Shadow Strike Yaakov Katz,2019-05-07 A 2019 National Jewish Book Award Finalist At the top of my reading list. –Alan Dershowitz, professor emeritus at Harvard Law School Reads like an international thriller, but it is actually a compelling factual day-by-day (and sometimes hour-by-hour) account of an incident of acute threat and decisive action by the Jewish state.... –Jonathan Kirsch, Jewish Journal Review The never-before-told inside story of how Israel stopped Syria from becoming a global nuclear nightmare—and its far-reaching implications On September 6, 2007, shortly after midnight, Israeli fighters advanced on Deir ez-Zour in Syria. Israel often flew into Syria as a warning to President Bashar al-Assad. But this time, there was no warning and no explanation. This was a covert operation, with one goal: to destroy a nuclear reactor being built by North Korea under a tight veil of secrecy in the Syrian desert. Shadow Strike tells, for the first time, the story of the espionage, political courage, military might and psychological warfare behind Israel's daring operation to stop one of the greatest known acts of nuclear proliferation. It also brings Israel's powerful military and diplomatic alliance with the United States to life, revealing the debates President Bush had with Vice President Cheney and Israeli Prime Minister Ehud Olmert as well as the diplomatic and military planning that took place in the Oval Office, the Prime Minister's Office in Jerusalem, and inside the IDF's underground war room beneath Tel Aviv. These two countries remain united in a battle to prevent nuclear proliferation, to defeat Islamic terror, and to curtail Iran's attempts to spread its hegemony throughout the Middle East. Yaakov Katz's Shadow Strike explores how this operation continues to impact the world we live in today and if what happened in 2007 is a sign of what Israel will need to do one day to stop Iran's nuclear program. It also asks: had Israel not carried out this mission, what would the Middle East look like today?

Dining with al-Qaeda Hugh Pope,2010-03-16 Following in the footsteps of Sir Richard Burton and Lawrence of Arabia, Hugh Pope presents his modern-day explorations, mined from more than three decades, of the politics, religion, and aspirations of Muslim peoples to show how the Middle East is much more than a monolithic Islamic World. An Oxford-educated scholar of the Middle East and acclaimed former foreign correspondent for The Wall Street Journal, Pope has lived and worked in two dozen countries throughout the region. In eighteen revealing chapters, he delves into the amazingly varied cultures ranging from the south of Sudan to Afghanistan and from Islamabad to Istanbul. His probing and often perilous journeys--at one point during a meeting with an al-Qaeda missionary, Pope is forced to quote Koranic verse to argue against his own murder--provide an eye-opening look at diverse societies often misportrayed by superficial reporting and why they hate us politics. With intimate and personal anecdotes arising out of experiences from war fronts to bazaars to the palaces of kings, Pope weaves a rich narrative that embraces art, food, poetry, customs, and the competing histories of the Middle East. Merging the traditions of the classics Balkan Ghosts and From Beirut to Jerusalem, Dining with al-Qaeda illuminates an infinitely complex part of the world. With U.S. foreign policy aiming to engage more constructively with Muslim nations, this lyrical book of adventures collects some of the truly important untold stories of our times.

Bad Reputation Stefanie London,2018-08-07 Delightfully fresh. Stefanie London delivers all the feels.—LAUREN LAYNE, New York Times bestselling author for Bad Bachelor It's true, Wes is well-endowed. But everything else is a huge misunderstanding... Wes Evans, son of Broadway royalty, just wants to achieve something without riding his family's coattails. Too bad the whole world is talking about his sex life after the notorious Bad Bachelors app dubs him The Anaconda. But when he sees a talented ballet dancer, he knows she is exactly what he needs to make his show a success. Remi Drysdale only had one thought when she fled Australia for New York—never mix business with pleasure again. Ever. Working with Wes is the perfect chance to reclaim her career. Remi promises herself not to tangle with the guy who holds her career in his hands...no matter how enticing his reviews are on the Bad Bachelors app. Bad Bachelors Series: Bad Bachelor (Book 1) Bad Reputation (Book 2) Readers are raving about Stefanie London's Bad Bachelor: Completely original. My #1 romance read of the year!—JENNIFER BLACKWOOD, USA Today bestselling author Genuinely entertaining and memorable.—Booklist STARRED Review Elegant, descriptive and delectable.—RT Book Reviews, 4.5 Stars TOP PICK

The Legend of Charlemagne Jace Stuckey,2021 There are few historical figures in the Middle Ages that cast a larger shadow than Charlemagne. This volume brings together a collection of studies on the Charlemagne legend from a wide range of fields, not only adding to the growing corpus of work on this legendary figure, but opening new avenues of inquiry by bringing together innovative trends that cross disciplinary boundaries. This collection expands the geographical frontiers, and extends the chronological scope beyond the Middle Ages from the heart of Carolingian Europe to Spain, England, and Iceland. The Charlemagne found here is one both familiar and strange and one who is both celebrated and critiqued. Contributors are Jada Bailey, Cullen Chandler, Carla Del Zotto, William Diebold, Christopher Flynn,

