A Different Shade of Justice Stephanie Hinnershitz, 2017-08-10 In the Jim Crow South, Chinese, Filipino, Japanese, and, later, Vietnamese and Indian Americans faced obstacles similar to those experienced by African Americans in their fight for civil and human rights. Although they were not black, Asian Americans generally were not considered white and thus were subject to school segregation, antimiscegenation laws, and discriminatory business practices. As Asian Americans attempted to establish themselves in the South, they found that institutionalized racism thwarted their efforts time and again. However, this book tells the story of their resistance and documents how Asian American political actors and civil rights activists challenged existing definitions of rights and justice in the South. From the formation of Chinese and Japanese communities in the early twentieth century through Indian hotel owners' battles against business discrimination in the 1980s and '90s, Stephanie Hinnershitz shows how Asian Americans organized carefully constructed legal battles that often traveled to the state and federal supreme courts. Drawing from legislative and legal records as well as oral histories, memoirs, and newspapers, Hinnershitz describes a movement that ran alongside and at times intersected with the African American fight for justice, and she restores Asian Americans to the fraught legacy of civil rights in the South.

Chocolates on the Pillow Aren't Enough Jonathan M. Tisch, 2007-04-18 Praise for *Chocolates on the Pillow Aren't Enough* Jonathan recognizes that in today's Internet-fed, savvy-consumer world, it is the people-to-people connections, regardless of price point, that differentiate a customer's experience. Gimmicks come and go, but without sincere and caring people delivering the overall experience, from start to finish, well, it's true--chocolates on the pillow are not enough. A great read! —David Neeleman, founder and CEO, JetBlue Airways Corporation If you don't work for your customer, you're not doing your job. Who better to turn to for lessons in great customer experiences than Jonathan Tisch? He has long been one of the most respected leaders in travel and hospitality, and when it comes to treating all customers like guests, to put it simply, he gets it. And then some. —Millard S. Drexler, Chairman and CEO, J. Crew Group What brings customers back to my restaurants? Why do viewers watch my TV show? It's more than Bam! It's delivering a kicked-up customer experience. Tisch is the guy who knows how to do this best. His book gives the inside scoop on how to excite your customers and bring 'em back for more. —Emeril Lagasse Attention to detail, passion, and dedication are a few of the things that made me successful as an athlete. Jonathan knows that by doing the same in business, you maximize the customer's experience and outscore the competition. —Tiki Barber

Citizen You Jonathan Tisch, Karl Weber, 2010-05-04 Just when the world needs it most, a new style of social engagement is emerging: Active Citizenship. A key member of one of New York's most civic-minded families—one that has supported many of America's notable institutions and deserving programs—Jonathan Tisch has devoted a lifetime to “active citizenship.” It's an idea that uses the power of practical creativity and grassroots participation to solve seemingly intractable problems. In *Citizen You*, Tisch challenges readers to join this movement and points the way toward making our world a better place, one person and one neighborhood at a time. Tisch has filled *Citizen You* with accounts of people who you'll meet, such as inspirational individuals as: Scott Harrison, who has used the networking and marketing skills he developed as a night club promoter to help over a million people in the developing world get access for the first time to clean, safe drinking water. Steffi Coplan, whose Broadway2Broadway project brought out the hidden musical talents of kids at an inner city school. Eric Schwarz, who decided to do something about America's under-performing schools, and parlayed a single classroom mentoring project into the nationwide Citizens Schools movement. Chris Swan, who is training a new generation of “citizen engineers” to make sure that the projects they build aren't just structurally sound but also environmentally and socially

sustainable. Dave Nelson, who traded his role as an executive at IBM for a job at a struggling nonprofit that teaches kids about the power of entrepreneurship—and discovered a host of new challenges and rewards in the process. Through these and many other remarkable stories, you'll learn how today's active citizens are transforming thinking about social change. Rather than short-term fixes and hand-me-down charity, they're striving to build sustainable, systemic solutions to our most challenging problems, building and empowering communities rather than fostering dependency. And they're using a host of new tools, from online networking and private-public partnerships to corporate engagement and social entrepreneurship, to redefine how change can happen. Citizen You is a potent antidote to pessimism. At a time of unprecedented challenges on the national and world stage, when active citizenship is not a choice but a necessity, Citizen You dares us to reshape the social, political, and intellectual structures that have long confined us, and offers fresh thinking that redefines the very concept of activism. For more information and ideas about how to be an active citizen go to www.citizenyou.org

