Persist Elizabeth Warren, 2021-05-04 The inspiring, influential senator and bestselling author mixes vivid personal stories with a passionate plea for political transformation. Elizabeth Warren is a beacon for everyone who believes that real change can improve the lives of all Americans. Committed, fearless, and famously persistent, she brings her best game to every battle she wages. In *Persist*, Warren writes about six perspectives that have influenced her life and advocacy. She's a mother who learned from wrenching personal experience why child care is so essential. She's a teacher who has known since grade school the value of a good and affordable education. She's a planner who understands that every complex problem requires a comprehensive response. She's a fighter who discovered the hard way that nobody gives up power willingly. She's a learner who thinks, listens, and works to fight racism in America. And she's a woman who has proven over and over that women are just as capable as men. Candid and compelling, *Persist* is both a deeply personal book and a powerful call to action. Elizabeth Warren—one of our nation's most visionary leaders—will inspire everyone to believe that if we're willing to fight for it, profound change is well within our reach.

Pops Craig Melvin, 2021-06-15 A deeply personal exploration of fatherhood, addiction, and resiliency from Craig Melvin, news anchor of NBC's Today show. For Craig Melvin this book is more an investigation than a memoir. It's an opportunity to better understand his father; to interrogate his family's legacy of addiction and despair but also transformation and redemption; and to explore the challenges facing all dads—including Craig himself, a father of two young children. Growing up in Columbia, South Carolina, Craig had a fraught relationship with his father. Lawrence Melvin was a distant, often absent parent due to his drinking as well as his job working the graveyard shift at a postal facility. Watching sports and tinkering on Lawrence's beloved (but unreliable) 1973 Pontiac LeMans were two ways father and son connected, but as Lawrence's drinking spiraled out of control, their bond was stretched to the breaking point. Fortunately, Craig had a loving, fiercely protective mother who held the family together. He also had a series of surrogate father figures in his life--uncles, teachers, workplace mentors--who by their examples helped him figure out the kind of person and father he wanted to be. *Pops* is the story of all these

men--and of the inspiring fathers Craig has met reporting his Dads Got This Series on the Today show. Pops is also the story of Craig and Lawrence Melvin's long journey to reconciliation and understanding, and of how all these experiences and encounters have informed Craig's understanding of his own role as a dad.

Breaking Ground Heidi Kühn, 2020-04-28 A memoir of a quest to eradicate landmines from the face of the Earth—and replace dangerous ground with productive farmland: “Kuhn is an inspiration.” —Gillian Sorensen, former United Nations Assistant Secretary-General After surviving a bout with cancer, Heidi Kühn decided to devote herself to ridding the world of another kind of life-threatening scourge: landmines in regions as far-flung as Croatia, Vietnam, and Afghanistan. Inspired by the work of the late Princess Diana, Heidi began the humanitarian organization Roots of Peace from the basement of her Northern California home. She gained the support of famed Napa Valley vintners Robert Mondavi and Mike Grgich, and soon her “mines-to-vines” mission began to take hold. In this powerful memoir, Heidi tells the Roots of Peace story, from the early days in which she built her vision to her current presence on the global stage, where she has worked with presidents, prime ministers, landmine survivors, and religious leaders from around the world to spread a message of peace and recovery. In the years since the founding of Roots of Peace, its agricultural projects have made tremendous progress to fight against landmines, revitalizing devastated land and uplifting the lives of countless people in the process. This is a story of healing, faith, and how an ordinary person can inspire remarkable change—and plant the seeds of a brighter future.

Just a Journalist Linda Greenhouse, 2017-10-30 A Pulitzer Prize–winning reporter who covered the Supreme Court for The New York Times, Linda Greenhouse trains an autobiographical lens on a moment of transition in U.S. journalism. Calling herself “an accidental activist,” she raises urgent questions about the role of journalists as citizens and participants in the world around them.

