Foundations of Deep Reinforcement Learning Laura Graesser,Wah Loon Keng,2019-11-20 The Contemporary Introduction to Deep Reinforcement Learning that Combines Theory and Practice Deep reinforcement learning (deep RL) combines deep learning and reinforcement learning, in which artificial agents learn to solve sequential decision-making problems. Black Picture Show Bill Gunn,2002

The Padrone (Piano-Vocal Score) George Whitefield Chadwick,2020-01-01 George Whitefield Chadwick (1854–1931), a Massachusetts native identified with the so-called second "New England School" of composers, is among the most important and creative American composers in the generation that bridged the nineteenth and twentieth centuries. Trained in part in Germany, he spent much of his working life educating other musicians at the New England Conservatory of Music, which he led from 1897 until his death. Chadwick fashioned a compelling individual musical voice rooted in a Euro-American musical idiom; his orchestral and chamber music was performed with some frequency in his own day and has been revived in ours. His opera The Padrone, set to a libretto by David K. Stevens (based on an idea from Chadwick himself), was composed in 1912; it was strongly influenced by the "verismo" operas of the time (such as Leoncavallo's Pagliacci and Puccini's Tosca), which attempted to bring to opera the naturalism

of such late nineteenth-century writers as Zola and Ibsen. The Padrone is set in an American city (presumably the North End of Boston) in the "present." The story, a tragic tale in two acts with an orchestral interlude, revolves around a ruthless member of the Italian community ("the padrone") and his exploitation of more recently arrived immigrants. Chadwick composed The Padrone for submission to the Metropolitan Opera Company in New York, but the opera was rejected, probably because of its gritty realism, and was never staged during Chadwick's lifetime. (The Padrone exists only in manuscript form and has never been published; its only public performance so far took place in 1997.) In contrast to American operas of its generation that dramatize myths and legends from the ancient past, The Padrone brings a modern story to the stage, set to music of dramatic power and superb craftsmanship.

Records of English Court Music Andrew Ashbee,2020-09-23 Pioneering work on the musical material from the archives of the English court was undertaken by Nagel (1894), Lafontaine (1909) and Stokes (in the Musical Antiquary 1903-1913). Records of English Court Music (a series of seven volumes covering the period 1485-1714) is the first attempt to compile a systematic calendar of such references. It aims to revise these earlier studies where necessary, adding significant details which researchers omitted, clarifying the context of documents and substituting current call-marks for defunct references. Volume V is primarily concerned with the post-Restoration years already partially covered in volumes I and II. The material from the Exchequer and Declared Accounts of the Treasurer of the Chamber has been revised to include references to trumpeters and drummers. Other sections are devoted to material outside the Lord Chamberlain's papers: the Signet Office Docquet Books, Secret Service accounts and more from the Exchequer; the Corporation of Musick (controlled by the Court musicians) and to the range of music material from accounts of the Receivers General. Samples from the comprehensive records of the Lord Steward's department (including those of the Cofferer of the Household) are also provided. Andrew Ashbee was the winner of the Oldman Prize in 1987 for Volume II in the series of 'Records of English Court Music', awarded by the UK branch of the International Association of Music Libraries for the year's best book on music librarianship, bibliography and reference.
