**Social Class Supports** Georgianna Martin,Sonja Ardoin,2023-07-03 Historically, higher education was designed for a narrow pool of privileged students. Despite national, state and institutional policies developed over time to improve access, higher education has only lately begun to address how its unexamined assumptions, practices and climate create barriers for poor and working class populations and lead to significant disparities in degree completion across social classes.The data shows that higher education substantially fails to provide poor and working class students with the necessary support to achieve the social mobility and success comparable to the attainments of their middle and upper class peers. This book presents a comprehensive range of strategies that provide the fundamental supports that poor and working-class students need to succeed while at the same time dismantling the inequitable barriers that make college difficult to navigate.Drawing on the concept of the student-ready college, and on emerging research and practices that colleges and universities can use to explore campus-specific social class issues and identify barriers, this book provides examples of support programs and services across the field of higher education – at both two- and four-year, public and private institutions – that cover:·Access supports. Examples and recommendations for how institutions can assist students as they make decisions about applications and admission.·Basic needs supports. Covering housing and food security, necessary clothing, sense of belonging through co-curricular engagement, and mental health resources.·Academic and learning supports. Describes courses and academic programs to promote full engagement among poor and working class students.·Advising supports. Illustrates advising that acknowledges poor and working class students’ identities, and recommends continued training for both staff and faculty advisors.·Supports for specific populations at the intersection of social class with other identities, such as Students of Color, foster youth, LGBTQ, and doctoral students.·Gaining support through external partnerships with social services, business entities, and fundraising.This book is addressed to administrators, educators and student affairs personnel, urging them to make the institutional commitment to enhance the college experience for poor and working class students who not only represent a substantial proportion of college students today, but constitute a significant future demographic.

Academic and Student Affairs in Collaboration Mitchell A. Levy,Bernard A. Polnarev,2016-06-10 Academic and Student Affairs in Collaboration provides a comprehensive and evidenced-based understanding of the partnerships necessary to achieve an institutional culture devoted to student success. Chapter authors explore how to design, implement, and assess collaborative efforts between student and academic affairs in support of increased student success. This book provides best practices for fostering and enhancing campus dialogue, career development pathways, academic support services, and other important initiatives to increase retention and learning outcomes, improve motivation and goal attainment, and enhance institutional accountability. This book is a must-read for scholars, faculty, leaders, and practitioners in Student Affairs and Higher Education interested in achieving student success at their universities and colleges.

**Disability as Diversity in Higher Education** Eunyoung Kim,Katherine C. Aquino,2017-02-03 Addressing disability not as a form of student impairment—as it is typically perceived at the postsecondary level—but rather as an important dimension of student diversity and identity, this book explores how disability can be more effectively incorporated into college environments. Chapters propose new perspectives, empirical research, and case studies to provide the necessary foundation for understanding the role of disability within campus climate and integrating students with disabilities into academic and social settings. Contextualizing disability through the lens of intersectionality, Disability as Diversity in Higher Education illustrates how higher education institutions can use policies and practices to enhance inclusion and student success.

**Advancing Higher Education as a Field of Study** Sydney Freeman,Linda Serra Hagedorn,Lester Goodchild,Dianne Wright,2023-07-03 Winner of the 2015 Auburn Authors AwardsWhere is higher education as a field of study going in this century? How will higher education program leaders design and sustain their degree programs’ vitality in the face of perennial challenges from inside and outside the academy? While in 1979 the Council for the Advancement of Standards in Higher Education (CAS) defined standards for student affairs master’s level preparation, and while 2010 saw the adoption of guidelines for higher education administration and leadership preparation programs at the master’s degree level, there still are, however, no guidelines that address higher education leadership doctoral programs, despite increasing demands for assessment and evaluation. This book suggests that higher education administration doctoral degree guidelines are a critical next step in advancing their program quality and continuity. It offers a review of the field’s history, the condition of its higher education programs, developments from the student affairs specialization and its guidelines, and a multi-chapter dialogue on the benefits or disadvantages of having guidelines. At a time of urgency to prepare the next generation of higher education faculty and leaders, this book sets out the parameters for the debate about what the guidelines should cover to ensure the appropriate and effective preparation of students. It also offers a useful framework for enriching the knowledge of deans, chairs, program coordinators and faculty who are engaged in program design, assessment, and revision. It will also be of interest to policymakers, the personnel of accrediting agencies, and not least graduate students within higher education preparation programs. All the contributors to this volume have the exemplary expertise, leadership experience, and a close association with higher education guidelines and standards, and have extensively contributed to the literature on higher education.

*Emerging Adulthood and Higher Education* Joseph L. Murray,Jeffrey Jensen Arnett,2018-09-13 This important book introduces Arnett’s emerging adulthood theory to scholars and practitioners in higher education and student affairs, illuminating how recent social, cultural, and economic changes have altered the pathway to adulthood. Chapters in this edited collection explore how this theory fits alongside current student development theory, the implications for how college students learn and develop, and how emerging adulthood theory is uniquely suited to address challenges facing higher education today. Emerging Adulthood and Higher Education provides important recommendations for administrators, counselors, and student affairs personnel to provide effective

programs and services to facilitate their emerging adults' journeys through this formative stage of life.