Laptop from Hell Miranda Devine, 2021-11-30 As seen on Tucker Carlson Tonight! USA Today and Wall Street Journal Bestseller! The inside story of the laptop that exposed the president’s dirtiest secret. When a drug-addled Hunter Biden abandoned his waterlogged computer at a Mac repair shop in Delaware in the spring of 2019, just six days before his father announced his candidacy for the United States presidency, it became the ticking time bomb in the shadows of Joe Biden’s campaign. The dirty secrets contained in Hunter’s laptop almost derailed his father’s presidential campaign and ignited one of the greatest media coverups in American history. This is the unvarnished story of what’s really inside the laptop and what China knows about the Bidens, by the New York Post journalist who brought it into the open. It exposes the coordinated censorship operation by Big Tech, the media establishment, and former intelligence operatives to stifle the New York Post’s coverage, in a chilling exercise of raw political power three weeks before the 2020 election. A treasure trove of corporate documents, emails, text messages, photographs, and voice recordings, spanning a decade, the laptop provided the first evidence that President Joe Biden was involved in his son’s ventures in China, Ukraine, and beyond, despite his repeated denials. This intimate insight into Hunter’s dissolute lifestyle shows he was incapable of holding down a job, let alone being paid tens of millions of dollars in high-powered international business deals by foreign interests, unless he had something else of value to sell—which of course he did. He was the son of the vice president who would go on to become the leader of the free world.

The Dragons and the Snakes David Kilcullen, 2020-02-04 Just a few years ago, people spoke of the US as a hyperpower—a titan stalking the world stage with more relative power than any empire in history. Yet as early as 1993, newly-appointed CIA director James Woolsey pointed out that although Western powers had slain a large dragon by defeating the Soviet Union in the Cold War, they now faced a bewildering variety of poisonous snakes. In *The Dragons and the Snakes*, the eminent soldier-scholar David Kilcullen

asks how, and what, opponents of the West have learned during the last quarter-century of conflict. Applying a combination of evolutionary theory and detailed field observation, he explains what happened to the snakes-non-state threats including terrorists and guerrillas-and the dragons-state-based competitors such as Russia and China. He explores how enemies learn under conditions of conflict, and examines how Western dominance over a very particular, narrowly-defined form of warfare since the Cold War has created a fitness landscape that forces adversaries to adapt in ways that present serious new challenges to America and its allies. Within the world's contemporary conflict zones, Kilcullen argues, state and non-state threats have increasingly come to resemble each other, with states adopting non-state techniques and non-state actors now able to access levels of precision and lethal weapon systems once only available to governments. A counterintuitive look at this new, vastly more complex environment, *The Dragons and the Snakes* will not only reshape our understanding of the West's enemies' capabilities, but will also show how we can respond given the increasing limits on US power.

Tomorrow's Battlefield Nick Turse, 2015-04-27 You won't see segments about it on the nightly news or read about it on the front page of America's newspapers, but the Pentagon is fighting a new shadow war in Africa, helping to destabilize whole countries and preparing the ground for future blowback. Behind closed doors, U.S. officers now claim that "Africa is the battlefield of tomorrow, today. In *Tomorrow's Battlefield*, award-winning journalist and bestselling author Nick Turse exposes the shocking true story of the U.S. military's spreading secret wars in Africa.

Sugar and the Making of International Trade Law Michael Fakhri, 2014-11-27 Comparative law is increasingly used as a tool in the making of law at national, regional and international levels. Private international law is now often affected by international conventions, and the issues faced by classical conflicts rules are frequently dealt with by substantive harmonisation of law under international auspices--

Mr Stink David Walliams, 2009-10-29 The second original, touching, twisted, and most of all hilarious novel for children from David Walliams, number one bestseller and fastest growing children's author in the country – beautifully illustrated by Quentin Blake.

1Q84 Haruki Murakami, 2011-10-25 The long-awaited magnum opus from Haruki Murakami, in which this revered and bestselling author gives us his hypnotically addictive, mind-bending ode to George Orwell's 1984. The year is 1984. Aomame is riding in a taxi on the expressway, in a hurry to carry out an assignment. Her work is not the kind that can be discussed in public. When they get tied up in traffic, the taxi driver suggests a bizarre 'proposal' to her. Having no other choice she agrees, but as a result of her actions she starts to feel as though she is gradually becoming detached from the real world. She has been on a top secret mission, and her next job leads her to encounter the superhuman founder of a religious cult. Meanwhile, Tengo is leading a nondescript life but wishes to become a writer. He inadvertently becomes involved in a strange disturbance that develops over a literary prize. While Aomame and Tengo impact on each other in various ways, at times by accident and at times intentionally, they come closer and closer to meeting. Eventually the two of them notice that they are indispensable to each other. Is it possible for them to ever meet in the real world?

