Barcodes for Mobile Devices Hiroko Kato,Keng T. Tan,Douglas Chai,2010-04-08 From inventory management in stores to automotive part tracking in assembly plants, barcodes are one of the most prevalent automatic identification and data capture technologies. This book provides a complete introduction to barcodes for mobile devices, presenting the most relevant and up-to-date information previously unavailable elsewhere or difficult to obtain. The focus throughout is on recent developments and two-dimensional (2D) barcodes, including the research and development steps towards colour barcodes for mobile devices, helping readers to develop their own barcodes. The authors also provide design details for their own novel colour 2D barcode: the Mobile MultiColour Composite (MMCC) barcode, plus coverage of RFID technology and one-dimensional barcodes. This book is ideal for professional developers of barcodes for mobile devices who need the latest technical details and information on how to develop barcodes. It is also a useful reference for graduate students researching the field of barcode technology and mobile computing.

Art of Sharing Mary Janigan,2020-07-23 In 1957 after a century of scathing debates and threats of provincial separation Ottawa finally tackled the dangerous fiscal inequalities among its richer and poorer provinces. Equalization grants allowed the poorer provinces to provide relatively equal services for relatively equal levels of taxation. The Art of Sharing tells the dramatic history of Canada's efforts to save itself. The introduction of federal equalization grants was controversial and wealthier provinces such as Alberta - wanting to keep more of their taxpayers' money for their own governments - continue to attack them today. Mary Janigan argues that the elusive ideal of fiscal equity in spite of dissent from richer provinces has helped preserve Canada as a united nation. Janigan goes back to Confederation to trace the escalating tensions among the provinces across decades as voters demanded more services to survive in a changing world. She also uncovers the continuing contacts between Canada and Australia as both dominions struggled to placate disgruntled member states and provinces that blamed the very act of federation for their woes. By the mid-twentieth century trapped between the demands of social activists and Quebec's insistence on its right to run its own social programs Ottawa adopted non-conditional grants in compromise. The history of equalization in Canada has never been fully explored. Introducing the idealistic Canadians who fought for equity along with their radically different proposals to achieve it The Art of Sharing makes the case that a willingness to share financial resources is the real tie that has bound the federation together into the twenty-first century.
