**Understanding Morphology** Martin Haspelmath, Andrea D. Sims, 2013-10-28 This new edition of Understanding Morphology has been fully revised in line with the latest research. It now includes 'big picture' questions to highlight central themes in morphology, as well as research exercises for each chapter. Understanding Morphology presents an introduction to the study of word structure that starts at the very beginning. Assuming no knowledge of the field of morphology on the part of the reader, the book presents a broad range of morphological phenomena from a wide variety of languages. Starting with the core areas of inflection and derivation, the book presents the interfaces between morphology and syntax and between morphology and phonology. The synchronic study of word structure is covered, as are the phenomena of diachronic change, such as analogy and grammaticalization. Theories are presented clearly in accessible language with the main purpose of shedding light on the data, rather than as a goal in themselves. The authors consistently draw on the best research available, thus utilizing and discussing both functionalist and generative theoretical approaches. Each chapter includes a summary, suggestions for further reading, and exercises. As such this is the ideal book for both beginning students of linguistics, or anyone in a related discipline looking for a first introduction to morphology.

**Luboml** Berl Kagan, Nathan Sobel, 1997 The story of the former Polish-Jewish community (shtetl) of Luboml, Wołyń, Poland. Its Jewish population of some 4,000, dating back to the 14th century, was exterminated by the occupying German forces and local collaborators in October, 1942. Luboml was formerly known as Lyuboml, Volhynia, Russia and later Lyuboml, Volyns'ka, Ukraine. It was also known by its Yiddish name: Libivne.

**An Introduction to Mormonism** Douglas J. Davies, 2003-10-23 Although one of the fastest growing religious movements in the world, the Church of Jesus Christ of Latter-day Saints remains a mystery in terms of its core beliefs and theological structure. This timely book provides an important introduction to the basic history, doctrines and practices of The LDS--the Mormon Church. Emphasizing sacred texts and prophecies as well as the crucial Temple rituals of endowments, marriage and baptism, it is written by a non-believer, who describes Mormonism in ways that non-Mormons can understand.

**The Film Book** Ronald Bergan, 2021 Story of cinema -- How movies are made -- Movie genres -- World cinema -- A-Z directors -- Must-see movies.

**Christian Masculinity** Yvonne Maria Werner, 2011 In the mid-nineteenth century, when the idea of religion as a private matter connected to the home and the female sphere won acceptance among the bourgeois elite, Christian religious practices began to be associated with femininity and soft values. Contemporary critics claimed that religion was incompatible with true manhood, and today's scholars talk about a feminization of religion. But was this really the case? What expression did male religious faith take at a time when Christianity was losing its status as the foundation of society? This is the starting point for the research presented in Christian Masculinity. Here we meet Catholic and Protestant men struggling with and for their Christian faith as priests, missionaries, and laymen, as well as ideas and reflections on Christian masculinity in media, fiction, and correspondence of various kinds. Some men engaged in social and missionary work, or strove to harness the masculine combative spirit to Christian ends, while others were eager to show the male character of Christian virtues. This book not only illustrates the importance of religion for the understanding of gender construction, but also the need to take into consideration confessional and institutional aspects of religious identity.

**New Perspectives on 2 Enoch** Andrei Orlov, Gabriele Boccaccini, 2012-05-25 This book presents a collection of papers from the

fifth conference of the Enoch Seminar. The conference re-examined 2 Enoch, an early Jewish apocalyptic text previously known to scholars only in its Slavonic translation, in light of recently identified Coptic fragments.

*Voices of a People's History of the United States* Howard Zinn, Anthony Arnove, 2011-01-04 Here in their own words are Frederick Douglass, George Jackson, Chief Joseph, Martin Luther King Jr., Plough Jogger, Sacco and Vanzetti, Patti Smith, Bruce Springsteen, Mark Twain, and Malcolm X, to name just a few of the hundreds of voices that appear in *Voices of a People's History of the United States*, edited by Howard Zinn and Anthony Arnove. Paralleling the twenty-four chapters of Zinn's *A People's History of the United States*, *Voices of a People's History* is the long-awaited companion volume to the national bestseller. For *Voices*, Zinn and Arnove have selected testimonies to living history—speeches, letters, poems, songs—left by the people who make history happen but who usually are left out of history books—women, workers, nonwhites. Zinn has written short introductions to the texts, which range in length from letters or poems of less than a page to entire speeches and essays that run several pages. *Voices of a People's History* is a symphony of our nation's original voices, rich in ideas and actions, the embodiment of the power of civil disobedience and dissent wherein lies our nation's true spirit of defiance and resilience.

**The Social Life of Coffee** Brian Cowan, 2008-10-01 What induced the British to adopt foreign coffee-drinking customs in the seventeenth century? Why did an entirely new social institution, the coffeehouse, emerge as the primary place for consumption of this new drink? In this lively book, Brian Cowan locates the answers to these questions in the particularly British combination of curiosity, commerce, and civil society. Cowan provides the definitive account of the origins of coffee drinking and coffeehouse society, and in so doing he reshapes our understanding of the commercial and consumer revolutions in Britain during the long Stuart century. Britain's virtuosi, gentlemanly patrons of the arts and sciences, were profoundly interested in things strange and exotic. Cowan explores how such virtuosi spurred initial consumer interest in coffee and invented the social template for the first coffeehouses. As the coffeehouse evolved, rising to take a central role in British commercial and civil society, the virtuosi were also transformed by their own invention.

**The International Labour Organization** Daniel Maul, 2019-11-05 This book is the first comprehensive account of the International Labour Organization's 100-year history. At its heart is the concept of global social policy, which encompasses not only social policy in its national and international dimensions, but also development policy, world trade, international migration and human rights. The book focuses on the ILO's roles as a key player in debates on poverty, social justice, wealth distribution and social mobility subjects and as a global forum for addressing these issues. The study puts in perspective the manifold ways in which the ILO has helped structure these debates and has made – through its standard-setting, technical cooperation and myriad other activities – practical contributions to the world of work and to global social policy.

