Nursing Adolescents and Young Adults with Cancer Pia Riis Olsen,Sam Smith,2018-05-30 This book describes and explains how caring for adolescents and young adults with cancer (AYA) has developed into what is now a recognized and distinct field of nursing practice. It captures current innovative nursing practices and interventions which have developed over the past 25 years across the globe and are supported by research and evidence achieved in many European and international oncology settings. By outlining and describing educational needs of the AYA cancer nursing profession, this book supports its education and professional development for the nursing profession and serves to develop and disseminate nurses' competencies worldwide. During the last decade, AYA have gained increased attention in healthcare. Today, it is recognized that AYA with cancer have distinct needs that are different to both children and older adults. Young people are in a unique developmental and transitional phase of their lives; thus, their treatment, perspectives and experiences have been addressed in research and the body of knowledge is growing accordingly. Some books are available that describe AYA cancer care, service delivery and aspects of age appropriate care but this volume will be the first to focus on how nurses contribute to AYA cancer care in practice. It will appeal to the AYA clinical nurses in cancer care, as well as to multidisciplinary healthcare professionals and healthcare professionals who support formal nursing education programmes, training and development in practice.

A Literary History of Mississippi Lorie Watkins,2017-05-31 With contributions by: Ted Atkinson, Robert Bray, Patsy J. Daniels, David A. Davis, Taylor Hagood, Lisa Hinrichsen, Suzanne Marrs, Greg O'Brien, Ted Ownby, Ed Piacentino, Claude Pruitt, Thomas J. Richardson, Donald M. Shaffer, Theresa M. Towner, Terrence T. Tucker, Daniel Cross Turner, Lorie Watkins, and Ellen Weinauer Mississippi is a study in contradictions. One of the richest states when the Civil War began, it emerged as possibly the poorest and remains so today. Geographically diverse, the state encompasses ten distinct landform regions. As people traverse these, they discover varying accents and divergent outlooks. They find pockets of inexhaustible wealth within widespread, grinding poverty. Yet the most illiterate, disadvantaged state has produced arguably the nation's richest literary legacy. Why Mississippi? What does it mean to write in a state of such extremes? To write of racial and economic relations so contradictory and fraught as to defy any logic? Willie Morris often quoted William Faulkner as saying, "To understand the world, you must first understand a place like Mississippi." What Faulkner (or more likely Morris) posits is that Mississippi is not separate from the world. The country's fascination with Mississippi persists because the place embodies the very conflicts that plague the nation. This volume examines indigenous literature, Southwest humor, slave narratives, and the literature of the Civil War. Essays on modern and contemporary writers and the state's changing role in southern studies look at more recent literary trends, while essays on key individual authors offer more information on luminaries including Faulkner, Eudora Welty, Richard Wright, Tennessee Williams, and Margaret Walker. Finally, essays on autobiography, poetry, drama, and history span the creative breadth of Mississippi's literature. Written by literary scholars closely connected to the state, the volume offers a history suitable for all readers interested in learning more about Mississippi's great literary tradition.

Tumors in Adolescents and Young Adults E. Beghi,G. Logroscino,2016-09-05 The field of adolescents and young adult (AYA) oncology is experiencing a very challenging time. This book is a guide to the key issues for any clinician and health professional managing AYA with cancer in Europe. Emphasis is on collaboration between adult and pediatric specialists. Authors present their perception of the current state of the most prominent primary issues in AYA oncology. It is of interest to those establishing or seeking to improve AYA services as well as those already caring for AYA cancer patients. Among topics discussed are incidence trends and treatment pathways, access to clinical trials for adolescents, transition from pediatric to adult services, psychological support and social care as well as survivorship and fertility. This book is of value of those establishing new services, those developing an existing service and those whose work includes the care of AYA patients. *Deconstructing Eurocentric Tourism and Heritage Narratives in Mexican American Communities* Frank G. Perez, Carlos F. Ortega, 2019-09-24 This book attempts to dismantle the unfounded Eurocentric view of US-born and immigrant Mexican peoples, that groups together the identities of Latinx, Chicana, and other indigenous peoples of the Southwest into Hispanics whose contributions to the cultural, historical, and social development of the Southwest are marginalized or made non-existent. The narrative and performative legacies that tourism and fantasy heritage produce are promulgated and consumed by both Latinx and non-Latinx peoples and cultures. This book endeavors to expose these productions through analysis of on-the-ground resistance in the service and spirit of intercultural dialogue and change. This book will offer a precise set of recommendations for breaking away from these practices and thus forming new, veritable identities. With a strongly heritage-oriented discourse, this book on deconstructing Eurocentric representation of Mexican people and their culture will appeal to academics and scholars of heritage tourism, Chicano studies, Southwest studies and Native American studies courses.