Ana Grinberg, Elizabeth Melick, Jace Stuckey, and Larissa Tracy--

Scientific Babel Michael D. Gordin, 2015-04-13 English is the language of science today. No matter which languages you know, if you want your work seen, studied, and cited, you need to publish in English. But that hasn't always been the case. Though there was a time when Latin dominated the field, for centuries science has been a polyglot enterprise, conducted in a number of languages whose importance waxed and waned over time—until the rise of English in the twentieth century. So how did we get from there to here? How did French, German, Latin, Russian, and even Esperanto give way to English? And what can we reconstruct of the experience of doing science in the polyglot past? With *Scientific Babel*, Michael D. Gordin resurrects that lost world, in part through an ingenious mechanism: the pages of his highly readable narrative account teem with footnotes—not offering background information, but presenting quoted material in its original language. The result is stunning: as we read about the rise and fall of languages, driven by politics, war, economics, and institutions, we actually see it happen in the ever-changing web of multilingual examples. The history of science, and of English as its dominant language, comes to life, and brings with it a new understanding not only of the frictions generated by a scientific community that spoke in many often mutually unintelligible voices, but also of the possibilities of the polyglot, and the losses that the dominance of English entails. Few historians of science write as well as Gordin, and *Scientific Babel* reveals his incredible command of the literature, language, and intellectual essence of science past and present. No reader who takes this linguistic journey with him will be disappointed.

Computational Contact Mechanics Peter Wriggers, Tod A. Laursen, 2008-04-01 Topics of this book span the range from spatial and temporal discretization techniques for contact and impact problems with small and finite deformations over investigations on the reliability of micromechanical contact models over emerging techniques for rolling contact mechanics to homogenization methods and multi-scale approaches in contact problems.

Pharmaceutical Patents in Europe Bengt Domeij, 2021-10-25 The pharmaceutical industry and patent legislation are inextricably linked. Pharmaceutical companies could not exist without some guarantee that they can recoup the cost of developing a new product. European patent law offers this opportunity, as it allows companies to exclude competition for a specific product for a fixed time scale. In *Pharmaceutical Patents in Europe* the current legal patent situation is examined by a detailed analysis of case law from the European Patent Office (EPO), the international body created with the signing of the European Patent Convention (EPC). Aspects of European patent law not primarily regulated in the EPC, for example Supplementary Protection Certificates and infringement matters, are examined in the setting provided by EC law and domestic laws of European states. This book is written for the reader who understands the main characteristics of patent law and is looking for a practitioner's text on the European pharmaceutical patent law scene. Moreover, the author's remarks can help all readers to look at the field with fresh eyes.

Reputation Capital Joachim Klewes, Robert Wreschniok, 2009-10-13 • ... release reputation bearers from the burden of being constantly monitored and reduce the likelihood of government or public supervision and control. • ... strengthen client trust, ease the recruitment and retention of capable employees and improve access to capital markets or attract investors. • ... legitimate positions of power and build up reserves of trust which - lowered companies and politicians – but also researchers and journalists – to put their issues on the public agenda, present them credibly and mould them in their own interests. But a fear of loss is not the only reason for the steadily increasing importance of reputation in corporate management today (or more especially, in the minds of top management). Rather, the main reason is that corporate reputation has shifted from being an unquantifiable 'soft' factor to a measurable indicator in the sense of management control. And it is a variable that is obviously relevant to a company's performance: recent studies by the European Centre for Reputation Studies and the Ludwig-Maximilians-Universität of Munich compared the stock market performance of a portfolio of the top 25% of reputation leaders (based on regular reputation measurements in the wider public) with that of the German DAX 30 stock market index. The results show that a portfolio consisting of reputation leaders 1 outperformed the stock market index by up to 45% – and with less risk. Fig. 1. Performance of 'reputation portfolios' vs.

Gender Change in Academia Birgit Riegraf, Brigitte Aulenbacher, Edit Kirsch-Auwärter, Ursula Müller, 2010-07-15 Editors' Foreword The fundamental changes currently taking place in the national and international science landscapes can no longer be overlooked. Within those changes, reforms do not go 'as planned' but, as is always the case with processes of rationalization, have a series of unintended effects. At the same time it becomes increasingly clear who in this process are the winners and who are the losers, although this is still subject to fluctuation and change. This can be illustrated by two examples from current events: Where the range of taught courses is concerned, as part of the Bologna Process the new structuring of student study paths and their organisation is aimed at unifying the European area of science to ensure a study that is equally permissive and efficient. However, it is to be deplored that the mobility of students has become more restricted because of an increasing specialisation in the available study paths. Also, bachelor degrees do not meet with the anticipated high response from the labour market in all countries, so that the master's degree is becoming more or less a 'must', while at the same time the number of study places on master's courses is limited. Instead of the intended reduction in the duration of study time in comparison to the previous German 'Magister' and 'Diplom', rather a prolongation in the duration of studies has been recorded.
