Between Sisters Adwoa Badoe,2010-09-01 A poignant and frank novel set in Ghana, told from the point of view of a disarmingly forthright teenaged girl. When sixteen-year-old Gloria fails thirteen out of fifteen subjects on her final exams, her future looks bleak indeed. Her family's resources are meager so the entire family is thrilled when a distant relative, Christine, offers to move Gloria north to Kumasi to look after her toddler son. In exchange, after two years, Christine will pay for Gloria to go to school. Life in Kumasi is more grand than anything Gloria has ever experienced. She joins a youth band at church and Christine has even promised to teach her to read. But Kumasi is also full of temptations -- the owner of a popular clothing shop encourages her to buy on credit, and the smooth-talking Dr. Kusi offers Gloria rides in his sports car. Eventually Gloria is betrayed by the people around her and is disillusioned by her new life. But in the end she decides who she can trust, and draws on her own considerable inner resources to put the bad experiences behind her. Practitioner's Guide to Global Investigations Judith Seddon,2018-01-19 There's never been a greater likelihood a company and its key people will become embroiled in a cross-border investigation. But emerging unscarred is a challenge. Local laws and procedures on corporate offences differ extensively - and can be contradictory. To extricate oneself with minimal cost requires a nuanced ability to blend understanding of the local law with the wider dimension and, in particular, to understand where the different countries showing an interest will differ in approach, expectations or conclusions. Against this backdrop, GIR has published the second edition of The Practitioner's Guide to Global Investigation. The book is divided into two parts with chapters written exclusively by

leading names in the field. Using US and UK practice and procedure, Part I tracks the development of a serious allegation (whether originating inside or outside a company) - looking at the key risks that arise and the challenges it poses, along with the opportunities for its resolution. It offers expert insight into fact-gathering (including document preservation and collection, witness interviews); structuring the investigation (the complexities of cross-border privilege issues); and strategising effectively to resolve cross-border probes and manage corporate reputation. Part II features detailed comparable surveys of the relevant law and practice in jurisdictions that build on many of the vital issues pinpointed in Part I.

Introduction to Law Firm Practice Michael P. Downey, 2010 For both the law student and young lawyer, this guide provides an introduction to the basics of working in a law firm. It discusses how a lawyer can get around within the firm to succeed in law firm practice.

2018 ISEP International Code Council, 2018 The ISEP meets the industry's need for a resource that contains the complete solar energy-related provisions from the 2018 International Codes and NFPA 70: 2017 NEC National Electrical Code, and selected standards in one document. The ISEP is organized such that it provides the best and most comprehensive tool for the design, installation and administration of both solar thermal (or solar heating and cooling) and photovoltaic systems. Similar to the organization of the International Energy Conservation Code (IECC), the Solar Commercial and Residential provisions have been presented in separate parts, to make it user friendly and easy to apply. Three important solar referenced standards have been included in their entirety: Solar Rating & Certification Corporation (SRCC) Standard 100 (Minimum Standards for Solar Thermal Collectors); SRCC Standard 300 (Minimum Standards for Solar Water Heating Systems); and SRCC Standard 600 (Minimum Standards for Solar Thermal Concentrating Collectors). Additional resources, such as sample solar permitting forms and links to the U.S. Department of Energy solar site access, have also been included, making this 2018 ISEP the single, most comprehensive document for solar energy code provisions and standards in the nation.

----- There are four characteristics of a radical CPA: -- 1. Their approach to technology. -- 2. Their use of social media. -- 3. Their understanding the relationship between pricing and value. -- 4. And their conviction that customer experience must drive a firm's internal processes. They Call Them The 'Radical' Practitioners There's an uprising of innovative CPAs in the accounting profession. This group created a new support community that is no longer driven by the establishment. The establishment can't control the conversation. In fact, they almost missed it. Now they endorse and support us. But it didn't

begin with them. When Jody Padar first started doing this, she wasn't aware of anyone doing what she was doing. Then she went to Twitter. That's where she really met her peers. They were learning from each other from day one and that same community of support is still happening today. A radical practitioner is a person that calls upon himself and others to redefine their firms and their lives by moving away from the traditional firm business model. The term radical applies because what they are doing to their firms and indirectly to the profession is fundamental to its core. It's abrupt, disruptive, unexpected, and far reaching. They are shaking up the status quo. They are changing because their customers and the world are changing around us all. Some might also perceive radical to be a negative term. It's not. The movement is more likely following the happy expression, that's radical, dude. Everyone can learn and join the movement. The Radical CPA Community Is Here To Help You Be Radical, Too The best part about these radical professionals is that we believe in abundance. We promote and celebrate a new way of doing business and encourage the rest of the profession to move forward and change as a whole. *** Save! The Soul of Enterprise Ronald J Baker, Ed Kless, 2015-02-26 The world's economy has been transformed from a twentieth-century materials-based economy to the Age of the Knowledge-Based Economy - and the currency of this realm is ideas, imagination, creativity, and knowledge. According The World Bank, 80% of the developed world's wealth now resides in human capital. Perhaps President Ronald Reagan said it best in his address to Moscow State University on May 31, 1988: Like a chrysalis, we're emerging from the economy of the Industrial Revolution - an economy confined and limited by the Earth's physical resources - into, as one economist titled his book, the economy in mind, in which there are no bounds on human imagination and the freedom to create is the most precious natural resource. Written by Ronald Baker and Ed Kless, hosts of The Soul of Enterprise: Business in the Knowledge Economy, the popular radio show on Voice America's Business Channel, The Soul of Enterprise: Dialogues on Business in the Knowledge Economy sounds the clarion call that organizations can no longer ignore this seismic shift that has occurred in the economy since 1959. The Soul of Enterprise introduces the three components of Intellectual Capital - human capital, social capital, and structural capital - and how to leverage them to create wealth in today's economy, by revealing: The physical fallacy - why wealth no longer consists of tangible things, but of ideas, imagination and knowledge from human minds The best learning tool ever invented: After Action Reviews Why Frederick Taylor and the Scientific Management movement was a fraud and the wrong focus for knowledge workers The fact that effectiveness always and everywhere trumps efficiency The First Law of Pricing: All value is subjective The Second Law of Pricing: All prices are contextual The Morality of Markets: Doing well and doing good Why your organization - and you - need to be driven by a higher purpose than profit The Soul of Enterprise will inspire and challenge readers to unlock the enormous financial and competitive power hidden in the intellectual capital of their organizations and knowledge workers.
