*Information Needs of Communities* Steven Waldman, 2011-09 In 2009, a bipartisan Knight Commission found that while the broadband age is enabling an info. and commun. renaissance, local communities in particular are being unevenly served with critical info. about local issues. Soon after the Knight Commission delivered its findings, the FCC initiated a working group to identify crosscurrent and trend, and make recommendations on how the info. needs of communities can be met in a broadband world. This report by the FCC Working Group on the Info. Needs of Communities addresses the rapidly changing media landscape in a broadband age. Contents: Media Landscape; The Policy and Regulatory Landscape; Recommendations. Charts and tables. This is a print on demand report.

**The Trouble With Testosterone** Robert M. Sapolsky, 2012-10-16 Finalist for the Los Angeles Times Book Prize From the man who Oliver Sacks hailed as "one of the best scientist/writers of our time," a collection of sharply observed, uproariously funny essays on the biology of human culture and behavior. In the tradition of Stephen Jay Gould and Oliver Sacks, Robert Sapolsky offers a

sparkling and erudite collection of essays about science, the world, and our relation to both. "The Trouble with Testosterone" explores the influence of that notorious hormone on male aggression. "Curious George's Pharmacy" reexamines recent exciting claims that wild primates know how to medicate themselves with forest plants. "Junk Food Monkeys" relates the adventures of a troop of baboons who stumble upon a tourist garbage dump. And "Circling the Blanket for God" examines the neurobiological roots underlying religious belief. Drawing on his career as an evolutionary biologist and neurobiologist, Robert Sapolsky writes about the natural world vividly and insightfully. With candor, humor, and rich observations, these essays marry cutting-edge science with humanity, illuminating the interconnectedness of the world's inhabitants with skill and flair.

The Physical Oceanography of Sea Straits L.J. Pratt,2012-12-06 Suppose one were given the task of mapping the general circulation in an unfamiliar ocean. The ocean, like our own, is subdivided into basins and marginal seas interconnected by sea straits. Assuming a limited budget for this undertaking, one would do well to choose the straits as observational starting points. To begin with, the currents flowing from one basin to the next, over possibly wide and time-varying paths, are confined to narrow and stable routes within the straits. Mass, heat and chemical budgets for individual basins can be formulated in terms of the fluxes measured across

the straits using a relatively small number of instruments. The confinement of the flow by a strait can also give rise to profound dynamical consequences including choking or hydraulic control, a process similar to that by which a dam regulates the flow from a reservoir. The funneling geometry can lead to enhanced tidal modulation and increased velocities, giving rise to local instabilities, mixing, internal bores, jumps, and other striking hydraulic and fine scale phenomena. In short, sea straits represent choke points which are observationally and dynamically strategic and which contain a full range of fascinating physical processes.

*The Indigenous World 2015* Diana Vinding, 2015 2015 will be a year of important negotiations and agreements on climate change and sustainable development--two topics of great importance for indigenous peoples and to which indigenous peoples have a lot to contribute. Seven years after the adoption of the UN Declaration on the Rights of Indigenous Peoples and in light of the outcomes of the 2014 World Conference on Indigenous Peoples, this edition of *The Indigenous World* looks at the most significant developments and/or setbacks for indigenous peoples' rights at the national and international level in the past year and at possible ways forward. In over seventy articles and country reports, *The Indigenous World 2015* provides a comprehensive update on the current situation of indigenous peoples and their human rights and reports on the most important developments in international processes of relevance to indigenous peoples during 2014. It is

an indispensable tool about issues and developments that have impacted indigenous peoples worldwide. Indigenous and non-indigenous scholars or activists write the articles contained in The Indigenous World 2015. It is edited and produced by the International Work Group for Indigenous Affairs.

Volcanic Ash Soils S. Shoji,M. Nanzyo,R.A. Dahlgren,1994-01-06 Volcanic eruptions are generally viewed as agents of destruction, yet they provide the parent materials from which some of the most productive soils in the world are formed. The high productivity results from a combination of unique physical, chemical and mineralogical properties. The importance and uniqueness of volcanic ash soils are exemplified by the recent establishment of the Andisol soil order in Soil Taxonomy. This book provides the first comprehensive synthesis of all aspects of volcanic ash soils in a single volume. It contains in-depth coverage of important topics including terminology, morphology, genesis, classification, mineralogy, chemistry, physical properties, productivity and utilization. A wealth of data (37 tables, 81 figures, and Appendix) mainly from the Tohoku University Andisol Data Base is used to illustrate major concepts. Twelve color plates provide a valuable visual-aid and complement the text description of the world-wide distribution for volcanic ash soils. This volume will serve as a valuable reference for soil scientists, plant scientists, ecologists and geochemists

interested in biogeochemical processes occurring in soils derived from volcanic ejecta.

**Achtung-Panzer!** Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had

come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**The Complete Works of Thomas Lodge 1580-1623? Now First Collected...** Edmund Gosse, Thomas Lodge, 2023-07-18 A must-read for fans of Elizabethan literature, this comprehensive collection of Thomas Lodge's works provides a valuable window into the cultural, social, and political climate of the late 16th and early 17th centuries. With insightful commentary by renowned literary scholar Edmund Gosse, this book is an essential addition to any library of classic literature. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. **Invisible Jumpers** Joseph Ford, 2019-09-26 Photographer Joseph Ford and knitting pro Nina Dodd have dedicated more hours than is reasonable to creating bespoke jumpers (for both humans and animals) that blend seamlessly

into their surroundings - from bus seats to bushes, carpets to coastlines. The images are executed with such painstaking precision that should the camera, or jumper for that matter, move by an inch the illusion would unravel. The book will contain images featuring 25 knitted pieces alongside text including an introduction by a top arts writer.

**Resurrecting the Past** Michelle M. Lorimer,2016 This original, eye-opening and thought provoking book traces the marginalization of California Indians within the California mission mythology and critiques the romanticized-narrative still presented today at many California mission sites as well as the manner by which the history of the missions is widely taught in Californias schools. Through case studies of topics including Native resistance, labor, death and disease, this work demonstrates the active roles Native people played in the development of California history alongside the fictionalized history that their mission experiences have been presented as.
