Ella Fitzgerald J. Wilfred Johnson,2010-08-05 Ella Fitzgerald was one of America's greatest jazz singers. This volume is as complete a discography of her recorded songs as currently seems possible to compile. This volume also contains a complete discography (1927-1939) for drummer and bandleader Chick Webb, with whom Ella began her recording career in 1935. Part One includes a chronological listing of all known recorded performances of both Chick Webb and Ella. Part Two gives the complete contents of Ella's LPs and CDs, including track listings, titles (with lyricists and composers) and timings. Part Three is an annotated alphabetical listing of all songs contained on all of Fitzgerald's records, with detailed information on each song's composer, lyricist, and history. Reviews of the movies in which Ella appeared and surveys of her career with the Decca, Verve and Pablo music companies are included. The book also has an index of album and CD recordings, and composers, lyricists and musicians.

Chicago Top 40 Charts 1960-1969 Ronald Smith,2001-08 Music charts have been around as long as recorded music and radio programs from Your Hit Parade to American Top 40 have capitalized on the idea of counting down the day's top hits. Chicago Top 40 Charts 1960-1969 documents those songs that dominated the Midwestern airwaves during that decade- considered by many to be top 40's golden age. Many of the songs listed did not appear at all on the national charts. Others, including local acts, fared much better in Chicago than in the rest of the country. Chicago Top 40 Charts 1960-1969 contains an alphabetical listing by title and by artist of every tune listed on the WLS Silver Dollar Surveys during those years. It also lists the top 40 songs of each year and for the entire decade, as well as a supplemental listing of songs on the station's Rhythm-and-Blues chart of 1964. For those who grew up listening to radio in the Windy City as well as for record collectors from anywhere, Chicago Top 40 Charts 1960-1969 will be a valued addition to any music reference library.

The Music and Life of Theodore "Fats" Navarro Leif Bo Petersen,Theo Rehak,2009-08-24 The Music and Life of Theodore 'Fats' Navarro: Infatuation is the first comprehensive study of the jazz trumpeter Theodore 'Fats' Navarro. It provides biographical and discographical information on this talented musician, whose premature death from tuberculosis at 26 robbed the jazz world of his brilliance. Through an analysis of his recorded legacy, this book offers new perspectives on Navarro's role in the history and emergence of Bebop. Through years of study and collecting ephemera, some of which is reprinted here, Leif Bo Petersen and Theo Rehak depict an inclusive history of Navarro and his music. Their information is based on interviews with musicians and people in the music business, contemporary newspaper and magazine articles, and the music itself, which has not been commonly known or described until now. The book features images, musical examples, and depictions of Navarro's recordings, and it provides several appendixes, including explanations of contemporary recording techniques and discographical terms, lists of Navarro's recordings and compositions, and a chronological overview of Navarro's performances, recording sessions, and engagements. Complete with a comprehensive list of sources and a full index, this volume presents a host of new and useful information for anyone interested in jazz and its history.

Theology, Music and Time Jeremy S. Begbie,2000-07-24 Theology, Music and Time aims to show how music can enrich and advance theology, extending our wisdom about God and God's ways with the world. Instead of asking: what can theology do for music?, it asks: what can music do for theology? Jeremy Begbie argues that music's engagement with time gives the theologian invaluable resources for understanding how it is that God enables us to live 'peaceably' with time as a dimension of the created world. Without assuming any specialist knowledge of music, he explores a wide range of musical phenomena - rhythm, metre, resolution, repetition, improvisation - and through them opens up some of the central themes of the Christian faith - creation, salvation, eschatology, time and eternity, Eucharist, election and ecclesiology. He shows that music can not only refresh theology with new models, but also release it from damaging habits of thought which have hampered its work in the past.
