Fear Thy Neighbor Lorenzo Vidino, Francesco Marone, Eva Entenmann, 2017-09-11 Over the last three years Europe and North America have been hit by an unprecedented wave of terrorist attacks perpetrated by individuals motivated by jihadist ideology. Who are the individuals who have carried out these attacks? Were they born and raised in the West? Or were they an "imported threat", refugees and migrants? How did they radicalize? Were they well educated and integrated, or social outcasts? Did they act alone? What were their connections to the Islamic State? The answers to these and other questions have large implications for our understanding of the threat facing us and, consequently, help us design sounder policy solutions built on empirical evidence. This study, the first of its kind, seeks to analyze the demographic profile, radicalization trajectories and connections to the Islamic State of all the individuals who have carried out attacks inspired by jihadist ideology in North America and Europe in the three years since the proclamation of the caliphate in June 2014.

**Safety and Ethics in Healthcare: A Guide to Getting it Right** Professor Alan Merry, Professor Merrilyn Walton, Professor Bill Runciman, 2012-10-01 A single coherent source of information on the various interlinking domains of patient safety, litigation and ethical behaviour, based on accounts of real-life situations and intended for all healthcare students, specialists and administrators.

**Développement territorial durable : renforcement des relations intersectorielles** Council of Europe, 2003-01-01 L'aménagement du territoire joue un rôle important dans le renforcement des relations intersectorielles. Mais, la diversité de l'environnement, des valeurs culturelles, et des caractéristiques nationales et ethniques est un atout majeur en Europe qu'il convient de préserver et de mettre en valeur dans le contexte de la mondialisation. Il est tout aussi important de réduire les disparités entre pays, régions et communes d'Europe en matière de qualité de vie, de perspectives économiques, de prospérité et de niveau de développement. La question de l'accès aux services essentiels - accès à l'eau potable, assainissement des eaux usées, collecte et traitement des déchets, transport public, construction durable - dans ce contexte prend ici toute son importance. Ouvrage en anglais et en français.

Sport in Iceland Vidar Halldorsson, 2017-04-07 Iceland is a tiny Nordic nation with a population of just 330,000 and no professional sports leagues, and yet its soccer, basketball and handball teams have all qualified for major international tournaments in recent years. This fascinating study argues that team sport success is culturally produced and that in order to understand collective achievement we have to consider the socio-cultural context. Based on unparalleled access to key personnel, including top coaches, athletes and administrators, the book explores Icelandic cultural capital as a factor in sporting success, from traditions of workmanship, competitive play and teamwork to international labour migration and knowledge transfer. The first book to focus specifically on the socio-cultural aspects of a small nation's international sporting success, this is an original and illuminating contribution to the study of the sociology of sport. Sport in Iceland: How small nations achieve international success is fascinating reading for team sport enthusiasts, coaches, managers and organisers, as well

as for any student or scholar with an interest in the sociology of sport, strategic sports development, sports policy or sports administration.

Early Childhood Environment Rating Scale (ECERS-3) Thelma Harms, Richard M. Clifford, Debby Cryer, 2014-11-01 The long-anticipated new version of the internationally recognized Early Childhood Environment Rating Scale®, ECERS-3, focuses on the full range of needs of preschool- and kindergarten-aged children. This widely used, comprehensive assessment tool measures both environmental provisions and teacher-child interactions that affect the broad developmental needs of young children, including: Cognitive Social-emotional Physical Health and safety ECERS-3 also includes additional Items assessing developmentally appropriate literacy and math activities. Designed for preschool, kindergarten, and child care classrooms serving children 3 through 5 years of age, ECERS-3: Provides a smooth transition for those already using ECERS-R. Emphasizes the role of the teacher in creating an environment conducive to developmental gains. Is designed to predict child outcomes more accurately and with greater precision. Provides a stronger method of distinguishing between good and truly excellent programs. Offers a complete training program with ongoing support available at the Environment Rating Scales Institute (ERSI) website ([www.ersi.info](http://www.ersi.info)). ECERS-3 is appropriate for state and district-wide QRIS and continuous improvement; program evaluation by directors and supervisors; teacher self-evaluation; monitoring by agency staff; and teacher education. The established reliability and long term evidence of validity of the ERS family of instruments make this new version of ECERS particularly useful for RTTT-ELC accountability and research. Suitable for use in inclusive and culturally diverse programs, ECERS-3 subscales evaluate: Space and Furnishings Personal Care Routines Language and Literacy Learning Activities Interaction Program Structure

