institute of Running and Scientific Training) training program. FIRST's unique training philosophy makes running easier and more accessible, limits overtraining and burnout, and substantially cuts the risk of injury while producing faster race times. The key feature of the detailed training plans for 5k, 10k, half-marathon, and marathon is the 3PLUS2 program, which consists of: • 3 quality runs, including track repeats, the tempo run, and the long run, which are designed to improve endurance, lactate-threshold running pace, and leg speed • 2 aerobic cross-training workouts, such as swimming, rowing, or pedaling a stationary bike, which are designed to improve endurance while helping to avoid burnout. With tips for goal-setting, recovery, injury rehab and prevention, strength training, and nutrition, *Run Less, Run Faster* has changed the way runners think about and train for competitive races. This revised third edition includes a new preface, training plans tailored to the new qualifying times for the Boston Marathon, new exercise photos, charts that will help runners adjust training practices to their elevation and climate, and updated nutritional recommendations.

**The Runner's World Big Book of Marathon and Half-Marathon Training** Jennifer Van Allen, Bart Yasso, Amby Burfoot, Pamela Nisevich Bede, Editors of Runner's World Magazine, 2012-06-05 The first dedicated book on marathon and half marathon training from the renowned experts at Runner's World. *Runner's World Big Book of Marathon and Half-Marathon Training* gives readers the core essentials of marathon training, nutrition, injury prevention, and more. The editors of Runner's World know marathon training better than anyone on the planet. They have spent the last few years inviting readers to share the long, sweaty journey to the starting line, putting themselves on call to personally answer readers' questions 24/7. This book includes testimonials from real runners, more than 25 training plans for every level and ability, workouts, a runner's dictionary, and sample meal plans. *Runner's World Big Book of Marathon and Half-Marathon Training* is a powerful and winning resource—the ultimate tool kit for anyone who wants to get from the starting line to the finish line.

**Faster Road Racing** Pete Pfitzinger, Philip Latter, 2014-11-24 Renowned running authority, coach, and best-selling author Pete Pfitzinger teams with Philip Latter, senior writer for *Running Times*, in this must-have training guide for the most popular race distances, including the 5K, 10K, and half marathon. *Faster Road Racing: 5K to Half Marathon* presents easy-to-follow programs proven to give you an edge in your next race. You'll discover detailed plans for race-specific distances as well as expert advice on balancing training and recovery, cross-training, nutrition, tapering, and training over age 40. And for serious runners who compete in numerous races throughout the year, Pfitzinger's multi-race, multi-distance training plans are invaluable. *Faster Road Racing* is your all-inclusive resource on running your fastest at distances of 5K, 8K to 10K, 15K to 10 miles, and the half marathon.

**Advanced Marathon** Pete Pfitzinger, Scott Douglas, 2008-12-19 Shave minutes off your time using the latest in science-based training for serious runners. *Advanced Marathon* has all the information you need to train

smarter, remain injury free, and arrive on the start line ready to run the marathon of your life. Including marathon-pace runs and tempo runs, Advanced Marathonning provides only the most effective methods of training. You'll learn how to complement your running workouts with strength, core, flexibility, and form training; implement cutting-edge nutrition and hydration strategies and recovery techniques; and taper properly to reach peak performance. With easy-to-understand day-by-day training schedules for 18- and 12-week preparation for weekly distances of 55, 55 to 70, 70 to 85, and 85-plus miles, Advanced Marathonning is simply the most comprehensive and efficient approach to marathonning. If you're ready to achieve your personal best, this book is for you.

**Smart Marathon Training** Jeff Horowitz, 2011-10-01 Old-school marathon training plans ask runners to crank out 70 to 100 miles a week. It's no wonder those who make it to the start line are running ragged. Smart Marathon Training maps out a healthier, more economical approach to training that emphasizes quality over quantity. With more than 75 detailed exercises plus six easy-to-follow training plans for half and full marathons, Smart Marathon Training will get you to the starting line feeling refreshed and ready to run your best race yet. This innovative program eliminates junk miles, paring down training to three essential runs per week and adding a dynamic strength and cross-training program to build overall fitness. Runners will train for their best performance in less time and avoid the injuries, overtraining, and burnout that come from running too much. Smart Marathon Training builds up a runner's body to resist injury. Runners gain the strength they need to run long using functional exercises that target the hips, glutes, and quads. Running is a full-body sport, so this training program also builds a strong core and upper body to avoid injuries that begin above the waist. No one fakes a marathon or half-marathon—everyone has to do the work. But Smart Marathon Training replaces long, grinding miles with low-impact cross-training. Horowitz outlines a cycling plan to complement run workouts, boosting base fitness while saving runners' bodies for their best runs.

**5K and 10K Training** Brian Clarke, 2008-11-14 Make your workouts count with the breakthrough system that synchronizes your energy levels with your training effort. Instead of fighting your body to finish a workout just because it's written on the calendar, choose the most effective workout from 5K and 10K Training based on your body's capacity to perform at any given time. Effort-based training maximizes training adaptation by matching the goal of each workout with its optimal training level: hard when energy is high and recovery is adequate, and easy when energy is low and you're under physical stress. Effort-based training also gives you the most control over the training process, allowing you to stay injury free while actually increasing the energy you have available for workouts. Sample programs contain a variety of schedules and detailed workouts for developing five race-specific abilities. Run stronger and faster with more energy by using the proven system in 5K and 10K Training. With customizable programs to choose from and accompanying training logs you can use to record and evaluate your progress, this unique system is the fastest way to reach your training goals.

