Dowson,G. Dalmaz,T.H.C. Childs,C.M. Taylor,M. Godet,1992-08-04 The Leeds-Lyon symposia have well established themselves in the tribological calendar. Industrial progress requires a better understanding of interfacial phenomena than now exists and it is exciting to see that the topics addressed in these proceedings volumes are at the forefront of progress in tribological research. These proceedings contain 61 papers written by authors from all over the world, covering the entire spectrum of wear particles. Of particular interest is the detailed consideration of a wide range of particle formations and detachments, as well as a close look at the physics and chemistry of the wear of mechanisms, together with other in-depth state-of-the-art analytical contributions.

**Funerary Arts and Tomb Cult** Suzanne G. Lindsay, 2012 This book sheds new light on the interplay of the funerary arts, tomb cult and the mentalities that shaped them in France, over a period famous for profound and often violent change. Using previously untouched archival sources and period published material, this study proposes new and vital contexts for nineteenth-century France's celebrated funerary projects, often profoundly reinterpreting them, and brings to light significant enterprises that are little known today.

*Funerary Arts and Tomb Cult* Suzanne Glover Lindsay, 2017-07-05 Even before the upheaval of the Revolution, France sought a new formal language for a regenerated nation. Nowhere is this clearer than in its tombs, some among its most famous modern sculpture—rarely discussed as funerary projects. Unlike other art-historical studies of tombs, this one frames sculptural examples within the full spectrum of the material funerary arts of the period, along with architecture and landscape. This book further widens the standard scope to shed new and needed light on the interplay of the funerary arts, tomb cult, and the mentalities that shaped them in France, over a period famous

for profound and often violent change. Suzanne Glover Lindsay also brings the abundant recent work on the body to the funerary arts and tomb cult for the first time, confronting cultural and aesthetic issues through her examination of a celebrated sculptural type, the recumbent effigy of the deceased in death. Using many unfamiliar period sources, this study reinterprets several famous tombs and funerals and introduces significant enterprises that are little known today to suggest the prominent place held by tomb cult in nineteenth-century France. Images of the tombs complement the text to underline sculpture's unique formal power in funerary mode.

*A Kingdom of Images* Peter Fuhling,Louis Marchesano,Remi Mathis,Vanessa Selbach,2015-06-18 Once considered the golden age of French printmaking, Louis XIV's reign saw Paris become a powerhouse of print production. During this time, the king aimed to make fine and decorative arts into signs of French taste and skill and, by extension, into markers of his imperialist glory. Prints were ideal for achieving these goals; reproducible and transportable, they fueled the sophisticated propaganda machine circulating images of Louis as both a man of war and a man of culture. This richly illustrated catalogue features more than one hundred prints from the Getty Research Institute and the Bibliothèque nationale de France in Paris, whose print collection Louis XIV established in 1667. An esteemed international group of contributors investigates the ways that cultural policies affected printmaking; explains what constitutes a print; describes how one

became a printmaker; studies how prints were collected; and considers their reception in the ensuing centuries. *A Kingdom of Images* is published to coincide with an exhibition on view at the Getty Research Institute from June 18 through September 6, 2015, and at the Bibliothèque nationale de France in Paris from November 2, 2015, through January 31, 2016.