**Das 1 x 1 der Präsentation** Karl-Christof Renz, 2016-02-26 Dieses Buch zeigt auf unterhaltsame Weise auch dem bisher Unerfahrenen, wie eine Präsentation pragmatisch vorbereitet und mit medialer Unterstützung durchgeführt werden kann. Behandelt werden graphische Gestaltung, Lern- und Arbeitstechniken sowie Gesprächsführung und Rhetorik. Berücksichtigt werden dabei Aspekte der Disziplinen Arbeitswissenschaft und Psychologie. Aber auch Kenntnisse wissenschaftlichen Arbeitens, z.B. Quellensuche, Quellenbewertung und Zitieren, sowie statistische Grundkenntnisse gehören zu einer Präsentation, insbesondere in wissenschaftlichen Bereichen. Die Fähigkeit, professionell zu präsentieren, ist nicht nur in der Praxis, sondern auch in der Wissenschaft grundlegend. Der Autor ist überzeugt: Mit dem richtigen Handwerkszeug kann jeder lernen zu präsentieren - und das kann sogar Spaß machen. Die zweite Auflage wurde überarbeitet und erweitert.

*Interthinking: Putting Talk to Work* Karen Littleton, Neil Mercer, 2013-08-15 Through using spoken language, people are able to think creatively and productively together. This ability to 'interthink' is an important product of our evolutionary history that is just as important for our survival today. Many kinds of work activity depend on the success of groups or teams finding joint solutions to problems. Creative achievement is rarely the product of solitary endeavour, but of people working within a collective enterprise. Written in an accessible and jargon-free

style, *Interthinking: putting talk to work* explores the growing body of work on how people think creatively and productively together. Challenging purely individualistic accounts of human evolution and cognition, its internationally acclaimed authors provide analyses of real-life examples of collective thinking in everyday settings including workplaces, schools, rehearsal spaces and online environments. The authors use socio-cultural psychology to explain the processes involved in interthinking, to explore its creative power, but also to understand why collective thinking isn't always productive or successful. With this knowledge we can maximise the constructive benefits of our ability to interthink, and understand the best ways in which we can help young people to develop, nurture and value that capability. This book will be of great interest to academic researchers, postgraduates and undergraduates on Education and Psychology courses and to practicing teachers. It will also appeal to anyone with an interest in language, creativity and the role of psychology in everyday life.

Design Research in Education Arthur Bakker, 2018-07-06 *Design Research in Education* is a practical guide containing all the information required to begin a design research project. Providing an accessible background to the methodological approaches used in design research as well as addressing all the potential issues that early career researchers will encounter, the book uniquely helps the early career researcher to gain a full overview of design research and the practical skills needed to get their project off the ground. Based on extensive experience, the book also contains multiple examples of design research from both undergraduate and postgraduate students, to demonstrate possible projects to the reader. With easy to follow chapters and accessible question and response sections, *Design Research in Education* contains practical advice on a wide range of topics related to design research projects including: The theory of design research, what it entails, and when it is suitable The formulation of research questions How to structure a research project The quality of research and the methodological issues of validity and reliability How to write up your research The supervision of design research. Through its theoretical grounding and practical advice, *Design Research in Education* is the ideal introduction into the field of design based research and is essential reading for bachelor's, master's and PhD students new to the field, as well as to supervisors overseeing projects that use design research.

**Expanding Our Now** Harrison Owen, 2011-08-22 *Open Space Technology (OST)* is an effective, economical, fast, and easily repeatable strategy for organizing meetings of between 5 and 1,000 participants. First developed in 1984, it has now been used around the world with all types of organizations including corporations, community groups, government agencies, schools, and churches. OST produces better meetings and helps groups achieve such organizational goals as self-managed work groups, distributed leadership, and utilizing diversity quickly and without training. In *Expanding Our Now*, OST creator Harrison Owen offers numerous examples to illustrate the evolution of OST and explores what it is, how it developed as a process for meeting management, and how and why it works all over the world, for groups of all sizes dealing with a vast range of issues. Owen shows how OST can move organizations to higher levels of performance, without elaborate training or professional facilitators.--Jacket of

