War Diary of the Commander-in-Chief, United States Pacific Fleet, May 1942 Usnavy,J D Goff,2019-06-28 This is a modified version of the original May, 1942, Commander-in-Chief, United States Pacific Fleet War Diary. May, 1942 - May continues the format from April, with the daily Narrative, Daily Distribution of Operating Forces, Current Movements of Naval Units, and War Plans - Daily Summary. Readers of the previous volumes are aware that the CinCPac War Diary is not an in-depth chronical of battle, as, for instance, the minimal information about the actual Battle of the Coral Sea confirms. What the War Diary does give is a detailed list of the ships participating and how they were organized. Due to distance and limited communications, even this information is not always 100% up to date, or 100% accurate (LEXINGTON lingered under the Task Force 11 heading for five days after she was sunk on May 8; she, and Task Force 11, were not removed from the diary until May 13). NOTE: This document has been altered from the original for publishing and readability purposes. Individual redundant page headings have been deleted. Empty page space has been removed. Typos have been corrected and inconsistencies eliminated. Geographical misspellings have not been changed. Select words in all-uppercase have been replaced with conventional lower case. Other than the above revisions, this is the original CinCPac War Diary, as submitted to the Chief of Naval Operations. The War Diaries were compiled to chronicle the daily operations of the ships and commands of the U.S. Navy. This was done for contemporary analysis and as a historical record.

Empires in the Balance H. P Willmott,2008-09-01 The respected British military historian H. P. Willmott presents the first of a three-volume appraisal of the strategic policies of the countries involved in the Pacific War. Remarkable in its scope and depth of research, his thoughtful analysis covers the whole range of political, economic, military, and naval activity in the Pacific. This first volume comprehensively covers events between December 1941 and April 1942, concluding with the Doolittle Raid on April 18. When published in hardcover in 1982, the book was hailed as an eloquent portrayal of great empires on trial that no one should miss. Willmott's stimulating and original approach to the subject remains unmatched even today.

*Midway 1942* Mark Stille,2012-06-20 In less than one day, the might of the Imperial Japanese Navy was destroyed and four of her great aircraft carriers sank burning into the dark depths of the Pacific. Utilizing the latest research and detailed combat maps, this book tells the dramatic story of the Japanese assault on Midway Island and the American ambush that changed the face of the Pacific war. With sections on commanders, opposing forces, and a blow-by-blow account of the action, this volume gives a complete understanding of the strategy, the tactics, and the human drama that made up the Midway campaign, and its place as the turning point in the Pacific war.

### **The First South Pacific Campaign** John B

Lundstrom, 2014-04-15 On May 7 and 8, 1942, fast carrier task forces from the United States and Imperial Japanese met in combat for the first time in the Battle of the Coral Sea. A strategic victory for the U.S. despite the loss of the carrier Lexington, the battle blunted the Japanese drive on Port Moresby, a valuable Allied air base on the island of New Guinea. Lundstrom offers a detailed analysis of the fundamental strategies employed by Japan and the U.S. in the South Pacific from January to June 1942, the efforts of Adm. Ernest J. King to reinforce the area in spite of Roosevelt's Europe First grand strategy and Adm. Chester Nimitz's aggressive plans to fight in the Coral Sea. Now in paperback, *The First Pacific Campaign* provides a superb overview of the crucial first six months of the naval war in the South Pacific.

*Strategy and Command* Louis Morton, 2015-07-11 For the United States, full involvement in World War II began and ended in the Pacific Ocean. Although the accepted grand strategy of the war was the defeat of Germany first, the sweep of Japanese victory in the weeks and months after Pearl Harbor impelled the United States to move as rapidly as it could to stem the enemy tide of conquest in the Pacific. Shocked as they were by the initial attack, the American people were also united in their determination to defeat Japan, and the Pacific war became peculiarly their own affair. In this great theater it was the United States that ran the war, and had the determining voice in answering questions of strategy and command as they arose. The natural environment made the prosecution of war in the Pacific of necessity an interservice effort, and any real account of it must, as this work

does, take into full account the views and actions of the Navy as well as those of the Army and its Air Forces. These are the factors—a predominantly American theater of war covering nearly one-third the globe, and a joint conduct of war by land, sea, and air on the largest scale in American history—that make this volume on the Pacific war of particular significance today. It is the capstone of the eleven volumes published or being published in the Army's World War II series that deal with military operations in the Pacific area, and it is one that should command wide attention from the thoughtful public as well as the military reader in these days of global tension.