Give Your Way to the Top - The Journey of Ambitious Generosity Vipul Dayal,2020-10-02 Perhaps you have heard it said that success is NOT a destination, it's a Journey! Perhaps you have also heard it said that success is never defined by what we achieve for ourselves but, instead, what we do for others. I want to do my part to take you on that journey from the hustle of having to make it on our own to the humility of serving others. If you are like me, you are longing to break free from the neediness to accumulate for your own survival to the abundance of being able to build a house for families in need or actually save another's life! You are reading this book because you want to embark on (or further your progress on) that journey.....from Go-Getter to Go-Giver! Beware, however, of the intoxicating feeling of helping others. It can become addicting...it has for me. That is why I started my own charitable non-profit organization, Charity for Hope. And, it is also why I started my own Facebook Group: Serial Go-Givers! I have a pathological need to serve others...to give back...to show my gratitude for all the blessings I have been given in life...and the many more I have earned. I've organized this journey into 5 stages: Getting, Producing, Leading, Protecting and Giving... - Getting the things we need in order to start... - Producing results with enough excellence to begin...- Leading others to their own excellence/achievements, and anything worth achieving is worth... - Protecting, such as our property/assets/wealth so you can live a lifestyle of worry-free... - Giving! There is nothing greater than to be able to give to others worry-free! This book needs no further introduction. The tips are here and the rest is up to you! Thank you so much for getting this book...and getting even this far on the journey! Now, Tip #1 awaits you!

The People Effect Joel Carver, Mary M. Weber, 2019-04-16 It's All About Your People Over the years, there has been a significant shift in priorities when it comes to the hospitality industry. With every business seeming to focus only on profitability, hotel managers have forgotten about their biggest assets and liabilities--their people. Hotel operators must treat their teams like the great assets they are to the company--not like commodities. In *The People Effect: Find, Grow, and Retain the Best of the Best*, Joel Carver and Mary Weber have worked together to bring you a how-to when it comes to leadership and management. This book isn't just for hotel teams--many businesses may benefit from it. Joel Carver and Mary Weber seek to encourage and empower business owners and those in leadership roles to begin dedicating the same attention and care to their people that they have previously dedicated to brick and mortar assets and line items on profit and loss statement sheets. If you want to see a positive change in your business, this is the book for you.

Great American Hoteliers Stanley Turkel, 2009 During the thirty years prior to the Civil War, Americans built hotels larger and more ostentatious than any in the rest of the world. These hotels were inextricably intertwined with American culture and customs but were accessible to average citizens. As Jefferson Williamson wrote in *The American Hotel* (Knopf 1930), hotels were perhaps the most distinctively American of all our institutions for they were nourished and brought to flower solely in American soil and borrowed practically nothing from abroad. Development of hotels was stimulated by the confluence of travel, tourism and transportation. In 1869, the transcontinental railroad engendered hotels by Henry Flagler, Fred Harvey, George Pullman and Henry Plant. The Lincoln Highway and the Interstate Highway System triggered hotel development by Carl Fisher, Ellsworth Statler, Kemmons Wilson and Howard Johnson. The airplane stimulated Juan Trippe, John Bowman, Conrad Hilton, Ernest Henderson, A.M. Sonnabend and John Hammons.. My research into the lives of these great hoteliers reveals that none of them grew up in the hospitality business but became successful through their intense on-the-job experiences. My investigation has uncovered remarkable and startling true stories about these pioneers, some of whom are well-known and others who are lost in the dustbin of history.