Reduce Inequality, Increase Economic Growth Joseph Stiglitz, 2015-03-20 Joseph Stiglitz, winner of the Nobel Prize for Economics, discusses the state of the world's economy in this interview, offering policy interventions to better serve society's economic needs. Pointing to a grave failure of modern macroeconomic theory to predict the financial crisis, Stiglitz calls for new economic models from within the field to build a framework that maximizes individual capacity and advances society's interests.

Brothers in War and Peace Dennis Cruywagen, 2014 Abraham and Constand Viljoen were identical

twins who took starkly different paths in life. One was a deeply religious man, who opposed apartheid; the other was a man of war, who became head of the SADF. But together they would play a crucial role in preventing South Africa from descending into civil war. In the early 1990s, Constand came out of retirement to head the Afrikaner Volksfront, which opposed the negotiations with the ANC and made plans for military action. Realizing that war would destroy their country, Abraham approached his estranged brother and urged him to consider the alternative: talks with the ANC. What followed was a series of secret meetings and negotiations that ultimately prevented civil war. *Brothers in War and Peace* documents the crucial yet largely unheralded role the Viljoen brothers played in ensuring peace in South Africa. Based on interviews with the brothers and other key political figures, the book gives new insights into a time when the country's future was on a knife-edge.

No Time Like the Future Michael J. Fox, 2020-11-17 INSTANT NEW YORK TIMES BESTSELLER
A moving account of resilience, hope, fear and mortality, and how these things resonate in our lives, by actor and advocate Michael J. Fox. The entire world knows Michael J. Fox as Marty McFly, the teenage sidekick of Doc Brown in *Back to the Future*; as Alex P. Keaton in *Family Ties*; as Mike Flaherty in *Spin City*; and through numerous other movie roles and guest appearances on shows such as *The Good Wife* and *Curb Your Enthusiasm*. Diagnosed at age 29, Michael is equally engaged in Parkinson's advocacy work, raising global awareness of the disease and helping find a cure through The Michael J. Fox Foundation for Parkinson's Research, the world's leading non-profit funder of PD science. His two previous bestselling memoirs, *Lucky Man* and *Always Looking Up*, dealt with how he came to terms with the illness, all the while exhibiting his iconic optimism. His new memoir reassesses this outlook, as events in the past decade presented additional challenges. In *No Time Like the Future: An Optimist Considers Mortality*, Michael shares personal stories and observations about illness and health, aging, the strength of family and friends, and how our perceptions about time affect the way we approach mortality. Thoughtful and moving, but with Fox's trademark sense of humor, his book provides a vehicle for reflection about our lives, our loves, and our losses. Running through the narrative is the drama of the medical madness Fox recently experienced, that included his daily negotiations with the Parkinson's disease he's had since 1991, and a spinal cord issue that necessitated immediate surgery. His challenge to learn how to walk again, only to suffer a devastating fall, nearly caused him to ditch his trademark optimism and "get out of the lemonade business altogether." Does he make it all of the way back? Read the book.

The Islam in Islamic Terrorism Ibn Warraq, 2017 Ibn Warraq argues that we must take the beliefs of the jihadists seriously. He believes that the acts of ISIS or other Taliban are carefully and strategically planned operations that are a part of a long campaign by educated, affluent Muslims who wish to bring about the establishment of an Islamic state based on the Shari'a, the Islamic Holy Law derived from the Koran, the Sunna and the Hadith. He doesn't believe that the United States was targeted because of its

foreign policy, or that it has to do with their socioeconomic background, with poverty as the favorite explanation.

