**Autonomous Driving** Markus Maurer, J. Christian Gerdes, Barbara Lenz, Hermann Winner, 2016-05-21 This book takes a look at fully automated, autonomous vehicles and discusses many open questions: How can autonomous vehicles be integrated into the current transportation system with diverse users and human drivers? Where do automated vehicles fall under current legal frameworks? What risks are associated with automation and how will society respond to these risks? How will the marketplace react to automated vehicles and what changes may be necessary for companies? Experts from Germany and the United States define key societal, engineering, and mobility issues related to the automation of vehicles. They discuss the decisions programmers of automated vehicles must make to enable vehicles to perceive their environment, interact with other road users, and choose actions that may have ethical consequences. The authors further identify expectations and concerns that will form the basis for individual and societal acceptance of autonomous driving. While the safety benefits of such vehicles are tremendous, the authors demonstrate that these benefits will only be achieved if vehicles have an appropriate safety concept at the heart of their design. Realizing the potential of automated vehicles to reorganize traffic and transform mobility of people and goods requires similar care in the design of vehicles and networks. By covering all of these topics, the book aims to provide a current, comprehensive, and scientifically sound treatment of the emerging field of "autonomous driving."

**The Stone House** Marita Conlon-McKenna, 2014-09-30 Everything changes for Kate, Moya and Romy when they receive word that Maeve Dillon, their mother, is critically ill. It is time to return from Dublin, London and New York to Rossmore and the old stone house overlooking the Irish Sea where they grew up. But ancient jealousies surface as each sister confronts the past and the decisions they have made. For work-driven Kate it is time to take stock of her role as a high-flying ambitious lawyer and single parent; life is a battle between work and looking after Molly with little time for a proper relationship. Even Patrick, the man she once fell for, has ended up marrying her sister. Beautiful and intense Moya must take a hard look at her marriage to the charming but unfaithful Patrick and consider her own worth. For wild child Romy who has travelled the world and hasn't put a foot on Irish soil for years, it is time to finally stop running and find the courage to confront her family. A good and caring mother, Maeve Dillon has somehow over the years labelled each of her three daughters: Moya the beautiful, Kate the brains, and Romy, the bold and wild one. Now it is finally time for all three to break out of the box.

*Agency Perception and Moral Values Related to Autonomous Weapons* Ilse Verdiesen, 2021-10-18 The deployment of Autonomous Weapons gives rise to ongoing debate in society and at the United Nations, in the context of the Convention on Certain Conventional Weapons. Yet little empirical research has been done on this topic. This volume fills that gap by offering an empirical study based on military personnel and civilians working at the Dutch Ministry of Defence. It yields insight into how Autonomous Weapons are perceived by the military and general public; and which moral values are considered important in relation to their deployment. The research approach

used is the Value-Sensitive Design (VSD) method that allows for the consideration of human values throughout the design process of technology. The outcome indicates that military personnel and civilians attribute more agency (the capacity to think and plan) to an Autonomous Weapon than to a Human Operated Drone. In addition, it is clear that common ground exists between military and societal groups in their perception of the values of human dignity and anxiety. These two values arise often in the discourse, and addressing them is essential when considering the ethics of the deployment of Autonomous Weapons. The text of this volume is also offered in parallel French and German translation.

**Self-Care for the Real World** Nadia Narain, Katia Narain Phillips, 2017-12-28 \_\_\_\_\_ THE TOP TEN BESTSELLER 'Unusually practical, non-patronising and authentic. Think Marie Kondo for the mind' Sunday Times Wellness pioneers Nadia Narain and Katia Narain Phillips have spent decades helping others to feel their best. But it took them a bit longer to learn to care for themselves. Here they share the small, achievable steps they picked up on a lifetime's journey towards self-care, and how you can apply them to your life, wherever you are. Right now, you may be deep in the waves of life, being tossed around. Learning self-care is like building your own life boat, plank by plank. Once you've got your boat, you'll still be rocked by the same waves, but you'll have a feeling of safety, and a stability that means you can pick other people up on your way.

