*The Year's Best Science Fiction: Nineteenth Annual Collection* Gardner Dozois, 2002-07-23 The twenty-first century has so far proven to be exciting and wondrous and filled with challenges we had never dreamed. New possibilities previously unimagined appear almost daily . . . and science fiction stories continue to explore those possibilities with delightful results: Collected in this anthology are such compelling stories as: On K2 with Kanakaredes by Dan Simmons. A relentlessly paced and absorbing tale set in the near future about three mountain climbers who must scale the face of K2 with some very odd company. The Human Front by Ken MacLeod. In this compassionate coming-of-age tale the details of life are just a bit off from things as we know them-and nothing is as it appears to be. Glacial by Alastair Reynolds. A fascinating discovery on a distant planet leads to mass death and a wrenching mystery as spellbinding as anything in recent short fiction. The twenty-six stories in this collection imaginatively takes us far across the universe, into the very core of our beings, to the realm of the gods, and the moment just after now. Included here are the works of masters of the form and of bright new talents, including: Eleanor Arnason Chris Beckett Michael Blumlein Michael Cassutt Brenda W. Clough Paul Di Filippo Andy Duncan Carolyn Ives Gilman Jim Grimsley Simon Ings James Patrick Kelly Leigh Kennedy Nancy Kress Ian R. MacLeod Ken MacLeod Paul J. McAuley Maureen F. McHugh Robert Reed Alastair Reynolds Geoff Ryman William Sanders Dan Simmons Allen M. Steele Charles Stross Michael Swanwick Howard Waldrop Supplementing the stories are the editor's insightful summation of the year's events and a lengthy list of honorable mentions, making this book a valuable resource in addition to serving as the single best place in the universe to find stories that stir the imagination and the heart.

**Martin Scorsese's Documentary Histories** Mike Meneghetti, 2021-03-25 Martin Scorsese's Documentary Histories: Migrations, Movies, Music is the first comprehensive study of Martin Scorsese's prolific work as a

documentary filmmaker. Highlighting the historiographic aims of the director's various non-fiction film, video, and television productions, Mike Meneghetti re-examines Scorsese's documentaries as resourceful audiovisual histories of migrations, movies, and popular music. Italianamerican's critical immersion in the post-Sixties ethnic revival inaugurates Scorsese's decades-long documentary project in 1974, and the era's developing vernacular of reclamation would shape each of his subsequent non-fiction efforts. Martin Scorsese's *Documentary Histories* surveys the succeeding films' decisive adherence to this language of retrieval. With extended analyses of *Italianamerican*, *American Boy: A Profile of Steven Prince*, *The Last Waltz*, *Shine a Light*, *Feel Like Going Home*, *No Direction Home: Bob Dylan*, *Il mio viaggio in Italia*, and *A Letter to Elia* among others, Meneghetti resituates Scorsese's filmmaking within the wider contexts of documentary history and American culture.

**Making Histories** Paul Ashton,Tanya Evans,Paula Hamilton,2020-09-21 If historical culture is the specific and particular ways that a society engages with its past, this book aims to situate the professional practice of public history, now emerging across the world, within that framework. It links the increasingly varied practices of memory and history-making such as genealogy, podcasting, re-enactment, family histories, memoir writing, film-making and facebook histories with the work that professional historians do, both in and out of the academy. *Making Histories* asks questions about the role of the expert and notions of authority within a landscape that is increasingly concerned with connection to the past and authenticity. The book is divided into four parts: 1. Resistance, Rights, Authority 2. Memory, Memorialization, Commemoration 3. Performance, Transmission, Reception 4. Family, Private, Self The four sections outline major themes emerging in public history across the world in the 21st century which are all underpinned by the impact of new media on historical practice and our central argument for the volume which advocates a more capacious definition of what constitutes 'public history'.

*A Little History of the World* E. H. Gombrich,2014-10-01 E. H. Gombrich's *Little History of the World*, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the *Little History* brings together the pellucid humanity of his narrative with the images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

**Folk Horror** Dawn Keetley,2023-04-15 While the undisputed heyday of folk horror was Britain in the 1960s and 1970s, the genre has not only a rich cinematic and literary prehistory, but directors and novelists

around the world have also been reinventing folk horror for the contemporary moment. This study sets out to rethink the assumptions that have guided critical writing on the genre in the face of such expansions, with chapters exploring a range of subjects from the fiction of E. F. Benson to Scooby-Doo, video games, and community engagement with the Lancashire witches. In looking beyond Britain, the essays collected here extend folk horror's geographic terrain to map new conceptualisations of the genre now seen emerging from Italy, Ukraine, Thailand, Mexico and the Appalachian region of the US.

**Rockstar Games and American History** Esther Wright,2022-08-22 For two decades, Rockstar Games have been making games that interrogate and represent the idea of America, past and present. Commercially successful, fan-beloved, and a frequent source of media attention, Rockstar's franchises are positioned as not only game-changing, ground-breaking interventions in the games industry, but also as critical, cultural histories on America and its excesses. But what does Rockstar's version of American history look like, and how is it communicated through critically acclaimed titles like *Red Dead Redemption* (2010) and *L.A. Noire* (2011)? By combining analysis of Rockstar's games and a range of official communications and promotional materials, this book offers critical discussion of Rockstar as a company, their video games, and ultimately, their attempts at creating new narratives about U.S. history and culture. It explores the ways in which Rockstar's brand identity and their titles coalesce to create a new kind of video game history, how promotional materials work to claim the authenticity of these products, and assert the authority of game developers to perform the role of historian. By working at the intersection of historical game studies, U.S. history, and film and media studies, this book explores what happens when contemporary demands for historical authenticity are brought to bear on the way we envisage the past – and whose past it is deemed to be. Ultimately, this book implores those who research historical video games to consider the oft-forgotten sources at the margins of these games as importance spaces where historical meaning is made and negotiated. **You've Been Played** Adrian Hon,2022-09-20 How games are being harnessed as instruments of exploitation—and what we can do about it Warehouse workers pack boxes while a virtual dragon races across their screen. If they beat their colleagues, they get an award. If not, they can be fired. Uber presents exhausted drivers with challenges to keep them driving. China scores its citizens so they behave well, and games with in-app purchases use achievements to empty your wallet. Points, badges, and leaderboards are creeping into every aspect of modern life. In *You've Been Played*, game designer Adrian Hon delivers a blistering takedown of how corporations, schools, and governments use games and gamification as tools for profit and coercion. These are games that we often have no choice but to play, where losing has heavy penalties. *You've Been Played* is a scathing indictment of a tech-driven world that wants to convince us that misery is fun, and a call to arms for anyone who hopes to preserve their dignity and autonomy.