**Run to the Finish** Amanda Brooks, 2020-03-03 Inspiration and practical tips for runners who prioritize enjoyment over pace and embrace their place as an average runner In her first book, popular runner blogger Amanda Brooks

lays out the path to finding greater fulfillment in running for those who consider themselves middle of the pack runners -- they're not trying to win Boston (or even qualify for Boston); they just want to get strong and stay injury-free so they can continue to enjoy running. *Run to the Finish* is not your typical running book. While it is filled with useful strategic training advice throughout, at its core, it is about embracing your place in the middle of the pack with humor and learning to love the run you've got without comparing yourself to other runners. Mixing practical advice like understanding the discomfort vs. pain, the mental side of running, and movements to treat the most common injuries with more playful elements such as Favorite hilarious marathon signs and Weird Thoughts We all Have at the Start Line, Brooks is the down-to-earth, inspiring guide for everyone who wants to be happier with their run.

*The Science of the Marathon and the Art of Variable Pace Running* Johnathan Edwards, Veronique Billat, 2020-09-11 The Science of the Marathon and the Art of Variable Pace Running encourages you to rediscover running by gradually slowing down, running at your own pace, and learning to accelerate. This book is about Veronique Billat's 30 years of research, life studies, and practical experience. This research takes place in real life and extreme racing situations; it does not take place on treadmills, rather in marathon races and the high mountains. It's about adapting new technologies to the needs of training and understanding the possibilities for the improvement of human energy. The key to long term success without injury or overtraining is to train with quality and not quantity. It is no longer necessary to train by running long distances in preparation for specific types of running races. Performance is not just about a result, but rather a road to true happiness. We invite you to discover this new way of running as it is a realistic minimalist-based training using your running mind-body feelings sensations and your lifestyle. The practice of marathon running is, above all, a serious endeavor for anyone 10 to 100 years old, that will let you dream immense possibilities. Reviews I thought I knew everything I needed to know about marathon pacing before I read *The Science of the Marathon*. Whether your goal is to complete a marathon with a smile on your face or set a new personal best. Dr. Billat and Edwards fascinating and persuasive book will help you prepare with greater purpose and race with more confidence.--Matt Fitzgerald, author of *80/20 Running*, *Brain Training For Runners*, *Life is a Marathon*, and many others. This amazing book covering 30 years of exercise science and human experience from Dr. Billat is designed for the coach, scientist, or running enthusiast who desires to understand the physiology and variability of individual runners. I learned some new and interesting

things and the book reaffirms that doing accelerations and varying the pace spontaneously on runs is a good thing. I have never used GPS-watch and run by feel, so it is nice to hear that is not crazy. It's refreshing to read about optimizing fat metabolism as this is the evolutionary fuel of the human. At age 53, this book keeps me honest to do my strength training and sprints every day. Dr. Mark Cucuzzella, Professor of Family Medicine, West Virginia University School of Medicine, author of *Run For Your Life* 2008 Drs Billat and Edwards have put together a book that combines the best of sports science and in the field research. It's refreshing to see a book on running that connects the dots, delves deep into the science, but still bases its recommendations on how we should run as nature intended. Barry Murray M.Sci, Faculty at Munster Technological University, CEO of Optimum Nutrition For Sport, Irish National endurance runner Veronique Billat is one of the most innovative and important researchers currently active in determining the science of optimum training. I have found her work to be useful for boosting the performances of runners not only in the marathon, but all the way down to the 800-any distance at which aerobic capability matters. My runners swear by it. Richard A. Lovett, Coach, Team Red Lizard, Portland Oregon and Co-author of Alberto Salazar's *Guide to Road Racing* Drs. Billat and Edwards did an excellent job writing this book. Dr. Edwards has been a huge help getting Brenda back to top running form. You don't have to be an elite runner to train like one. Brenda has benefited from the 30-30 workouts described in the book. I would recommend this amazing book to anyone looking to take their fitness to the next level. Carlos Handler, Coach, Brenda Martinez USA Olympic Track & Field Runner

*The Cool Impossible* Eric Orton, 2014-05-06 Featured in the book *Born to Run*, running coach Eric Orton offers a guide for every runner... Natural running is more than barefoot running. It's about the joy of running that we were all born with and can reawaken. With a program focused on proper form, strength development, and cardiovascular training, Orton will help beginners, competitors, and enduring veterans reach "the cool impossible"—the belief that any achievement, athletic or otherwise, is within our reach. Inside you'll find: \* Foot strength exercises for runners to catapult performance, combat injuries, and transform technique \* A total-body-strength program designed for runners \* Step-by-step run-form coaching for performance and lifelong healthy running \* A training program for building endurance, strength, and speed \* No-nonsense nutrition for runners \* Visualization and mind-training tactics to run and live the Cool Impossible \* And much more... **ATHLETICISM IS AWARENESS**—awareness of form and technique, awareness of our effort level, and, most important, awareness of what we think. And with that awareness comes the endless potential for mastery and achievement beyond anything you thought possible. **INCLUDES PHOTOS**

The Run Walk Run® Method Jeff Galloway, 2016-05-23 Jeff's quest for the injury-free marathon training program led him to develop group training programs in 1978, and to author *Runner's World* articles which have been used by hundreds of thousands of runners of all abilities. His training schedules have inspired the second wave of marathoners who follow the Galloway RUN-WALK-RUN™, low mileage, three-day suggestions to an over 98% success rate. Jeff has worked with over 200,000 average people in training for specific goals. Jeff is an inspirational speaker

to over 200 running and fitness sessions each year. His innovative ideas have opened up the possibility of running and completing a marathon to almost everyone. Philosophically, Jeff believes that we were all designed to run and walk, and he keeps finding ways to bring more people into the positive world of exercise.