The Sand Creek Massacre Stan Hoig, 2013-02-27 Sometimes called The Chivington Massacre by those who would emphasize his responsibility for the attack and The Battle of Sand Creek by those who would imply that it was not a massacre, this event has become one of our nation's most controversial Indian conflicts. The subject of army and Congressional investigations and inquiries, a matter of vigorous newspaper debates, the object of much oratory and writing biased in both directions, the Sand Creek Massacre very likely will never be completely and satisfactorily resolved. This account of the massacre investigates the historical events leading to the battle, tracing the growth of the Indian-white conflict in Colorado Territory. The author has shown the way in which the discontent stemming from the treaty of Fort Wise, the depredations committed by the Cheyennes and Arapahoes prior to the massacre, and the desire of some of the commanding officers for a bloody victory against the Indians laid the groundwork for the battle at Sand Creek.

*Europe Under Napoleon* Michael Broers, 2014-11-18 Napoleon Bonaparte dominated the public life of Europe like no

other individual before him. Not surprisingly, the story of the man himself has usually swamped the stories of his subjects. This book looks at the history of the Napoleonic Empire from an entirely new perspective – that of the ruled rather than the ruler. Michael Broers concentrates on the experience of the people of Europe – particularly the vast majority of Napoleon's subjects who were neither French nor willing participants in the great events of the period – during the dynamic but short-lived career of Napoleon, when half of the European continent fell under his rule.

*Participatory Health Research* Michael T. Wright, Krystyna Kongats, 2018-10-10 This groundbreaking resource explores core issues in participatory health research (PHR) and traces its global emergence as a force for improving health and well-being, healthcare services, and quality of life. International perspectives showcase the varied roles of PHR in addressing urgent local health problems in their specific public health and sociocultural contexts. Among the topics covered: Demonstrating impact in participatory health research Reviewing the effectiveness of participatory health research: challenges and possible solutions Kids in Action–participatory health research with children Participatory health research: an Indian perspective Participatory health research in Latin America: scientific production on chronic diseases Participatory health research in North America: from community engagement to evidence-informed practice Participatory Health Research benefits those teaching and learning about participatory health research at institutions of higher education and in community settings, addressing diverse fields including health promotion and disease prevention, medicine and public health, quality of life, social work, and community development.

Stimme und Schrift Alfred Messerli, Waltraud Wiethölter, Hans Georg Pott, 2008 Im Gegensatz zur Schriftkultur, die in den letzten zwei Jahrzehnten zum Thema zahlreicher Arbeiten geworden ist, hat die Erforschung der sekundären Mündlichkeit bislang noch kaum begonnen, geschweige denn von einem interdisziplinären Ansatz, wie ihn der vorliegende Band präsentiert, profitieren können. In einer Zeit, in der sich die 'Schrift' als Leitmedium der Gesellschaft etabliert, bekunden Dichter und Denker eine Erfahrung des Verlustes an Nähe und Unmittelbarkeit (Präsenz). Gegen Orientierungs- und Bindungsverlust sowie Einsamkeitserfahrungen werden kompensatorisch die Stimme

(Reden, Vorlesen und Hören) und die gesellige Kommunikation unter Anwesenden beschworen. Mit der Durchsetzung der elektronischen Funkmedien im späten 19. Jahrhundert (Telefon, Radio) und im späten 20. Jahrhundert dem Internet verändert sich die Situation jeweils ein weiteres Mal.

**Reinventing Organizations** Fr?d?ric Laloux, 2014 The way we manage organizations seems increasingly out of date. Deep inside, we sense that more is possible. We long for soulful workplaces, for authenticity, community, passion, and purpose. In this groundbreaking book, the author shows that every time, in the past, when humanity has shifted to a new stage of consciousness, it has achieved extraordinary breakthroughs in collaboration. A new shift in consciousness is currently underway. Could it help us invent a more soulful and purposeful way to run our businesses and nonprofits, schools and hospitals? A few pioneers have already cracked the code and they show us, in practical detail, how it can be done. Leaders, founders, coaches, and consultants will find this work a joyful handbook, full of insights, examples, and inspiring stories.--Page [4] of cover.