**Making Meaning** Jenny L. Small, 2023-07-03 This book addresses religion and secularism as critical and contested elements of college student diversity. It both examines why and how this topic has become an integral aspect of the field of student affairs, and considers how scholars and practitioners should engage in the discussion, as well as the extent to which they should be involved in students' crises of faith, spiritual struggles, and questions of life purpose. Part history of the field, part prognostication for the future, the contributing authors discuss how student affairs has reached this critical juncture in its relationship with religious and secular diversity and why this development is poised to create lasting change on college campuses. Section I of this book focuses on the research on spirituality, faith, religion, and life purpose; considers the evolution of faith development theories from not only Christian perspectives but Muslim, Jewish, atheist and other secular worldviews; examines the influence of faith frames in students' daily lives; and addresses the impact of campus climate for religion/spirituality, as well as the relationship between religious minority/majority status, on student outcomes. It concludes by tracing the pendulum swing from higher education's historical foundation in religion to the science-focused, religion-averse 20th century, and now to a fragile middle position, in which religious and secular diversity are being seriously considered and embraced. Section II analyzes the role professional associations play in advancing the student affairs field's commitment to spirituality, faith and life purpose; the degree of support they offer to practitioners as they examine their own religious and secular identities, and envisages potential new programming, resources, and networks. Section III describes a number of programs and services developed by practitioners and faculty members working in this area on their campuses; synthesizes these developments for an examination of where best practices stand today; and imagines the future of institutionalizing higher education's support for students' explorations of spirituality, faith, religion, and life purpose. *Making Meaning* provides a comprehensive resource for student affairs scholars and practitioners seeking to understand these topics and apply them in their own research and daily work.

**Research Anthology on Challenges for Women in Leadership Roles** Management Association, Information Resources, 2021-03-19 The role of women in the workplace has rapidly advanced and changed within the previous decade, leading to a current position in which women are taking over leadership roles and being offered these positions more than ever before. However, a gap still exists with the representation of women in the workforce especially in power positions and roles of authority in organizations. While the representation of women in leadership roles is impressive and exciting for the future, women still face many challenges when taking over these positions of power and face many issues related to gender inclusivity. There is also still gender bias and discrimination against women who have been given the opportunity to become authority figures. It is essential to acknowledge and discuss these critical issues and challenges that women in leadership roles must handle to better understand the current climate of gender roles across various industries and types of leadership. The *Research Anthology on Challenges for Women in Leadership Roles* discusses the role of women in positions of authority across diverse industries and businesses. By reviewing the biases, struggles, discrimination, and overall challenges of being a woman in a powerful role, women leaders can be better understood for their role in a male-dominated world. This includes topics of concern such as equal treatment, proper implementation of women's policies, social justice activism, discrimination, and sexual harassment in the workplace, and the importance of diversity and empowerment of women in leadership positions with chapters pertaining specifically to African-American, Hispanic, Asian, and Middle Eastern women. This book is ideal for professionals, researchers, managers, executives, leaders, academicians, sociologists, policymakers, and students in fields that include humanities, social sciences, women's studies, gender studies, business management, management science, health sciences, educational studies, and political sciences.

**The Mid-level Manager in Student Affairs** National Association of Student Personnel Administrators (U.S.), 2007

**Exceptional Senior Student Affairs Administrators' Leadership** Gwendolyn Jordan Dungy, Shannon E. Ellis, 2011

**Handbook of Research on Leading Higher Education Transformation With Social Justice, Equity, and Inclusion** Reneau, Clint-Michael, Villarreal, Mary Ann, 2021-06-25 With the resurgence of race-related incidents nationally and on college campuses in recent years, acts of overt racism, hate crimes, controversies over free speech, and violence continue to impact institutions of higher education. Such incidents may impact the overall campus racial climate and result in a racial crisis, which is marked by extreme tension and instability. How institutional leaders and the campus community respond to a racial crisis along with the racial literacy demands of the campus leaders can have as much of an effect as the crisis itself. As such, 21st century university leaders must become more emotionally intelligent and responsive to emergent campus issues. Improving campus climate is hard, and to achieve notable gains, higher education professionals will have to reimagine how they approach this work with equity-influenced practices and transformative leadership. The *Handbook of Research on Leading Higher Education Transformation With Social Justice, Equity, and Inclusion* offers a window into understanding the deep intersections of identity and professional practice as well as guideposts for individual leadership development during contested times. The chapters emphasize how identity manifests in the way we lead, supervise, make decisions, persuade, form relationships, and negotiate responsibilities each day. In this book, the authors provide insight, examples, and personal narratives that explore how their identities, lens, and commitments shaped their leadership and supported their courageous acts for equity and social justice. It provides practical tools that leaders can draw on to inform sustainable equity and inclusion-focused practices and policies on college campuses and will discuss important campus climate issues and ways to address them. This book is a valuable reference work for higher education administrators, policymakers, leaders, managers, university presidents, social justice advocates, practitioners, faculty, researchers, academicians, and students who are interested in higher education leadership practices that support and promote social justice, equity, and inclusion.

**Effective Leadership at Minority-Serving Institutions** Robert T. Palmer, Dina C. Maramba, Andrew T. Arroyo, Taryn Ozuna Allen, Tiffany Fountaine Boykin, John Michael Lee Jr., 2017-07-28 Strong, effective, and innovative leadership is critical for institutions of higher education, especially for Minority-Serving Institutions (MSIs). Indeed, research and examples have shown leadership instability among some types of MSIs, while discussions and research on effective leadership for other MSIs is noticeably absent from the extant literature. In this volume, noted experts, researchers, and leaders discuss opportunities and challenges for leadership across the full range of MSIs, while creating a dialogue on leadership models and best practices. Chapters explore

issues at Historically Black Colleges and Universities (HBCUs), Hispanic Serving Institutions(HSIs), Tribal Colleges and Universities (TCUs), and Asian American and Native American Pacific Islander Serving Institutions (AANAPISIs). This book helps higher education and student affairs scholars and administrators unpack contemporary leadership issues and strategies, and synthesizes best practices to help MSI leaders increase the effectiveness and sustainability of their institutions.