Let the Lord Sort Them Maurice Chammah, 2021-01-26 NEW YORK TIMES EDITORS' CHOICE • A deeply reported, searingly honest portrait of the death penalty in Texas—and what it tells us about crime and punishment in America “If you’re one of those people who despair that nothing changes, and dream that something can, this is a story of how it does.”—Anand Giridharadas, *The New York Times Book Review* WINNER OF THE J. ANTHONY LUKAS AWARD In 1972, the United States Supreme Court made a surprising ruling: the country’s death penalty system violated the Constitution. The backlash was swift, especially in Texas, where executions were considered part of the cultural fabric, and a dark history of lynching was masked by gauzy visions of a tough-on-crime frontier. When executions resumed, Texas quickly became the nationwide leader in carrying out the punishment. Then, amid a larger wave of criminal justice reform, came the death penalty’s decline, a trend so durable that even in Texas the punishment appears again close to extinction. In *Let the Lord Sort Them*, Maurice Chammah charts the rise and fall of capital punishment through the eyes of those it touched. We meet Elsa Alcala, the orphaned daughter of a Mexican American family who found her calling as a prosecutor in the nation’s death penalty capital, before becoming a judge on the state’s highest court. We meet Danalynn Recer, a lawyer who became obsessively devoted to unearthing the life stories of men who committed terrible crimes, and fought for mercy in courtrooms across the state. We meet death row prisoners—many of them once-famous figures like Henry Lee Lucas, Gary Graham, and Karla Faye Tucker—along with their families and the families of their victims. And we meet the executioners, who struggle openly with what society has asked them to do. In tracing these interconnected lives against the rise of mass incarceration in Texas and the country as a whole, Chammah explores what the persistence of the death penalty tells us about forgiveness and retribution, fairness and justice, history and myth. Written with intimacy and grace, *Let the Lord Sort Them* is the definitive portrait of a particularly American institution.

Good and Mad Rebecca Traister, 2019-09-03 Journalist Rebecca Traister’s New York Times bestselling exploration of the transformative power of female anger and its ability to transcend into a political movement is “a hopeful, maddening compendium of righteous feminine anger, and the good it can do when wielded efficiently—and collectively” (*Vanity Fair*). Long before Pantsuit Nation, before the Women’s March, and before the #MeToo movement, women’s anger was not only politically catalytic—but politically problematic. The story of female fury and its cultural significance demonstrates its crucial role in women’s slow rise to political power in America, as well as the ways that anger is received when it comes from women as opposed to when it comes from men. “Urgent, enlightened...realistic and compelling...Traister eloquently highlights the challenge of blaming not just forces and systems, but individuals” (*The Washington Post*). In *Good and Mad*, Traister tracks the history of female anger as political fuel—from suffragettes marching on the White House to office workers vacating their buildings after Clarence Thomas was confirmed to the Supreme Court. Traister explores women’s anger at both men and other women; anger between ideological allies and foes; the varied ways anger is received based on who’s expressing it; and the way women’s collective fury has become transformative political fuel. She deconstructs society’s (and the media’s) condemnation of female emotion (especially rage) and the impact of their resulting repercussions. Highlighting a double standard perpetuated against women by all sexes, and its disastrous, stultifying effect, *Good and Mad* is “perfectly timed and inspiring” (*People*, *Book of the Week*). This “admirably rousing narrative” (*The Atlantic*) offers a glimpse into the galvanizing force of women’s collective anger, which, when harnessed, can change history.

Liars Cass R. Sunstein, 2021-02-04 A powerful analysis of why lies and falsehoods spread so rapidly now, and how we can reform our laws and policies regarding speech to alleviate the problem. Lying has been with us from time immemorial. Yet today is different-and in many respects worse. All over the world, people are circulating damaging lies, and these falsehoods are amplified as never before through powerful social media platforms that reach billions. Liars are saying that COVID-19 is a hoax. They are claiming that vaccines cause autism. They are lying about public officials and about people who aspire to high office. They are lying about their friends and neighbors. They are trying to sell products on the basis of untruths. Unfriendly governments, including Russia, are circulating lies in order to destabilize other nations, including the United Kingdom and the United States. In the face of those problems, the renowned legal scholar Cass Sunstein probes the fundamental question of how we can deter lies while also protecting freedom of speech. To be sure, we cannot eliminate lying, nor should we try to do so. Sunstein shows why free societies must generally allow falsehoods and lies, which cannot and should not be excised from democratic debate. A main reason is that we cannot trust governments to make unbiased judgments about what counts as fake news. However, governments should have the power to regulate specific kinds of falsehoods: those that genuinely endanger health, safety, and the capacity of the public to govern itself. Sunstein also suggests that private institutions, such as Facebook and Twitter, have a great deal of room to stop the spread of falsehoods, and they should be exercising their authority far more than they are now doing. As Sunstein contends, we are allowing far too many lies, including those that both threaten public health and undermine the foundations of democracy itself.