Mastering the Art of Command Trent Hone, 2022-09-15

Mastering the Art of Command is a detailed examination of Admiral Chester W. Nimitz's leadership during World War II. It describes how he used his talents to guide the Pacific Fleet following the attacks on Pearl Harbor, win crucial victories against the forces of Imperial Japan, and then seize the initiative in the Pacific. Once Nimitz's forces held the initiative, they maintained it through an offensive campaign of unparalleled speed that overcame Japanese defenses and created the conditions for victory. As a command and operational history, Mastering the Art of Command explores how Nimitz used his leadership skills, command talents, and strategic acumen to achieve these decisive results. Hone recounts how Nimitz, as both Commander-in-Chief of the Pacific Fleet (CINCPAC) and Commander-in-Chief of the Pacific Ocean Areas (CINCPOA), revised and adapted his organizational structure to capitalize on lessons and newly emerging information. Hone argues that Nimitz—because he served simultaneously as CINCPAC and CINCPOA—was able to couple tactical successes to strategic outcomes and more effectively plan and execute operations that brought victory at Midway, Guadalcanal, the Marshall Islands, the Philippines, Iwo Jima, and Okinawa. As a study of leadership, Mastering the Art of Command uses modern management theories, and builds upon the approach in his award-

winning Learning War. Trent Hone explores the challenge of leadership in complex adaptive systems through Nimitz's behavior and causes us to reassess the inevitability of Allied victory and the reasons for its ultimate accomplishment. A new narrative history of the Pacific war, this book demonstrates effective patterns for complexity-informed leadership by highlighting how Nimitz maintained coherence within his organization, established the conditions for his subordinates to succeed, and fostered collaborative sensemaking to identify and pursue options more rapidly. Nimitz's "strategic artistry" is a pattern worthy of study and emulation, for today's military officers, civilian leaders, and managers in large organizations.

**Guadalcanal 1942-43** Mark Stille, 2015-08-20 The Guadalcanal campaign began with an amphibious assault in August 1942 – the US's first attempt to take the fight to the Japanese. It escalated into a desperate attritional battle on land, air, and sea, and by the time the Japanese had evacuated the last of their forces from the island in 1943, it was clear that the tide of the war had turned. The inexorable Japanese advance and the myth of Japanese invincibility shattered. In this new study of the campaign, Pacific War expert Mark Stille draws on both US and Japanese sources to give a balanced and comprehensive account of a crucial, brutal conflict. Analyzing the three Japanese attempts to retake the island in the face of ferocious American resistance, this book shows how the battle was won and lost, and how it affected the outcome of the Pacific War as a whole.

### **Fateful Rendezvous** John B Lundstrom, Steve

Ewing, 2012-04-15 Fighter pilot Butch O'Hare became one of America's heroes in 1942 when he saved the carrier Lexington in what has been called the most daring single action in the history of combat aviation. In fascinating detail the authors describe how O'Hare shot down five attacking Japanese bombers and severely damaged a sixth and other awe-inspiring feats of aerial combat that won him awards, including the Medal of Honor. They also explain his key role in developing tactics and night-fighting techniques that helped defeat the Japanese. In addition, the authors investigate events leading up to O'Hare's disappearance in 1943 while intercepting torpedo bombers headed for the Enterprise. First published in 1997, this biography utilizes O'Hare family papers and U.S. and Japanese war records as well as eyewitness interviews. It is essential reading for a true understanding of the development of the combat naval aviation and the talents of the universally admired and well-liked Butch O'Hare.

### First Offensive: The Marine Campaign for Guadalcanal Henry I.

Shaw, 2016-07-19 In the early summer of 1942, intelligence reports of the construction of a Japanese airfield near Lunga Point on Guadalcanal in the Solomon Islands triggered a demand for offensive action in the South Pacific. The leading offensive advocate in Washington was Admiral Ernest J. King, Chief of Naval Operations (CNO). In the Pacific, his view was shared by Admiral Chester A. Nimitz, Commander in Chief, Pacific Fleet (CinCPac), who had already proposed sending the 1st Marine Raider Battalion to Tulagi, an island 20 miles north of Guadalcanal across Sealark Channel, to destroy a Japanese seaplane base there.

**Midway 1942** Mark Healy, 2004 One of the most decisive naval battles in history, Midway was fought barely six months after Pearl Harbor. Here, the U.S. carriers that had escaped that surprise attack dealt a devastating blow to the Imperial Japanese fleet.
