*Michelangelo's Sistine Chapel Ceiling in Cross-stitch* Joanna Lopianowski-Roberts,2006 A counted cross-stitch pattern of the entire Sistine Chapel Ceiling. Included in the book are 45 full color, individual patterns (one for every scene) and instructions on how they may be stitched together, or individually. These patterns are not computer generated. They have been meticulously created one square at a time. This allowed me to transform the curved Sistine Chapel Ceiling into a flat pattern. There are no special stitches in the pattern, not even backstitch (except the lettering on the signs). There are only 1/4, 3/4 and full cross-stitches. Also, all the different individual pieces have been designed to interlock with the scenes around them. Although you may find patterns of parts of the Sistine Chapel Ceiling elsewhere, as an aggregate you will not find a similar pattern anywhere. To see a sample of the chart, click on the preview associated with this book. A black & white chart may be seen in the preview associated with the B/W version.