The Power of We Jonathan M. Tisch, Karl Weber, 2004-08-27 Praise for *The Power of We* In *The Power of We*, Jonathan Tisch reminds us again that working together still yields the best results. Jon has spent a lifetime mobilizing people and organizations to get a job done in business and in civic service. His experience, optimism, intelligence, and common sense are reflected in this fresh look at the rewards of partnerships. -President Bill Clinton *The Power of We* offers a clear and compelling lesson in how today's business leaders can create new synergies and gain competitive advantage by learning how to partner successfully. -Kenneth I. Chenault, Chairman and CEO, American Express Company Jon Tisch has lived the strategy he describes in *The Power of We*, and now this extraordinary man and successful leader shares his strategy with us. Building partnerships at all levels-

social, intellectual, and political, as well as entrepreneurial-will be one of the keys to progress in the coming decades. Jon Tisch provides a road map for those who grasp that reality. -John Sexton, President, New York University Being a leader requires vision, focus, and influence. Jonathan Tisch has exhibited all three in this great body of work about what it takes to be a partner and something bigger than yourself. The Power of We is a must read. - Pat Riley, President, the Miami HEAT

New Perspectives on the Indian Diaspora Ruben Gowricharn, 2021-07-23 This book critically examines new perspectives on the transformations in the Indian diaspora. It studies the changing perspectives on the historical background of the diaspora and analyses fresh and emerging views in response to new configurations in diaspora relations. The volume highlights the transformation of the old Indian diaspora into a new ensemble in which economic, ideological and cultural forces predominate and interact closely. It looks at various themes including Indian indentured emigration to sugar colonies, comparisons between labour migration from India and China, the Girmitya diaspora, the Indian diaspora in Africa and the rise of racial nationalism, India's soft power in the Gulf region, and the repurposing of the 'Hindutva' idea of India for Western societies as undertaken by diaspora communities. Lucid and topical, this book will be useful for scholars and researchers of diaspora studies, migration studies, political studies, international relations, globalisation, political sociology, sociology and South Asia studies.

Hospitality Law Stephen C. Barth, Diana S. Barber, 2017-04-17 Hospitality Law: Managing Legal Issues in the Hospitality Industry, Fifth Edition takes an applied approach to the study of hospitality law with its touchstone of compliance and prevention. The book is highly pedagogical and includes many interactive exercises and real world cases that help students focus on the practical application of hospitality laws and model their decision process to avoid liability. As a result, this book does look different than others on the market as the legal information contained is carefully selected to specifically correlate with helping students understand how to do the right thing, i.e., it is not a comprehensive book on the laws. Barth immediately helps readers learn about the legalities of situations and work through exercises – both individually and in groups -- to effectively apply them to hospitality management situations. Many instructors teach their course from a very applied perspective, which aligns with Barth's approach.

Built to Last Stanley Turkel, Stanley Turkel Cmhs Ishc, 2011 Built to Last: 100+ Year-Old Hotels East of the Mississippi is a sequel to my 2011 book, Built To Last: 100+ Year-Old Hotels in New York. It has 86 chapters, one for each century-old hotel (of 50 rooms or more) east of the Mississippi River and each is illustrated by an antique postcard. The Foreword was written by Joseph McInerney, CHA, President of the American Hotel & Lodging Association. The book has been accepted for promotion, distribution and sale by the American Hotel & Lodging Educational Institute. My research into the histories of these hotels turned up fascinating stories about single-minded developers, brilliant and accidental architects, dedicated owners, famous and infamous guests and even the story of an underground bunker-shelter the size of two football fields built under a hotel to house the U.S. Government in the event of a nuclear war.

Routledge Handbook of South Asian Religions Knut A. Jacobsen, 2020-11-29 The Routledge Handbook of South Asian Religions presents critical research, overviews, and case studies on religion in historical South Asia, in the seven nation states of contemporary South Asia: India, Pakistan, Bangladesh, Nepal, Bhutan, Sri Lanka, and the Maldives, and in the South Asian diaspora. Chapters by an international set of experts analyse formative developments, roots, changes and transformations, religious practices and ideas, identities, relations, territorialisation, and globalisation in historical and contemporary South Asia. The Handbook is divided into two parts which first analyse historical South Asian religions and their developments and second contemporary South Asia religions that are influenced by both religious pluralism and their close connection to nation states and their ideological power. Contributors argue that religion has been used as a tool for creating nations as well as majorities within those nations in South Asia, despite their enormous diversity, in particular religious diversity. The Handbook explores these diversities and tensions, historical developments, and the present situation across religious traditions by utilising an array of approaches and from the point of view of various academic disciplines. Drawing together a remarkable collection of leading and emerging scholars, this handbook is an invaluable research tool and will be of interest to researchers and students in the fields of Asian religion, religion in context, and South Asian religions.