*International Handbook on Adolescent Health and Development* Andrew L. Cherry, Valentina Baltag, Mary E. Dillon, 2016-11-21 This comprehensive reference uses an ecological perspective to sort out the complex mix of biological, psychological, social, and other factors influencing adolescent health as well as shaping professional responses to the needs of adolescents. Describing critical concerns at the global level and innovative strategies from selected countries, the book urges readers to develop and support practices and policies to enhance optimal youth development. Expert coverage centers on key areas: the global state of adolescent health and development, adolescent health issues and public health answers, making health systems more responsive to youth, and improving school health services. And bedrock themes such as social determinants of health, young people's right to health care, and health and gender disparities are discussed throughout these chapters. Included among the topics: • The epidemiology of adolescent health • Adolescent sexual health and sexuality education • Restorative justice and the mental wellbeing of adolescents • Critical issues in adolescent nutrition: needs and recommendations • Towards an adolescent competent workforce • Pairing children with health services: the changing role of school health services in the 21st century The *International Handbook on Adolescent Health and Development* is essential to medical schools, public schools, and college libraries; teaching faculty; graduate and post-graduate students in public health, medicine, social work, other behavioral sciences and health disciplines (e.g., nursing, allied health); as well as practitioners interested in better orienting their services to the health needs of adolescents.

*Architecture and Labor* Peggy Deamer, 2020-04-07 Through a collection of 13 chapters, Peggy Deamer examines the profession of architecture not as an abstraction, but as an assemblage of architectural workers. What forces prevent architects from empowering ourselves to be more relevant and better rewarded? How can these forces be set aside by new narratives, new organizations and new methods of production? How can we sit at the decision-making table to combat short-term real estate interests for longer-term social and ethical value? How can we pull architecture—its conceptualization, its pedagogy, and its enactment—into the 21st century without succumbing to its neoliberal paradigm? In addressing these controversial questions, *Architecture and Labor* brings contemporary discourses on creative labor to architecture, a discipline devoid of labor

consciousness. This book addresses how, not just what, architects produce and focuses not on the past but on the present. It is sympathetic to the particularly intimate way that architects approach their design work while contextualizing that work historically, institutionally, economically, and ideologically. *Architecture and Labor* is sure to be a compelling read for pre-professional students, academics, and practitioners.

**Quit Like a Woman** Holly Whitaker, 2019-12-31 NEW YORK TIMES BESTSELLER • “An unflinching examination of how our drinking culture hurts women and a gorgeous memoir of how one woman healed herself.”—Glennon Doyle, #1 New York Times bestselling author of *Untamed* “You don’t know how much you need this book, or maybe you do. Either way, it will save your life.”—Melissa Hartwig Urban, Whole30 co-founder and CEO The founder of the first female-focused recovery program offers a groundbreaking look at alcohol and a radical new path to sobriety. We live in a world obsessed with drinking. We drink at baby showers and work events, brunch and book club, graduations and funerals. Yet no one ever questions alcohol’s ubiquity—in fact, the only thing ever questioned is why someone doesn’t drink. It is a qualifier for belonging and if you don’t imbibe, you are considered an anomaly. As a society, we are obsessed with health and wellness, yet we uphold alcohol as some kind of magic elixir, though it is anything but. When Holly Whitaker decided to seek help after one too many benders, she embarked on a journey that led not only to her own sobriety, but revealed the insidious role alcohol plays in our society and in the lives of women in particular. What’s more, she could not ignore the ways that alcohol companies were targeting women, just as the tobacco industry had successfully done generations before. Fueled by her own emerging feminism, she also realized that the predominant systems of recovery are archaic, patriarchal, and ineffective for the unique needs of women and other historically oppressed people—who don’t need to lose their egos and surrender to a male concept of God, as the tenets of Alcoholics Anonymous state, but who need to cultivate a deeper understanding of their own identities and take control of their lives. When Holly found an alternate way out of her own addiction, she felt a calling to create a sober community with resources for anyone questioning their relationship with drinking, so that they might find their way as well. Her resultant feminine-centric recovery program focuses on getting at the root causes that lead people to overindulge and provides the tools necessary to break the cycle of addiction, showing us what is possible when we remove alcohol and destroy our belief system around it. Written in a relatable voice that is honest and witty, *Quit Like a Woman* is at once a groundbreaking look at drinking culture and a road map to cutting out alcohol in order to live our best lives without the crutch of intoxication. You will never look at drinking the same way again.

**Libraries, Literacy, and African American Youth** Sandra Hughes-Hassell, Pauletta Brown Bracy, Casey H. Rawson, 2016-10-31 This important book is a call to action for the library community to address the literacy and life outcome gaps impacting African American youth. It provides strategies that enable school and public librarians to transform their services, programs, and collections to be more responsive to the literacy strengths, experiences, and needs of African American youth. According to National Assessment of Educational Progress (NEAP), only 18 percent of African American fourth graders and 17 percent of African American eighth graders performed at or above proficiency in reading in 2013. This book draws on research from various academic fields to explore the issues surrounding African American literacy and to aid in developing culturally responsive school and library programs with the goal of helping to close the achievement gap and improve the quality of life for African American youth. The book merges the work of its three authors along with the findings of other researchers and practitioners, highlighting exemplary programs, such as the award-winning Pearl Bailey Library Program, the Maker Jawn initiative at the Free Library of Philadelphia, and the Blue Ribbon Mentor Advocate writing institute in the Chapel Hill-Carrboro City Schools, among others. Readers will understand how these culturally responsive programs put theory and research-based best practices into local action and see how to adapt them to meet the needs of their communities.
