*Democracy and Reform in the Middle East and Asia* Amin

Saikal, Amitav Acharya, 2013-12-23 The protests that swept across the Middle East and North Africa in late 2010 and 2011 confounded long-time observers of the region, in both the media and academia. After addressing the conditions in the Middle East and North Africa that produced these attempts at revolution, Amin Saikal and Amitav Acharya explore the global impact of the protests, both in terms of their ideological influence on opposition groups and the prospects for democratic transition in a variety of authoritarian and semi-authoritarian governments. *Democracy and Reform in the Middle East and Asia* commences with a comprehensive attempt to understand the cultural, economic and political background out of which the uprisings in Egypt, Tunisia and Libya emerged. It then expands outwards investigating the impact of the Arab uprisings on a regional level in other Middle Eastern and north African states such as Iran, Morocco and Algeria, and on a more global level in the Asian states of China, Malaysia, Singapore, Indonesia and the former Soviet Muslim republics. Saikal and Acharya bring a global perspective to the still-unfolding wave of calls for more meaningful political participation, which continues to make itself felt in the Middle East, to shed light upon the ideal role of both regional and international actors in promoting sustainable transitions from authoritarianism to democracy. This book not only offers explanations for why certain countries were more susceptible to the spread of the uprisings in the Middle East and North Africa, but also contrasts the organic and grassroots vehicles for democratization characteristic of the most recent Arab uprisings with the Western model of externally imposed regime change to illustrate the conditions necessary for a successful democratic transition. Touching on perennial issues in politics - for example, democracy, authoritarian rule and social protest - this book is vital for researchers of politics and international relations.

Moulite, 2019-09-03 "I couldn't put Dear Haiti, Love Alaine down!"  
—New York Times bestselling author Jasmine Guillory "An enchanting and engrossing novel full of wit and laughter."  
—Edwidge Danticat, author of *Breath, Eyes, Memory* "Remarkable, funny, and whip-smart." —Ibi Zoboi, author of *American Street*, National Book Award finalist "Maika and Maritza Moulite have created quite the masterpiece." —NPR.org "Alaine's sarcastic quips...are worth the price of admission alone." —HYPERBAE "A beautiful story from start to finish." —Buzzfeed Alaine Beauparlant has heard about Haiti all her life... But the stories were always passed down from her dad—and her mom, when she wasn't too busy with her high-profile newscaster gig. But when Alaine's life goes a bit sideways, it's time to finally visit Haiti herself. What she learns about Haiti's proud history as the world's first black republic (with its even prouder people) is one thing, but what she learns about her own family is another. Suddenly, the secrets Alaine's mom has been keeping, including a family curse that has spanned generations, can no longer be avoided. It's a lot to handle, without even mentioning that Alaine is also working for her aunt's nonprofit, which sends underprivileged kids to school and boasts one annoyingly charming intern. But if anyone can do it all...it's Alaine. "Delightful." —Essence magazine "Alaine Beauparlant is YA's new favorite heroine." —Author Nina Moreno for Bustle "Seamlessly blending story lines and allusions to Haiti's history and culture, the authors create an indelible, believable character in Alaine—naive, dynamic, and brutally honest—who stretches and grows as her remarkable, affectingly rendered family relationships do." —Publishers Weekly (starred review) "Sisters Maika and Maritza Moulite deliver a phenomenal coming-of-age story with this stunning novel." —Booklist (starred review) "Enchanting." —Kirkus Reviews Winner of a Parent's Choice Award!

Columbia Crew Survival Investigation Report Nasa,2009 NASA commissioned the Columbia Accident Investigation Board (CAIB) to conduct a thorough review of both the technical and the organizational causes of the loss of the Space Shuttle Columbia and her crew on February 1, 2003. The accident investigation that followed determined that a large piece of insulating foam from Columbia's external tank (ET) had come off during ascent and struck the leading edge of the left wing, causing critical damage. The damage was undetected during the mission. The Columbia accident was not survivable. After the Columbia Accident Investigation Board (CAIB) investigation regarding the cause of the accident was completed, further consideration produced the question of whether there were lessons to be learned about how to

improve crew survival in the future. This investigation was performed with the belief that a comprehensive, respectful investigation could provide knowledge that can protect future crews in the worldwide community of human space flight. Additionally, in the course of the investigation, several areas of research were identified that could improve our understanding of both nominal space flight and future spacecraft accidents. This report is the first comprehensive, publicly available accident investigation report addressing crew survival for a human spacecraft mishap, and it provides key information for future crew survival investigations. The results of this investigation are intended to add meaning to the sacrifice of the crew's lives by making space flight safer for all future generations.

McCaughey, 2014-04-16 Cyberactivism already has a rich history, but over the past decade the participatory web—with its decentralized information/media sharing, portability, storage capacity, and user-generated content—has reshaped political and social change. *Cyberactivism on the Participatory Web* examines the impact of these new technologies on political organizing and protest across the political spectrum, from the Arab Spring to artists to far-right groups. Linking new information and communication technologies to possibilities for solidarity and action—as well as surveillance and control—in a context of global capital flow, war, and environmental crisis, the contributors to this volume provide nuanced analyses of the dramatic transformations in media, citizenship, and social movements taking place today.
