**Trade Shows Worldwide** Matthew Miskelly,2008-12

*Storm Chaser* David Mayhew,2017-08-15 The beauty of the sky is beyond comprehension. Never the same twice, it makes for unique images that depict a fleeting moment in time. In this book, David Mayhew strives to show the full array of Mother Nature's moods from the color palette and limitless textures that are conjured up. Forecasting for skies, night or day, is as much an art as a science since weather is a living ecosystem, forever evolving. Adapting to its whim, David drifts wherever the wind carries him, feeling out the best light in order to capture an image that ideally depicts sensational displays of beauty. Mayhew's photographs show the dramatic skies of tornadic storms and severe weather, the serenity of a sunset, the fascination of unique formations clouds can conjure up, and the mystery of the mesmerizing northern lights. If the purpose of art is to create an emotional response in the viewer, then surely readers will see why the skies are his muse. -- David Mayhew

As digital print technologies improve offering faster production and larger cost-effective print runs, digital printing will grow to become the technology that provides the majority of the world's printed textiles. This comprehensive introduction to the subject is broken into five sections. After two introductory chapters, it goes on to look in a number of detailed chapters at printer and print head technologies. The next section examines the printer software required for successful colour design and management. The digital printing colouration process is explored next, with chapters on substrate preparation, pigmented ink, aqueous inkjet ink, pre-treatment and printing on cationized cotton with reactive inks. The book is concluded with three chapters on the design and business aspect of digital printing. Digital printing of textiles contains fundamental technical explanations along with recent research, and is an invaluable guide for product developers, retailers, designers and academic researchers.