**The Devotion and Promotion of Stigmatics in Europe, c. 1800-1950** Tine Van Osselaer, Andrea Graus, Leonardo Rossi, Kristof Smeyers, 2020-10-12 In the nineteenth century a new type of mystic emerged in Catholic Europe. While cases of stigmatisation had been reported since the thirteenth century, this era witnessed the development of the 'stigmatic': young women who attracted widespread interest thanks to the appearance of physical stigmata. To understand the popularity of these stigmatics we need to regard them as the 'saints' and religious 'celebrities' of their time. With their 'miraculous' bodies, they fit contemporary popular ideas (if not necessarily those of the Church) of what sanctity was. As knowledge about them spread via modern media and their fame became marketable, they developed into religious 'celebrities'.

The Matter of Piety Ruben Suykerbuyk, 2020-07-27 The Matter of Piety provides the first in-depth study of Zoutleeuw's exceptionally well-preserved pilgrimage church in a comparative perspective, and reevaluates religious art and material culture in Netherlandish piety from the late Middle Ages through the crisis of iconoclasm and the Reformation to Catholic restoration. Analyzing the changing functions, outlooks, and meanings of devotional objects – monumental sacrament houses, cult statues and altarpieces, and small votive offerings or relics – Ruben Suykerbuyk revises dominant narratives about Catholic culture and patronage in the Low Countries. Rather than being a paralyzing force, the Reformation incited engaged counterinitiatives, and the vitality of late medieval devotion served as the fertile ground from which the Counter-Reformation organically grew under Protestant impulses.

Black Cosmopolitans Christine Levecq, 2019 This book examines the life and intellectual contributions of three extraordinary black men--Jacobus Capitein, Jean-Baptiste Belley, and John Marrant--whose experiences and writing helped shape racial, social, and political thought throughout the eighteenth-century Atlantic world.

Combatting Homophobia Michael Groneberg, Christian Funke, 2011 Discrimination based on sexual orientation and gender identity concerns everybody, but it is foremost lesbian and gay persons who have to deal with it, especially when confronting the discovery of their homosexuality as a child or adolescent. In this book, education practitioners working with youth and researchers - from social, political, and educational sciences, as well as theology and philosophy - raise awareness of the wide spectrum of homophobia and offer solutions to the suffering it engenders in youths. The book will be helpful for parents, teachers, and others who are responsible for youth and education. It reviews concrete knowledge, combines it with scientific approaches, and identifies the need for further research. (Series: Gender-Diskussion - Vol. 13)

*Rethinking Authority in the Carolingian Empire* Rutger Kramer, 2019-02-11 By the early ninth century, the responsibility for a series of social, religious and political reforms had become an integral part of running the Carolingian empire. This became especially clear when, in 813/4, Louis the Pious and his court seized the momentum generated by their predecessors and broadened the scope of this correctio ever further. These reformers knew they constituted a movement greater than the sum of its parts; the interdependence of imperial authority and ecclesiastical reformers was driven by comprehensive, yet surprisingly diverse expectations. Taking this diversity as a starting point, this book takes a fresh look at these optimistic decades. Extrapolating from a series of detailed case studies rather than presenting a grand narrative, it offers new interpretations of contemporary theories of correctio, and shows the self-awareness of its main instigators as they pondered what it meant to be a good Christian in a good Christian empire.

**Conversion and Church**, 2016-05-23 In Conversion and Church. The Challenge of Renewal, the contributors explore the challenges of renewal in the Church, and the call to conversion that plays a significant role in the dialogue on ecumenism and contemporary spirituality.

*Christianity, Democracy, and the Shadow of Constantine* George E. Demacopoulos, Aristotle Papanikolaou, 2016-11-01 Winner of the 2017 Alpha Sigma Nu Award The collapse of communism in eastern Europe has forced traditionally Eastern Orthodox countries to consider the relationship between Christianity and liberal democracy. Contributors examine the influence of Constantinianism in both the post-communist Orthodox world and in Western political theology. Constructive theological essays feature Catholic and Protestant theologians reflecting on the relationship between Christianity and democracy, as well as Orthodox theologians reflecting on their tradition's relationship to liberal democracy. The essays explore prospects of a distinctively Christian politics in a post-communist,

post-Constantinian age.

**The Orient in Utrecht: Adriaan Reland (1676-1718), Arabist, Cartographer, Antiquarian and Scholar of Comparative Religion** Bart Jaski, Christian Lange, Anna Pytlowany, Henk J. van Rinsum, 2021-07-05 Adriaan Reland (1676-1718), Arabist, Cartographer, Antiquarian and Scholar of Comparative Religion covers the intellectual achievements of a remarkable man: Adriaan Reland, professor of Oriental languages (1701) and Hebrew Antiquities (1713) at the University of Utrecht from 1701 to 1718. Although he never travelled beyond the borders of his home country, he had an astonishingly broad worldview. The contributions in this volume illuminate Reland's many accomplishments and follow his scholarly trajectory as an Orientalist, a linguist, a cartographer, a poet, and a historian of comparative religions. Reland, although a devout Protestant, believed that religions should be examined objectively on their own terms with the help of reliable and authentic documents, which would dispel the prejudices of the past. Contributors: Lot Brouwer, Ulrich Groetsch, Toon van Hal, Jason Harris, Bart Jaski, Christian Lange, Richard van Leeuwen, Remke Kruk, Anna Pytlowany, Henk J. van Rinsum, Dirk Sacré, Arnoud Vrolijk, Tobias Winnerling and Jan Just Witkam
