Transient Light Ian Cameron, 2014-03-17 Although aimed at keen amateur photographers who wish to break into the professional market, the superb images and technical expertise offer something for all levels of skill and will also inspire those just becoming interested in photography and more established photographers who need to re-focus their photographic motivation. The book's primary goal is to draw the attention of readers to the absolute importance of light and how to make the best use of it, with an emphasis on being in the right place at the right time, anticipating fine light and ensuring that for the short duration that those qualities are present, they are successfully recorded to film or pixel. However, composition and technical expertise are also vitally important and Ian outlines the best field techniques for choosing the correct exposure, discusses depth of field, hyper-focal focusing, exposure bracketing and the use of appropriate filters.

The Best Camera Is The One That's With You Chase Jarvis, 2009-09-18 A beacon of creativity with boundless energy, Chase Jarvis is well known as a visionary photographer, director, and social artist. In *The Best Camera Is The One That's With You*, Chase reimagines, examines, and redefines the intersection of art and popular culture through images shot with his iPhone. The pictures in the book, all taken with Chase's iPhone, make up a visual notebook—a photographic journal—from the past year of his life. The book is full of visually-rich iPhone photos and peppered with inspiring anecdotes. Two megapixels at a time, these images have been gathered and bound into a book that represents a stake in the ground. With it, Chase underscores the idea that an image can come from any camera, even a mobile phone. As Chase writes, “Inherently, we all know that an image isn't measured by its resolution, dynamic range, or anything technical. It's measured by the simple—sometimes profound, other times absurd or humorous or whimsical—effect that it can have upon us. If you can see it, it can move you.” This book is geared to inspire everyone, regardless of their level of photography knowledge, that you can capture moments and share them with our friends, families, loved ones, or the world at the press of a button. Readers of *The Best Camera Is The One That's With You* will also enjoy the iPhone application Chase Jarvis created in conjunction with this book, appropriately named *Best Camera*. *Best Camera* has a unique set of filters and effects that can be applied at the touch of a button. Stack them. Mix them. Remix them. *Best Camera* also allows you to share directly to a host of social marketing sites via www.thebestcamera.com, a new online community that allows you to contribute to a living, breathing gallery of the best iPhone photography from around the globe. Together, the book, app, and website, represent a first-of-its-kind ecosystem dedicated to encouraging creativity through picture taking with the camera that you already have. *The Best Camera Is The One That's With You*—shoot!
