The Business of iPhone App Development Dave Wooldridge, Michael Schneider, 2010-08-26 The phenomenal success of the iPhone and the iPod touch has ushered in a “gold rush” for developers, but with well over 100,000 apps in the highly competitive App Store, it has become increasingly difficult for new apps to stand out in the crowd. Invisible Life E. Lynn Harris,2012-11-28 The re-issue of a remarkable first novel by a young, gay, black author who fashioned a deeply moving and compelling coming of age story out of the highly controversial issues of bisexuality and AIDS. Law school, girlfriends, and career choices were all

part of Raymond Tyler's life, but there were other, more terrifying issues for him to confront. Being black was tough enough, but Raymond was becoming more and more conscious of sexual feelings that he knew weren't right. He was completely committed to Sela, his longtime girlfriend, but his attraction to Kelvin, whom he had met during his last year in law school, had become more than just a friendship. Fleeing to New York to escape both Sela and Kelvin, Raymond finds himself more confused than ever before. New relationships--both male and female--give him enormous pleasure but keep him from finding the inner peace and lasting love he so desperately desires. The horrible illness and death of a friend eventually force Raymond, at last, to face the truth.

No Higher Honor Condoleezza Rice, 2011-11-01 From one of the world's most admired women, this is former National Security Advisor and Secretary of State Condoleezza Rice's compelling story of eight years serving at the highest levels of government. In her position as America's chief diplomat, Rice traveled almost continuously around the globe, seeking common ground among sometimes bitter enemies, forging agreement on divisive issues, and compiling a remarkable record of achievement. A native of Birmingham, Alabama who overcame the racism of the Civil Rights era to become a brilliant academic and expert on foreign affairs, Rice distinguished herself as an advisor to George W. Bush during the 2000 presidential campaign. Once Bush was elected, she served as his chief adviser on national-security issues – a job whose duties included harmonizing the relationship between the

Secretaries of State and Defense. It was a role that deepened her bond with the President and ultimately made her one of his closest confidantes. With the September 11, 2001, terrorist attacks, Rice found herself at the center of the Administration's intense efforts to keep America safe. Here, Rice describes the events of that harrowing day – and the tumultuous days after. No day was ever the same. Additionally, Rice also reveals new details of the debates that led to the war in Afghanistan and then Iraq. The eyes of the nation were once again focused on Rice in 2004 when she appeared before the 9-11 Commission to answer tough questions regarding the country's preparedness for – and immediate response to – the 9-11 attacks. Her responses, it was generally conceded, would shape the nation's perception of the Administration's competence during the crisis. Rice conveys just how pressure-filled that appearance was and her surprised gratitude when, in succeeding days, she was broadly saluted for her grace and forthrightness. From that point forward, Rice was aggressively sought after by the media and regarded by some as the Administration's most effective champion. In 2005 Rice was entrusted with even more responsibility when she was charged with helping to shape and carry forward the President's foreign policy as Secretary of State. As such, she proved herself a deft crafter of tactics and negotiation aimed to contain or reduce the threat posed by America's enemies. Here, she reveals the behind-the-scenes maneuvers that kept the world's relationships with Iran, North Korea and Libya from collapsing into chaos.

She also talks about her role as a crisis manager, showing that at any hour - and at a moment's notice -- she was willing to bring all parties to the bargaining table anywhere in the world. No Higher Honor takes the reader into secret negotiating rooms where the fates of Israel, the Palestinian Authority, and Lebanon often hung in the balance, and it draws back the curtain on how frighteningly close all-out war loomed in clashes involving Pakistan-India and Russia-Georgia, and in East Africa. Surprisingly candid in her appraisals of various Administration colleagues and the hundreds of foreign leaders with whom she dealt, Rice also offers here keen insight into how history actually proceeds. In No Higher Honor, she delivers a master class in statecraft -- but always in a way that reveals her essential warmth and humility, and her deep reverence for the ideals on which America was founded.

Inside the Cold War Chris Adams, 2004-12-01 General Adams reflects on his experiences in the cold war, during which he served in both manned bombers and missile silos. He tells stories of famous and not-so-famous cold warriors, including some from the US Navy. Some stories are humorous; some stories are tragic. Having traveled extensively in Russia and some former

Soviet Union states after retirement, General Adams tells us about his former adversaries, the Soviet cold warriors. In the process, he leaves no doubt about his respect for all who served so valiantly in the strategic triad--the strategic command, the ICBM force, and the submarine Navy.

A-10s Over Kosovo Phil M. Haun, Christopher E. Haave, Air University Press, 2011 First published in 2003. The NATO-led Operation Allied Force was fought in 1999 to stop Serb atrocities against ethnic Albanians in Kosovo. This war, as noted by the distinguished military historian John Keegan, marked a real turning point . . . and proved that a war can be won by airpower alone. Colonels Haave and Haun have organized firsthand accounts of some of the people who provided that airpower-the members of the 40th Expeditionary Operations Group. Their descriptions-a new wingman's first combat sortie, a support officer's view of a fighter squadron relocation during combat, and a Sandy's leadership in finding and rescuing a downed F-117 pilot-provide the reader with a legitimate insight into an air war at the tactical level and the airpower that helped convince the Serbian president, Slobodan Milosevic, to capitulate.
