Even young maids should study this Kama Sutra along with its arts and sciences before marriage, and after it they should continue to do so with the consent of their husbands. Kama Sutra is an ancient Indian text widely considered to be the standard work on human sexual behavior in Sanskrit literature written by Vātsyāyana. A portion of the work consists of practical advice on sexual intercourse. Contrary to popular perception, especially in the western world, Kama sutra is not exclusively a sex manual; it presents itself as a guide to a virtuous and gracious living that discusses the nature of love, family life and other aspects pertaining to pleasure oriented faculties of human life. Sir Richard Francis Burton (1821–1890) was a British explorer, geographer, translator and diplomat. Burton's best-known achievements include a well-documented journey to Mecca, in disguise; an unexpurgated translation of One Thousand and One Nights (commonly called The Arabian Nights in English); the publication of the Kama Sutra in English and an expedition with J. H. Speke to discover the source of Nile. The Kama Sutra of Vatsyayana Vatsyayana, 2021-08-29 The Kama Sutra of Vatsyayana Vatsyayana - The Kama Sutra of Vatsyayana by Richard Francis Burton is an edition of the ancient Indian text on sexuality and emotional needs. Vatsayana was an ancient Indian philosopher who lived during the second or third century. Although it is often thought of as a sex manual, it is much more, with guides on living well, the nature of love, and finding a partner. Indeed, Vatsyayana says himself: 'This work is not to be used merely as an instrument for satisfying our desires'. Burton did not in fact translate the Kama Sutra - it was translated by the Indian scholar Bhagwan Lal Indraji. It was edited by Burton to suit prevailing British attitudes to sex, but was still banned in England and the United States until 1962. Other criticisms levelled at Burton's translation is that instead of using English words for the sex organs, he uses the words 'lingam' and 'yoni', despite those words not appearing in the original work. This was seen as an attempt to distance them and make them 'other', rather than about

English people's sexual organs. He also removes the agency of women, and where in the original, women's words are direct quotes, in the Burton translation, women's words are removed and put into the passive state (i.e., A woman saying 'Stop!' becomes 'She continually utters words expressive of prohibition'). Despite all this, it has been such an influential translation that even modern editions in the Hindi language are re-translations of the Burton version. The Kama Sutra is an ancient Indian Hindu text widely considered to be the standard work on human sexual behavior in Sanskrit literature written by Vaatsyayana. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. Kama which is one of the four goals of Hindu life, means desire including sexual desire the latter being the subject of the textbook, and sutra literally means a thread or line that holds things together, and more metaphorically refers to an aphorism (or line, rule, formula), or a collection of such aphorisms in the form of a manual. Contrary to popular perception, especially in the western world, Kama sutra is not exclusively a sex manual; it presents itself as a guide to a virtuous and gracious living that discusses the nature of love, family life and other aspects pertaining to pleasure oriented faculties of human life.

Kamasutra With Ancient & Modern Illustrations Vatsyayana,2016-04-14 Man should study the Kama Sutra and the arts and sciences subordinate thereto, in addition to the study of the arts and sciences contained in Dharma and Artha. Even young maids should study this Kama Sutra along with its arts and sciences before marriage, and after it they should continue to do so with the consent of their husbands. Here some learned men object, and say that females, not being allowed to study any science, should not study the Kama Sutra. But Vatsyayana is of opinion that this objection does not hold good, for women already know the practice of Kama Sutra, and that practice is derived from the Kama Shastra, or the science of Kama itself. Moreover, it is not only in this but in many other cases that though the practice of a science is known to all, only a few persons are acquainted with the rules and laws on which the science is based. Thus the Yadnikas or sacrificers, though ignorant of grammar, make use of appropriate words when addressing the different Deities, and do not know how these words are framed. Again, persons do the duties required of them on auspicious days, which are fixed by astrology, though they are not acquainted with the science of astrology. In a like manner riders of horses and elephants train these animals without knowing the science of training animals, but from practice only. And similarly the people of the most distant provinces obey the laws of the kingdom from practice, and because there is a king over them, and without further reason.[11] And from experience we find that some women, such as daughters of princes and their ministers, and public women, are actually versed in the Kama Shastra.