Participatory Health Research Michael T. Wright, Krystyna Kongats, 2018-10-10 This groundbreaking resource explores core issues in participatory health research (PHR) and traces its global emergence as a force for improving health and well-being, healthcare services, and quality of life. The PHR approach is defined as including community members, health practitioners, and decision-makers as co-researchers, using local knowledge to reduce disparities in care, advocate for responsive health policy, and accelerate positive change in society as a whole. The book's first half surveys themes essential to the development of the field, including evaluating PHR projects, training professionals in conducting PHR, and the ambitious work of the International Collaboration for Participatory Health Research. International perspectives showcase the varied roles of PHR in addressing urgent local health problems in their specific public health and sociocultural contexts. Among the topics covered: Demonstrating impact in participatory health research Reviewing the effectiveness of participatory health research: challenges and possible solutions Kids in Action-participatory health research with children Participatory health research: an Indian perspective Participatory health research in Latin America: scientific production on chronic diseases Participatory health research in North America: from community engagement to evidence-informed practice Participatory Health Research benefits those teaching and learning about participatory health research at institutions of higher education and in community settings, addressing diverse fields including health promotion and disease prevention, medicine and public health, quality of life, social work, and community development.

**The Power of Spirit** Harrison H. Owen, 2000-07-31 Forms and transforms in people, they become strong, focused, and vibrant-and wonderful things can happen. But when the spirit is down, nothing else seems to make a difference-because not too much happens. Many of us today find ourselves trapped in just such organizations. The spirit in our workplace, to say nothing of our own spirit, is getting a little tattered, showing the early stages of what Harrison Owen calls Soul Pollution. Those in the advanced stages may find themselves plagued by exhaustion, high levels of stress, and the abuse of just about anything in sight, including spouses, substances, and fellow workers. So what is the secret to transforming organizations? The answer, says Owen, is simple: we must consciously be what we already are-natural, open, self-organizing systems. In *The Power of Spirit*, Owen examines the world of Spirit/Consciousness in organizations and offers help to those who find themselves dreading another day on the job in an organization seemingly bent on its own destruction, as well as the destruction of its members. He draws from what we are now learning about self-organizing systems to provide a practical application to the world of organizations, revealing the ways in which Spirit shows up in new, emergent organizational forms. Widely known for his Open Space Technology-a broadly used meeting management tool-Owen now pushes well beyond that surface appreciation and suggests deeper applications and implications, showing how what has been experienced in a typical great meeting with Open Space can actually be a 365-day-a-year reality. For all those interested in Spirit

and spirituality, particularly in the workplace, individuals who are feeling down and out and buried by Soul Pollution in the workplace, and for current practitioners of Open Space Technology who are wondering what comes after a great meeting-The Power of Spirit will offer a pathway to positive transformation.

**The Spirit of Leadership** Harrison Owen,1999-03-26 The business world is desperate for leaders. Books and courses on leadership flood the market as companies search in vain for that one person who can make sense of their rapidly changing environment through assertiveness, charisma, and control. According to noted consultant Harrison Owen, our inability to locate such a person isn't the fault of our leaders, it's the fault of our expectations. In today's world where chaos is normal and paradoxes can't be resolved, such old-style leaders no longer offer the solution. Today's world requires inspired leadership from all levels of the organization. Inspired leadership literally means in-spirited leadership, and this book explores the intimate connection between spirit and leadership it implies. It presents the radical notion that spirit is the most important ingredient of any organization and that leadership means opening space for that spirit to show up in powerful and productive ways. The Spirit of Leadership lays out the New Rules of Leadership, rules which surprisingly turn0l organizations have always played by. For the keys to these new rules, the book turns to those who have always successfully operated apart from the levers of formal power and authority-women. Offering lessons from effective female strategies, it reveals the true functions of leadership: to evoke, grow, sustain, comfort, and raise the spirit. Not to be confused with morale building, motivational techniques, or even the current fad of spirituality in business, The Spirit of Leadership digs deeper to show that, at its essence, leadership is our link to deep inner forces. It provides practical steps readers can use to uncover their own capacity for leadership in whatever position they find themselves, and to exercise that capacity both to enhance the performance of their organizations and to find their own fulfillment as complete human beings.

**Cross Reality and Data Science in Engineering** Michael E. Auer,Dominik May,2020-08-20 Today, online technologies are at the core of most fields of engineering and society as a whole . This book discusses the fundamentals, applications and lessons learned in the field of online and remote engineering, virtual instrumentation, and other related technologies like Cross Reality, Data Science & Big Data, Internet of Things & Industrial Internet of Things, Industry 4.0, Cyber Security, and M2M & Smart Objects. Since the first Remote Engineering and Virtual Instrumentation (REV) conference in 2004, the event has focused on the use of the Internet for engineering tasks, as well as the related opportunities and challenges. In a globally connected world, interest in online collaboration, teleworking, remote services, and other digital working environments is rapidly increasing. In this context, the REV conferences discuss fundamentals, applications and experiences in the field of Online and Remote Engineering as well as Virtual Instrumentation. Furthermore, the conferences focus on guidelines and new concepts for engineering education in higher and vocational education institutions, including emerging technologies in learning, MOOCs & MOOLs, and open resources. This book presents the proceedings of REV2020 on "Cross Reality and Data Science in Engineering" which was held as the 17th in series of annual events. It was organized in

cooperation with the Engineering Education Transformations Institute and the Georgia Informatics Institutes for Research and Education and was held at the College of Engineering at the University of Georgia in Athens (GA), USA, from February 26 to 28, 2020.

**Sacred Hoops: Spiritual Lessons of a Hardwood Warrior** Phil Jackson, Hugh Delehanty, 2010 One of the most successful coaches in NBA history, Phil Jackson provides an inside look at the higher wisdom of teamwork with Sacred Hoops -- Jackson's philosophy of mindful basketball and his life-long quest to bring enlightenment to the competitive world of professional sports. A new paradigm of leadership based on Eastern and Native American principles, Jackson's approach flies in the face of the egoistic, winner-take-all attitude that has changed the face of American sports. Rather than winning through intimidation, Jackson -- who describes himself as a Zen Christian -- stresses awareness, compassion and most of all selfless team play. Filled with stories about Michael Jordan, Scottie Pippen, Toni Kukoc and other members of the Bulls ...

Reinventing Organizations Fr  ric Laloux, 2014 The way we manage organizations seems increasingly out of date. Deep inside, we sense that more is possible. We long for soulful workplaces, for authenticity, community, passion, and purpose. In this groundbreaking book, the author shows that every time, in the past, when humanity has shifted to a new stage of consciousness, it has achieved extraordinary breakthroughs in collaboration. A new shift in consciousness is currently underway. Could it help us invent a more soulful and purposeful way to run our businesses and nonprofits, schools and hospitals? A few pioneers have already cracked the code and they show us, in practical detail, how it can be done. Leaders, founders, coaches, and consultants will find this work a joyful handbook, full of insights, examples, and inspiring stories.--Page [4] of cover.

**Engineering Education 4.0** Sulamith Frerich, Tobias Meisen, Anja Richert, Marcus Petermann, Sabina Jeschke, Uwe Wilkesmann, A. Erman Tekkaya, 2017-04-12 This book presents a collection of results from the interdisciplinary research project "ELLI" published by researchers at RWTH Aachen University, the TU Dortmund and Ruhr-Universit  t Bochum between 2011 and 2016. All contributions showcase essential research results, concepts and innovative teaching methods to improve engineering education. Further, they focus on a variety of areas, including virtual and remote teaching and learning environments, student mobility, support throughout the student lifecycle, and the cultivation of interdisciplinary skills.

Island Rivers John R. Wagner, Jerry K. Jacka, 2018-06-19 Anthropologists have written a great deal about the coastal adaptations and seafaring traditions of Pacific Islanders, but have had much less to say about the significance of rivers for Pacific island culture, livelihood and identity. The authors of this collection seek to fill that gap in the ethnographic record by drawing attention to the deep historical attachments of island communities to rivers, and the ways in which those attachments are changing in response to various forms of economic development and social change. In addition to making a unique contribution to Pacific island ethnography, the authors of this volume speak to a global set of issues of immense importance to a world in which water scarcity, conflict, pollution and the degradation of riparian environments afflict growing numbers of people.

Several authors take a political ecology approach to their topic, but the emphasis here is less on hydro-politics than on the cultural meaning of rivers to the communities we describe. How has the cultural significance of rivers shifted as a result of colonisation, development and nation-building? How do people whose identities are fundamentally rooted in their relationship to a particular river renegotiate that relationship when the river is dammed to generate hydro-power or polluted by mining activities? How do blockages in the flow of rivers and underground springs interrupt the intergenerational transmission of local ecological knowledge and hence the ability of local communities to construct collective identities rooted in a sense of place?
